## PART 1: YEAR 10 A YEAR OF DECISIONS

This booklet is for Year 10 students choosing their courses for Years 11 and 12. Its aim is to help you think about the next two years and make the best decision for successful study in senior school and beyond.

## INTRODUCTION

In Year 10 you will choose the courses that you will study for the next two years. Although there are many pathways to uni or college, choosing the right courses at school can make it easier to enter and succeed at tertiary study.

In this booklet, UAC's participating institutions have listed the courses they plan to offer for 2021 admissions. For each course they have also set out, where applicable, details of:

- areas of study
- prerequisites
- assumed knowledge
- recommended studies
- additional selection criteria.

Some NSW institutions have prerequisites and many specify assumed knowledge and recommended studies. This is important information to consider when choosing courses to study in Years 11 and 12.

Most institutions offer bridging courses if you have not studied the HSC courses listed as assumed knowledge or recommended studies, but bridging courses are not equivalent to the two-year HSC course and may add significantly to your workload.

This booklet also provides general information about HSC courses, how the ATAR is calculated and used for tertiary entry, and why your selection rank for a course might be higher than your ATAR. There are worksheets to guide you through the steps involved in choosing your courses for Years 11 and 12.

If you're not sure about the exact career path you want to follow, this booklet can help you choose courses which will keep your options open and give you the best chance of succeeding in the future.

## ABOUT UAC

The Universities Admissions Centre (UAC) is the central office that receives and processes applications for undergraduate and postgraduate courses at its participating institutions, mainly in NSW and the ACT.

In 2017–18, there were more than 2,000 undergraduate courses listed through UAC.

UAC also:

- calculates and provides the Australian Tertiary Admission Rank (ATAR) to NSW HSC students
- processes applications for Schools Recommendation Schemes (SRS)
- processes applications for Educational Access Schemes (EAS)
- processes applications for some Equity Scholarships (ES).

## UAC JARGON

Here are definitions of the common terms used by UAC, universities and colleges.

### Additional selection criteria

Compulsory requirements, either in addition to, or instead of, normal admission which you must meet to be considered for selection into a course. Examples include a personal statement, questionnaire, portfolio of work, audition, interview or test.

You should find out as soon as possible if the course you're interested in has additional selection criteria as some of these require materials and evidence of experience to be compiled or documented during Years 11 and 12.

### Adjustment factors

Factors that institutions consider in order to increase your selection rank for a particular course (eg achievement in an HSC course related to the student's preferred degree or eligibility for Educational Access Schemes). They do not change your ATAR. These adjustments used to be referred to as 'bonus points'.

### Admission criteria

The minimum qualifications required for you to be considered for entry to a particular course. Entry to many courses is competitive and the attainment of minimum qualifications does not guarantee you will be offered a place.

### Advanced diploma

An award requiring two or three years of full-time, or equivalent part-time, study. This is the highest of the undergraduate diploma awards.

### Areas of study

Areas of study; or specialisation within a course; that may consist of a sequence of subjects/units in a single discipline. They are generally studied throughout the course as major areas of study or specialisations or sub-majors, or additional or supporting subjects or units.

### Associate degree

An award requiring two years of full-time, or equivalent part-time, study which equates to the first two years of a designated three-year degree course.

### Assumed knowledge

Some institutions assume you have knowledge of specified NSW HSC courses or equivalent before beginning your course. If you do not have the assumed level of knowledge but have met the admission criteria you may still be selected

for the course, but you may have some difficulty coping with your studies. Bridging courses may be recommended for some students who do not have the assumed level of knowledge.

## ATAR (Australian Tertiary Admission Rank)

A measure of academic achievement in the HSC that helps institutions rank applicants for selection to tertiary courses. The ATAR is a rank, not a mark.

## ATAR courses

Board Developed courses for which the NSW Education Standards Authority conducts examinations that yield graded assessments. Classified as Category A courses or Category B courses, these are the only courses that can be included in the ATAR calculations.

## Bachelor degree

An award requiring three or four years of full-time, or equivalent part-time, study.

## Bonus points

(see Adjustment factors)

## Bridging courses

Courses that enable you to achieve the required level of assumed knowledge for a tertiary course. These courses are only taught to an introductory level and are not equivalent to the two-year HSC course.

## Category A courses

ATAR courses that have the academic rigour and depth of knowledge to provide an adequate background for tertiary studies and can contribute to the ATAR calculation.

### Category B courses

ATAR courses that don't provide an adequate background for tertiary studies, but can contribute to the ATAR when combined with Category A courses. No more than 2 units of Category B courses can be included in the ATAR calculation.

### Combined/double/dual degrees

Allow students to complete two degrees in less time than if the two degrees were studied sequentially.

### Deferment

Delaying the commencement of a course, usually for six months or a year. Some institutions only grant deferments in special circumstances.

### Diploma

An award usually requiring two or three years' full-time, or equivalent part-time, undergraduate study. These courses are usually characterised by more emphasis on practical skills than on the theoretical content.

### HSC subjects and courses

A subject is a general area of study or a key learning area. A course is a branch of study within a subject. A subject may have several courses. For example, the courses English Studies, English (Standard), English (Advanced), HSC English Extension 1, HSC English Extension 2 and English as an Additional Language or Dialect are all courses within the subject of English.

### Institution

A provider of tertiary study, such as a university or a college. UAC's participating institutions are those for which you apply through UAC.

### Lowest ATARs/selection ranks

The ATARs or selection ranks required in order to be offered a place in a course. The lowest ATARs and selection ranks for courses in a particular year are only known after all semester 1 offers for that year are made.

The lowest ATAR does not take into account whether or not the applicant with that ATAR was offered a place as a result of adjustment factors being taken into consideration.

The lowest selection rank does take into account the impact of adjustment factors, such as equity or performance in an HSC course.

### NSW Education Standards Authority (NESA)

Sets the core curriculum for Kindergarten to Year 12, sets guidelines for school assessment tasks, and sets, organises and marks the HSC examinations for government and non-government schools in NSW.

### Open days

Open days are set aside for prospective students to visit a campus to view the facilities and meet academic staff and students.

### Pathway courses

Non-degree courses – such as foundation studies, preparatory courses and certificates, diplomas or associate degrees – offered by institutions to applicants who don't meet the entry requirements for their course or need further support and preparation before studying at degree level. Many institutions offer entry into the degree after successful completion of the corresponding pathway course. Some institutions offer pathway courses through UAC.

### Prerequisites (see also Assumed knowledge)

A specified NSW HSC course or equivalent that you need to have completed, or achieved a specified standard in, before you are eligible to be offered a place in the tertiary course (course prerequisites) or a subject within that course (subject prerequisites).

### Recommended studies

NSW HSC or equivalent courses that institutions suggest will help you in your chosen university course. However, if you haven't studied these courses your chances of selection are not affected.

### Undergraduate course

An entry-level course for first-time university students that leads to a first qualification, such as a bachelor degree, an associate diploma or a diploma.

## ALL ABOUT THE HSC AND THE ATAR

Understanding more about the HSC, the ATAR and applying to uni will help you make the best decisions about your courses, so here's what it's all about.

### THE NSW HSC

Studying for the NSW HSC begins in Year 11 with preliminary courses and ends with the HSC exams at the end of Year 12. Your Year 12 assessment marks and your HSC exam marks will contribute equally to your final HSC marks.

To be eligible for the HSC you need to meet the following requirements:

- complete at least 12 units of preliminary courses in Year 11
- complete at least 10 units of courses in Year 12, including a 2-unit English course.

Most courses are 2 units and to qualify for the HSC at least 6 units must be in courses examined by the NSW Education Standards Authority (NESA).

Being eligible for an HSC doesn't necessarily mean you will be eligible for an ATAR – read the next section for ATAR eligibility requirements.

### HSC COURSES

There are many HSC courses but not all of them will contribute to an ATAR.

#### ATAR courses

ATAR courses are developed by NESA, which conducts formal examinations that produce graded assessments. These Board Developed courses are the only courses that can be included in ATAR calculations.

Board Developed courses are classified as either Category A or Category B courses.

Category A courses have the academic rigour and depth of knowledge to provide an adequate background for tertiary studies.

Category B courses on their own don't provide an adequate background for tertiary studies, but can contribute to the

ATAR if the other courses included in the ATAR are the more academically demanding Category A courses.

For this reason, only 2 units of Category B courses can be included in the ATAR calculation.

HSC Board Developed courses that will be examined in 2020 are listed in the tables on pages 40-41.

#### Other courses

There are other courses you can study as part of the HSC. Vocational courses are industry-based, hands-on courses and usually include work skills and work placements. These courses may be delivered at your school, at another school or at TAFE.

TAFE-delivered HSC VET (TVET) courses, also known as Industry Framework courses, are developed or endorsed by NESA and include Category B courses.

HSC Board Endorsed courses can be either Content Endorsed courses (with syllabuses endorsed by NESA) or School Developed courses (approved by NESA). All Board Endorsed courses count towards your HSC but they do not contribute to the ATAR. Content Endorsed courses are listed on page 41.

### Distance education

If you live in an area that is isolated, have special circumstances that prevent you from attending school on a regular basis or meet other criteria, you can study through distance education.

There are more than 100 HSC courses and UAC's participating institutions are aware that not every school offers all courses. If your school does not offer a course recommended as preparation for tertiary study, ask the institution about supplementary studies you may need to undertake.

### THE ATAR

The first thing to understand is that the ATAR is a rank, not a mark. It's a number between 0.00 and 99.95 with increments of 0.05. The ATAR provides a measure of your overall academic achievement in relation to that of other students and helps universities rank applicants for selection into their courses.

The ATAR indicates your position relative to the students who started high school with you in Year 7 (in other words, your age group). So, an ATAR of 80.00 means that you are 20 per cent from the top of your Year 7 group, even though not everyone who started with you in Year 7 went on to achieve an ATAR.

The average ATAR is usually just below 70.00. Some people are surprised by this, thinking that the average should be 50.00. It would be 50.00 if everyone from Year 7 went on to achieve an ATAR. But because the students who leave

school early are typically less academically able than the ones that stay on, the students receiving ATARs are a smaller, more academically able group, and the average ATAR for this group is higher.

UAC notifies NSW HSC students of their ATAR. Year 12 students can access their ATAR on UAC's website or the My UAC app in December.

To be eligible for an ATAR, NSW students must satisfactorily complete at least 10 units of ATAR courses.

These ATAR courses must include:

- 8 units of Category A courses
- 2 units of English
- three Board Developed courses of 2 units or greater
- four subjects.

Remember that when you choose your program of study for the HSC, you must make sure you will be eligible for an ATAR if you wish to study at university.

#### Satisfactorily completing a course

You will be considered to have satisfactorily completed a course if, in the principal's view, there is sufficient evidence that you have:

- followed the course developed or endorsed by NESA
- applied yourself with diligence and sustained effort to the set tasks and experiences provided in the course by the school
- achieved some or all of the course outcomes
- made a genuine attempt at assessment tasks that total more than 50 per cent of the available school assessment marks for that course.

You will also need to make a serious attempt at the examination for the course.

Failure to satisfactorily complete a course will result in that course not contributing to the eligibility requirements. If the course is a 2-unit course for which there is an associated extension course, neither course will contribute towards your ATAR.

#### How the ATAR is calculated

The ATAR is based on an aggregate of scaled marks in 10 units of ATAR courses comprising your:

- best 2 units of English
- best 8 of the remaining units, which can include up to 2 units of Category B courses.

There are roughly 27,000 different patterns of study completed by students for the HSC. How can we compare? One word – scaling.

#### ATAR myths

It's a myth that choosing certain courses will automatically increase your ATAR. There is no magic formula for getting a good ATAR; it all depends on how well you've done in all your courses in comparison to other students.

Marks are scaled according to a course's scaled mean. The scaled mean indicates the academic ability of the course candidature, which can change from year to year.

You shouldn't choose courses based on what you believe are the likely effects of scaling on your ATAR. Your course choices should be based on your interests, demonstrated abilities and future career plans.

Studying courses that you are not good at or happy with may mean you won't do your best or achieve good marks.

The only way to maximise your ATAR is to:

- study hard
- do your best
- have a good balance between study and other activities.

As long as you have chosen the courses you are good at and do well in, you will have the best chance of maximising your ATAR.

Lots of students get HSC marks between 70 and 80, so their rankings are really spread out. Getting closer to 80 will make a big difference to your ATAR.

### The ATAR in the ACT

The ATAR calculated in the ACT is directly comparable to the ATAR calculated in NSW and other states.

The ACT operates a system of school-based curriculum and assessment through the ACT Board of Senior Secondary Studies (BSSS). Each college determines the courses (and units) that they offer to students. There are no compulsory courses or units.

Assessment is continuous school-based assessment and courses are taught and assessed unit by unit. There are no examinations set by a central authority for any subject.

If you're an ACT Year 12 student and want to apply for tertiary study, you must sit the ACT Scaling Test (AST). The AST is used to calculate your ATAR.

The calculation of the ATAR in the ACT is based on your best three scaled course scores from major courses plus 0.6 of the next best scaled course score. The scaled course scores are then added to form an aggregate score. Students are then ranked based on their aggregate score, which is converted to an ATAR.

As your ATAR is calculated from your performance in the AST, if you drop a course it may not affect your ATAR directly.

However, you need to take into account prerequisites for tertiary courses outlined in this booklet.

If you are a college or school student in the ACT and you are thinking about studying at a UAC participating institution, you may need to check how your ACT Senior Secondary Certificate courses compare to NSW HSC courses.

The following table shows indicative course comparisons for key subjects for admissions. For a full listing of the most recent course-comparison information, visit the UAC website.

#### ACT courses comparable to NSW HSC courses

ACT course	NSW HSC course
Biology (Major)	Biology
Chemistry (Major)	Chemistry
English (Major)	English (Advanced)
English (Major/Minor)	HSC English Extension 1
English (Double Major)	HSC English Extension 2
Mathematical Methods (Major), Specialist Mathematics (Major)	Mathematics (Advanced)
Specialist Mathematics (Major/Minor)	HSC Mathematics Extension 1
Specialist Mathematics (Double Major)	HSC Mathematics Extension 2
Music (Major)	Music 2
Physics (Major)	Physics
Art Production (Major), Creative Art (Major), Visual Arts (Major)	Visual Arts

### APPLYING TO UNI

Every year, more than 50,000 Year 12 students apply through UAC for admission to courses offered by UAC's participating institutions. For the majority of courses there are more applicants than places, so applicants are ranked for selection.

For most courses, your selection rank is your ATAR, but an institution may increase your selection rank for certain courses in recognition of, for example, your performance in related HSC courses or equity considerations (read page 12). Therefore, your selection rank may be higher than your ATAR for certain institutions or courses.

#### Admission criteria

In addition to the ATAR, many institutions may specify other admission criteria such as:

- prerequisites
  - course prerequisites
  - subject prerequisites
- additional selection criteria.

For example, an advanced computing degree might specify Mathematics (Advanced) as a course prerequisite. If you haven't studied Mathematics (Advanced), you haven't met this prerequisite and you won't be considered for the course, regardless of your ATAR. Another course might specify Mathematics (Advanced) as a subject prerequisite. If you haven't studied Mathematics (Advanced), you can still be considered for the course but you won't be able to study certain subjects within that course.

Many courses have additional selection criteria. For example, visual arts courses will ask you to supply a portfolio and this will contribute to your selection for the course. Music-based courses may require an audition and others may require you to attend an interview, write a personal statement or sit a test.

Institutions can also indicate the HSC courses that they either assume you have studied before you start a particular tertiary course, or suggest you study to prepare for your chosen tertiary course. These are listed as:

- assumed knowledge
- recommended studies.

These are not admission criteria. If you don't have the assumed level of knowledge or haven't completed the recommended studies you can still be selected for the course but you may have difficulty coping with your studies or just not be as prepared as other students.

When you're choosing your Year 11 and 12 courses, use this booklet to find out if there are any admission criteria, assumed knowledge or recommended studies for the course you're interested in. Then, when you apply for tertiary study at the end of Year 12, you'll be able to meet any entry requirements to the course and have the foundations for successful tertiary study. There is more information about admission criteria on page 35.

### REQUIREMENTS FOR TEACHING

For registration as a teacher in NSW schools, graduates will need to meet requirements set out by the NSW Education Standards Authority (NESA). There is an expectation that students entering teaching programs will have achieved a minimum of three Band 5s, one of which must be in English, in their HSC. Other approved pathways for students who do not meet this requirement are available. In addition, teaching students will need to pass national literacy and numeracy tests before graduation. For further information about the tests and specific entry requirements (including academic and non-academic criteria), check with the individual institutions.

### INTERNATIONAL BACCALAUREATE

If you attempt the International Baccalaureate (IB) Diploma or Bilingual Diploma in Australia they are recognised as equivalent to an Australian Year 12 qualification for admission to tertiary institutions in Australia.

IB students apply for uni through UAC in the same way as Year 12 students. However, IB students don't receive an ATAR; instead, they receive a UAC rank based on their total score.

On UAC's website you can view a table showing the conversion of the IB aggregate score to the UAC rank and a table that compares IB results with NSW HSC results.

You can also check which NSW HSC courses are considered comparable to your IB courses.

You may need to know how your IB courses compare to NSW HSC courses to check that you meet any course prerequisites, assumed knowledge and recommended studies, and also if you'll be eligible to have your selection rank adjusted for specific courses.

### ATARs and selection ranks

UAC and institutions publish the ATARs and selection ranks required for entry to a course in the previous admissions year.

The lowest ATAR for a course is the lowest ATAR (without any adjustments) of an applicant to whom an offer of a place was made.

The lowest selection rank is the lowest combination of ATAR and adjustment factors of an applicant to whom an offer of a place was made.

The interaction of three factors determines the lowest ATAR/selection rank:

- the number of places available in the course
- the number of applicants for the course
- the quality of those applicants.

These three factors mean that the lowest ATARs/selection ranks can change from year to year and are not known before applicants are selected for a particular course in a particular year.

The lowest ATAR/selection rank does not represent the average ability of the students accepted for the course and does not reflect the difficulty or quality of the course.

### Selection rank adjustments

Many applicants receive an offer to a course even though they have an ATAR below the published lowest selection rank. Often this is because other factors have been taken into consideration in combination with their ATAR and their selection rank for that course has been adjusted and is higher than their ATAR.

These adjustments (which we used to refer to as 'bonus points') are due to factors such as performance in HSC courses, living or attending school in a certain area, and applying for consideration through Educational Access Schemes.

Selection rank adjustments are applied differently from institution to institution and from course to course within the same institution. Visit each institution's website for details.

It's good to understand how your selection rank might be adjusted, but don't be swayed into choosing certain courses based on this knowledge. By the time you apply for tertiary study, schemes may have changed and it's more important to focus on doing well.

### Educational Access Schemes

Your selection rank may be increased if an institution considers you eligible for its Educational Access Schemes (EAS). Most institutions that participate through UAC have a scheme for applicants who've experienced long-term educational disadvantage (due to circumstances beyond their control or choosing) which has seriously affected their educational performance. A long-term educational disadvantage usually means a disadvantage that has lasted for at least six months.

Keep an eye out for uni information evenings – they'll help you navigate your HSC course selection.

## FREQUENTLY ASKED QUESTIONS

### How many courses should I take in Years 11 and 12?

The number of courses you study depends on how many courses you can realistically manage and succeed in. Generally, courses are 2 units and to be eligible for the HSC you must successfully complete at least 12 units of study in Year 11 and at least 10 units in Year 12.

You must also study at least four subjects. Mathematics is a subject; within that subject there are a number of courses – Mathematics Standard 1, Mathematics Standard 2, Mathematics (Advanced), HSC Mathematics Extension 1 and HSC Mathematics Extension 2.

Around 47% of students do only 10 units in the HSC. The next most common pattern is 11 units (around 17%).

### What should I remember if I have to change schools?

Not all schools offer the same HSC courses, so check that you'll be able to continue with the courses you have already been studying.

### If I decide to drop a course at the end of Year 11, what should I consider?

The most important thing for Year 11 students to consider is whether they will still be eligible for an ATAR if they drop any courses. Remember, to be eligible for an ATAR, you must satisfactorily complete at least 10 units of ATAR courses in Year 12, including:

- 8 units from Category A courses
- 2 units of English
- three Board Developed courses of 2 units or greater
- four subjects.

### How do I know if the course I'm dropping is a prerequisite for a course or subject I'd like to study at uni?

There are a few places you can check course and subject prerequisites:

- the institution entries in Part 2 of this booklet
- the undergraduate course search on UAC's website and the My UAC app
- the UAC Guide
- institution websites.

### Can I accelerate my HSC studies?

Yes, you can take a Year 12 course while in Year 11. The advantages of this can be:

- studying fewer courses in Year 12, meaning you can focus more on those units
- studying a broader range of subjects
- having extra units from which to draw your best 10 scaled marks for inclusion in your ATAR calculation.

However, accelerating your studies is no guarantee that you will improve your results.

### If I complete an accelerated course in Year 11, who am I ranked with?

Courses are scaled in the year you complete them and the scaled mark is available for inclusion in the ATAR calculation when you become ATAR eligible. You are ranked with others in the same ATAR cohort.

### How many units of maths can be included in the calculation of the ATAR?

Up to 4 units of maths can be included in the ATAR calculation. Students studying HSC Mathematics Extension 1 should be aware that it has a different weighting (in terms of units) depending on whether Mathematics (Advanced) or HSC Mathematics Extension 2 is taken as well.

If students study Mathematics (Advanced) (2 units), then HSC Mathematics Extension 1 accounts for 1 unit.

If students study HSC Mathematics Extension 2 (2 units), then HSC Mathematics Extension 1 accounts for 2 units. This is calculated by doubling the mark received for the 1-unit course.

If a student completes Mathematics (Advanced) and then goes on to satisfactorily complete HSC Mathematics Extension 1 and HSC Mathematics Extension 2, their results in Mathematics (Advanced) will not be included in the ATAR calculation, even if they have excelled in it.

### Will I get a better ATAR if I do a lower level of maths?

Not necessarily. You might have a higher position in a lower level course, but this will be offset by a lower scaled mean. Choose the level of maths that best suits your plans for further study. Also remember that institutions are more likely to adjust your selection rank in recognition of your performance in the higher level maths courses.

### Can a Category B course completed in Year 11 be included in my ATAR calculation?

Yes. Any course completed in Year 11 will be available for inclusion in the ATAR calculation. Whether it is actually included will depend on whether it is among your best 8 scaled units (after English).

Remember also that for a Category B course to be included in the ATAR calculation, the examination must be completed. Therefore, schools must ensure that students studying Category B courses are enrolled with NESA for the course and the exam.

### Why do some courses scale better than others?

Courses have to be scaled so that marks in different courses can be compared with each other. Courses are scaled using the mean scores and distribution of marks, which indicate the ability of the course candidature. Courses such as HSC Mathematics Extension 2 and Physics traditionally scale well because of this. However, students must achieve high HSC marks (and high positions) to gain any benefit from scaling.

### Can I be disadvantaged by the school I attend?

No. The school you attend does not feature in the ATAR calculation. The ATAR calculation is based only on marks provided by NESA – no other information is used.

### Can I be disadvantaged by where I live?

No. Where you live is not used in the ATAR calculation.

### Can I get a better ATAR by studying more units?

No. You cannot assume that simply by studying more units your ATAR will be increased. While students who study more units tend to gain higher ATARs, there are a number of reasons why, such as each student's interest, motivation, effort and time management.

### Can I get a high ATAR studying courses such as Visual Arts, Business Studies and Hospitality?

Yes. It is possible to achieve a high ATAR regardless of courses studied. However, it is important to note that students who achieve very high ATARs are usually placed in the top group of students in all of their courses.

### Can I get a higher ATAR by studying certain courses?

No. Your ATAR indicates your overall position; that is, how well you have performed compared to other students. It is a myth that choosing certain courses increases the ATAR. You can only maximise your ATAR by choosing courses you enjoy and do well in. Students who achieve high ATARs are generally placed near the top in all of their courses.

### How do I find out my ATAR?

ATARs are released on UAC's website and the My UAC app. Students log in to access their ATAR.

### When is the ATAR released?

ATARs are released in December each year on UAC's website and the My UAC app.

### What is meant by the 'lowest selection rank' for a course?

This is the lowest selection rank (combination of ATAR and adjustment factors) of an applicant to whom an offer of a place was made. We used to refer to this as the course 'cut-off'. It is not the lowest ATAR of an applicant who received an offer to the course.

The lowest selection ranks for courses in a particular year are only known after offers are made. Therefore, UAC publishes the previous year's selection ranks.

### Does UAC have an ATAR calculator?

No. UAC only advises students of their official ATARs on ATAR release day in December each year. UAC does not endorse the use of ATAR calculators. ATAR calculators do not use current data so can only be a general indication of a student's possible ATAR.

### What happens if a course is repeated?

Courses can be repeated over a period of up to five years. A student is considered to be repeating an HSC course if they:

- repeat the same course
- study a different course in the same subject area, apart from an extension course.

If a student repeats a course, only the marks for the latest satisfactory attempt will be available for inclusion in the calculation of their ATAR, even if they are lower than the earlier attempt.

Your ATAR is a rank (not a mark) based on your **position** compared to other students in the state.

Your HSC mark for each course is based on your **performance** in your exam and assessments.

### How do ACT students find out about the ATAR?

Information about the calculation of the ACT ATAR is available from the ACT Board of Senior Secondary Studies. Visit [bsss.act.edu.au](http://bsss.act.edu.au) or call (02) 6205 7181.

### If a uni increases my selection rank, does this mean my ATAR increases?

No. Institutions will only adjust your selection rank for a particular course; your ATAR will not change.

## STEP 1: CONSIDER

Year 10 is a good time to start thinking about your future – not just what you'd like to do for the next two years, but what you'd like to do beyond that. Are you thinking of further study, getting a job or doing an apprenticeship? The following pages will help you consider your options.

Being unsure of what you want to do next is quite common. You may already know that you would like to go on to further study but not be sure of the type of course you'd enjoy.

If you're looking at a specific career path you may already know what tertiary course you need to do. It's important that you understand all the requirements for this course when you choose your Year 11 and 12 courses.

Maybe the thought of more years of study after school isn't right for you just now. Perhaps you want to get straight into the workforce, or take up a traineeship or apprenticeship.

If you enter the workforce, consider how workplaces change over time and the importance of continuing to learn as your career develops. If you decide to come back to study in the future, there are other pathways to entry. Choosing courses at school that give you the broadest range of future options will make this easier for you later.

Think about your future, consider your abilities, investigate your options and make a plan.

You might want to start with the following questions.

## WHO INSPIRES YOU?

When thinking about your future, a good place to start is by looking around at who and what inspires you. If something inspires you it will motivate you to do your best.

This could be a person:

- your mum or dad
- other family members
- teachers
- neighbours or friends and their families
- someone prominent in public life like a community or church leader, politician or sports person.

Or it could be something you've seen or heard:

- a book, television show, movie or documentary
- a podcast or something you've seen online.

Think about why these people or things inspire you. Is it what they do, the way they relate to others, their community spirit, the story they tell or the message they give?

The things that inspire you can shape your future goals and dreams.

## WHAT DO YOU LIKE TO DO?

Think about the type of person you are and your interests.

Do you like:

- doing things outside or inside?
- helping others?
- working with technology?
- organising things?
- talking to people?
- finding out how things work?
- being original and creative?
- working on your own?
- working with others?

## FRED AND LAURA

Fred and Laura are in Year 10. At the moment the end of school seems a long way away, but they have started to consider their futures. They're not sure what they want to do after school but their parents and teachers are encouraging them to consider going on to further study after Year 12.

Fred goes to school in the city and enjoys hanging out with his friends. He's inspired by sports players and is the captain of his local basketball team.

Laura goes to school in the country and grew up on her family's farm. She loves it when her friends come to stay and they go horseriding, and she enjoys working with her dad and brother on local Landcare projects.

Fred also enjoys playing on his computer; he particularly likes a stock market game that he plays with his friends. Fred's dad is in business for himself and he's been helping Fred beat his mates. Fred also likes photography and a couple of his basketball photos have been in the local paper.

So far in high school Fred has done well in geography, history and economics and he really likes these subjects, which makes it easy for him to stay focused.

Laura's best marks are in science subjects and her teachers have encouraged her to continue with them in Years 11 and 12. She also really enjoys history and art classes.

Throughout this booklet we'll use Fred and Laura's story to show how you can navigate your way to tertiary study.

When planning your future career, consider your natural inclinations and abilities. For example, you may not be happy and successful as a park ranger if you don't enjoy the outdoors!

## WHAT ARE YOU GOOD AT?

Think about your academic skills and interests. What subjects are you good at? What do you enjoy studying? Often these are the same because you do well at subjects you enjoy and are interested in.

Investigate the types of jobs that use these subjects as key parts of what they do. For example, being good at geography could lead you to a job as a town planner, tour guide, cartographer or civil engineer. Being good at languages could lead you to a job as a customs officer, foreign affairs and trade officer, language teacher or translator, or you could work in an importing and exporting business.

Also consider what you're good at outside school. What extracurricular activities do you do? If you're good with pets, find out about jobs involving animals.

The table on pages 26–31 will help link your interests to possible careers and subject choices.

There are lots of ways to reach your goal, so also think about plans B and C.

## WHO CAN YOU TALK TO?

Talk to those around you about your options for the future. They may have some good suggestions and new ideas.

- Talk with your parents and family about their career choices.
- Talk to your teachers – they know your abilities and can give you suggestions about careers that may suit you.
- Talk to friends about what they're interested in, and what they've found out that they can share with you.
- Organise your own work experience – volunteer to work somewhere for a week to see if you enjoy it.
- Get a part-time job – it will give you a taste of what it's like to be in the workforce.
- Visit careers expos and uni open days (refer to the list at the front of this booklet).

- Use the undergraduate course search on UAC's website or in the My UAC app, where you only need a keyword, like 'music' or 'chemistry', to search more than 2,000 tertiary courses.
- You can also browse courses in the UAC Guide. Copies are available from your careers adviser, school library or UAC. (Year 12 students receive a copy through their school in July.)
- Contact the institutions you're interested in and talk to them about your options. You can start by looking at their websites.

Many tertiary institutions have school visit days so you can attend the campus, talk to lecturers and students, and get a feel for what a tertiary institution is like. Ask your teacher about these days or check the dates at the front of this booklet and organise to attend an open day with your parents or friends.

## BRAINSTORMING

Now that you've considered the questions in this section, use the worksheets that follow to organise your ideas and discover the areas of study that would suit you best. This will help you work out the courses that will help you achieve your goals. Fred and Laura did this exercise and the results are shown on the facing page.

## FRED AND LAURA

Fred and Laura's teachers have told them it's time to choose their subjects for Years 11 and 12, so they're exploring their options by doing some research.

**Fred** is keen to take his interest in sport further. His father has suggested he also look at business-related careers and his school careers adviser has suggested social sciences because his best marks are in these areas.

The table 'What are my options?' on pages 26–31 shows some options for Fred. Looking down the left column, which lists various interests, qualities and skills, there are several areas that could suit him. Fred is drawn to the following areas:

### Human Movement and Sport Sciences

Fred is interested in – and good at – sport and fitness. If his skills include being a good communicator, leader and motivator, and he's patient and enthusiastic, the second column shows that he could be a sport scientist, sports coach or trainer.

The third column shows that for these careers he could study sports coaching, sports management, anatomy and physiology or psychology. The table also shows which institutions offer these courses.

The most relevant subjects for him to study for the HSC are shown in the fourth column: Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE), Physics and Modern History.

### Business, Commerce, Economics, Marketing and Management

Fred is interested in the stock market and business. His skills include being organised and independent, and he's good at leading, solving problems and critical thinking. Therefore, he could be a stockbroker, business analyst, accountant, banker or economist.

For these careers he could study banking, e-commerce or financial advising.

In addition to English and Mathematics (Advanced), he would be wise to include Business Studies, Economics, Society and Culture, Business Services (B), Human Services (B) or Retail Services (B) in his HSC courses. However, to be eligible for an ATAR he could only include 2 units of Category B courses.

**Laura's** school took her class to an open day at the local university and she has spoken to her family about her ideas. Her teachers think she should develop her strengths in science-related subjects but she's also keen on looking at careers in art-related areas.

The table 'What are my options?' on pages 26–31 shows some options for Laura in the following areas:

### Earth and Environmental Sciences

Laura is interested in being outdoors, the environment, nature and animals. Her skills include being observant and resourceful, and she's good at design, science, working outdoors, critical thinking and solving problems. The second column shows that these interests and skills are useful to an environmental scientist, a conservationist, a forestry worker, an environmental officer, and an environmental or urban planner.

The third column shows that for these careers she could study climate change, conservation studies, environmental management or sustainability. The table also shows which institutions offer these courses.

The fourth column shows that the relevant HSC subjects she could study are Biology, Chemistry, Design and Technology, Earth and Environmental Science, Mathematics (Advanced), Physics and Society and Culture.

### Creative and Performing Arts

Laura's skills include being creative, imaginative, organised and an independent worker, and she's good at drawing, art, making things, writing and solving problems. She could be an artist, animator or photographer, or she could use these professions as a stepping stone to becoming an art teacher.

For these careers, she could study animation, fine arts, graphic design, illustration, photography or visual arts.

In addition to English, for her HSC she could study Dance, Design and Technology, Drama, Music, Software Design and Development, Textiles and Design, Visual Arts and Entertainment Industry (B).

From their research it's clear that there are many exciting options for Fred and Laura's futures.

# Worksheet 1

The first step is to think about who you are: your interests, qualities and skills. Write these in the boxes below.

Then turn to the table 'What are my options?' on pages 26–31 and match your interests, qualities and skills with those in the left-hand column of the table. These are divided into subject areas and you may find you match one particular area of study, or several.

## WHO AM I?

**What am I interested in?**

---

---

---

---

---

---

---

---

**My personal qualities are...**

---

---

---

---

---

---

---

---

**My skills are...**

eg writing, listening, drawing, solving problems

---

---

---

---

---

---

---

---

<b>Who inspires me? Why?</b>	<b>Who can I talk to?</b>
<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	Three people I could talk to about my choices. <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>

# Worksheet 2

The next step is to use the 'What are my options?' table on pages 26–31 to match your answers in Worksheet 1 with areas of study. Work your way across the sheet below, filling in each column from the information in the table.

In the final column you will end up with a list of subjects that best match your abilities and future plans.

	Areas of study that match my interests, qualities and skills	What careers use those skills?	What tertiary courses could I study?	What HSC courses could I choose?
<b>Interests</b>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>
<b>Qualities</b>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>
<b>Skills</b>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>	<hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/> <hr/>

## STEP 2: EXPLORE

Now that you're thinking about your interests, qualities and skills, it's time to explore the careers these could lead to, the courses you could study at uni and the HSC courses you could choose to begin your journey.

### WHAT ARE MY OPTIONS?

Using the worksheets on pages 22–23, the following table will help you map your interests, qualities and skills to careers, areas of tertiary study and HSC courses. (Category B courses are identified with a **B**.)

These lists are not meant to be exhaustive; they are only a summary of what's available. A full list of tertiary courses available each year is published in the UAC Guide, on UAC's website and in the My UAC app.

ACU, CQU, CSU, GU, LTU, ICMS, MC, SCU, SIBT, TUA, UC, UON, UOW, UTS, WS</p>			

## STEP 3: DECIDE

In the previous section you explored how your interests, qualities and skills may lead to certain careers and uni courses. Now it's time to decide on your HSC courses.

## HSC SUBJECTS AND COURSES

At this stage don't think about the ATAR you need for entry to a specific course at a specific university as this could change once you are ready to apply. Think more about the courses or subject areas you are interested in and what will work best to help you get there. Open your mind to the multitude of possibilities.

This booklet discusses both HSC subjects and HSC courses. A subject is the general name given to an area of study. A course is a branch of study within a subject. A subject may have several courses. For example, the subject of English has the courses of English as an Additional Language or Dialect, English Studies, English

(Standard), English (Advanced), HSC English Extension 1 and HSC English Extension 2. HSC subjects and HSC courses are listed in the table on pages 40–41.

If you want to study at uni but still can't decide on a course, choose HSC courses that make you eligible for an ATAR but also give you flexibility. For example, if you like both science and history you could pick from the science and history subjects in Years 11 and 12 (eg Biology, Chemistry, Physics, Investigating Science, Ancient History and Modern History). You would then be prepared for further study in either subject. Keep your options flexible so that when you are more sure about what you want to do, you're already on the way to getting there.

If you're sure you don't want to go to university then your choice of courses for Years 11 and 12 will not be based on ATAR eligibility. But you may change your mind in the next couple of years, so it could still be a good idea to choose courses that make you eligible for an ATAR.

## FRED AND LAURA

With his main areas of interest being sport and business, Fred has looked at a couple of courses in these areas at some of the universities in his city and checked to see if there are prerequisites, assumed knowledge, recommended studies or any additional selection criteria. Fred has found that if he were to apply for a degree in sport or exercise management he would need to have Mathematics (Advanced) and any two units of English as assumed knowledge. Luckily, he has chosen Mathematics (Advanced), and English is on his list because it's compulsory.

Laura has checked with the institution in her area about a degree in agriculture. It advises Biology and/or Chemistry as recommended studies with Mathematics (Advanced) as assumed knowledge. Laura has chosen both Biology and Mathematics (Advanced) so she is well prepared if she goes on to study this course.

## FRED AND LAURA

We know that Fred is interested in both sports-based and business degrees. These areas of study have the subject of Mathematics (Advanced) in common, so Fred's first HSC course choice is Mathematics (Advanced). He's also decided to choose Business Studies and a science, Biology, to cover his interests. English is compulsory so Fred needs to choose two more subjects. He chooses Modern History and Visual Arts to make up his 12 units.

We know Laura is interested in degrees involving agriculture and the environment. Common subjects in these areas of study are Biology and Mathematics (Advanced). Laura has also done well in science so these are good HSC course choices for her.

She then chooses Visual Arts, which covers her artistic interests, along with English, which is compulsory. Laura also chooses Modern History, which she thinks will be interesting, and Business Studies, which her mother thinks may be useful in managing the farm.

With the HSC courses they've chosen, both Fred and Laura will have a good background knowledge of key subjects in these degree areas if they decide to study them.

Fred and Laura have therefore decided on the same courses for the HSC: Biology, Business Studies, English (Advanced), Mathematics (Advanced), Modern History and Visual Arts.

### Admission criteria

Some tertiary courses require you to have studied certain HSC courses, or their equivalent, or to have achieved a specific standard before you'll be offered a place in the course.

If you're sure about what you want to study at uni, check you can answer the following questions about your course:

- Are there any prerequisites?
- Is there any assumed knowledge?
- Are there recommended studies?
- Are there any additional selection criteria?

These requirements can be found in the institution entries in Part 2 of this booklet. Part 2 is divided into main areas of study at each institution, so it's a good idea to check a couple of different institutions you're interested in for their requirements. Institutions can describe their admission criteria in different ways because they have different policies.

**English Standard and Mathematics Standard 2 have the largest candidatures in the HSC.**

### CHOOSING COURSES

There are many different types of HSC courses, but only Category A and B courses can be included in the calculation of your ATAR. All HSC courses are listed in the table on pages 40–41.

#### Category A courses

This is a general guide to HSC Category A subjects and courses accepted by institutions in NSW and the ACT for entrance purposes. Always check with the relevant institution to confirm the information.

#### English

In NSW, studying English is compulsory and two units of English must be included in the calculation of your ATAR. In addition, some institutions require English as a subject prerequisite or course prerequisite. Check the areas of study in each institution

entry for details. If you are considering studying English at tertiary level, English (Advanced) or HSC English Extension 1 is usually recommended.

#### **Agriculture, Biology, Chemistry, Earth and Environmental Science, Engineering Studies, Investigating Science, Physics, Science Extension**

If you wish to study a course based on science at tertiary level – for example, agriculture, engineering, natural resources, computing, medical or rural science – you are advised to study as much science and mathematics as you can at school. You can do this by taking as many science-based courses as you are able to handle within the HSC rules.

#### **Mathematics**

A knowledge of mathematics is desirable for some tertiary courses. It is also recommended, along with physics, for all degree courses requiring a study of physics.

Ideally you should select either HSC Mathematics Extension 1 or HSC Mathematics Extension 2

if you wish to continue studying mathematics, mathematical statistics, actuarial studies or computer science beyond your first year at uni. These courses are the best preparation for the study of all branches of engineering and physics after the first year.

Mathematics (Advanced) (not Mathematics Standard 2) is recommended by most institutions as the minimum requirement for further study in a variety of subjects, including architecture, agricultural economics, biological sciences, business, chemistry, commerce, economics, geology, psychology, social sciences, statistics, and urban and regional planning.

**HSC Mathematics Extension 1** – the unit value of this course changes depending on whether the course is taken in combination with Mathematics (Advanced) or HSC Mathematics Extension 2, as follows:

- Mathematics (Advanced) (2-unit) + HSC Mathematics Extension 1 (1-unit)
- HSC Mathematics Extension 1 (2-unit) + HSC Mathematics Extension 2 (2-unit).

#### **Languages (other than English)**

Most institutions offer courses in languages for first-year students who have no previous knowledge of the particular language.

If you are considering further study in a language, however, including the language in your HSC program is to your advantage. This may be essential if you intend to proceed to fourth-year honours in that language.

Also ask the relevant institution whether specific requirements have been set for the study of a language.

Beginners courses are accepted by all institutions for entrance purposes but are not recommended as preparation for study in that subject.

#### **Ancient History, Economics, Geography, Modern History**

Any of these HSC courses may be included in your HSC program to satisfy tertiary entrance criteria. At tertiary level, however, they are taught on the assumption that students have not studied them previously.

#### **Music**

Music can be included in your HSC program by studying Music 1, Music 2 or HSC Music Extension. If you are considering further study in music, find out the minimum entry standard required. Some courses require an audition.

#### **Visual Arts**

If you are considering further study in visual arts, find out the minimum entry standard required. Most courses require presentation of a portfolio of work. This is indicated under additional selection criteria in the areas of study for the institution.

#### **Aboriginal Studies; Business Studies; Community and Family Studies; Dance; Design and Technology; Drama; Food Technology; Industrial Technology; Information Processes and Technology; Legal Studies; Personal Development, Health and Physical Education (PDHPE); Society and Culture; Software Design and Development; Studies of Religion; Textiles and Design**

These HSC courses are accepted by all institutions for entrance purposes.

#### **Category B courses**

Remember that only the best two units from your Category B courses are available for inclusion in the calculation of your ATAR.

#### **Courses that don't contribute to the ATAR**

Board Endorsed courses (eg Photography, Video and Digital Imaging) are developed by schools or universities, rather than NESA. They do not count towards the calculation of the ATAR but may provide valuable experience and knowledge in a specific subject area.

Life Skills courses, which are studied by students with special education needs, and HSC-University Pathways programs, for high-achieving students, are also not ATAR courses.

#### **Subject and course choice examples**

Following are examples of possible subject combinations chosen by students for Years 11 and 12. Remember that you must have at least two units of English.

First, let's look at Fred and Laura's course choices.

Fred and Laura		
Course	Units	Category
Biology	2	A
Business Studies	2	A
English (Advanced)	2	A
Mathematics (Advanced)	2	A
Modern History	2	A
Visual Arts	2	A

Fred and Laura are eligible for an ATAR because they meet all the ATAR eligibility rules (read page 8). They are also undertaking 12 units. To be eligible for an ATAR you need to have 10 units of ATAR courses, so even if they drop a course (other than English) for Year 12 they will both still be eligible.

Emily		
Course	Units	Category
English (Advanced)	2	A
Mathematics (Advanced)	2	A
Geography	2	A
Financial Services	2	B
Hospitality	2	B
Tourism and Events	2	B

Emily is not eligible for an ATAR because she is studying 6 units of Category A courses and 6 units of Category B courses. No more than 2 units of Category B courses can be used in the calculation of the ATAR. She therefore only has 8 units of courses that can be used to calculate the ATAR. To be eligible for an ATAR you need to have 10 units of ATAR courses.

Joshua – Year 11		
Course	Units	Category
English (Advanced)	2	A
HSC English Extension 1	1	A
Mathematics (Advanced)	2	A
HSC Mathematics Extension 1	1	A
Chemistry	2	A
Biology	2	A
Ancient History	2	A

At the end of Year 11, Joshua decided to drop Chemistry and Biology and take on HSC Mathematics Extension 2 and HSC English Extension 2. Joshua's new pattern of study now looks like this:

Joshua – Year 12		
Course	ATAR units	Category
English (Advanced)	2	A
HSC English Extension 1	1	A
HSC English Extension 2	1	A
Mathematics (Advanced)	0	A
HSC Mathematics Extension 1	2	A
HSC Mathematics Extension 2	2	A
Ancient History	2	A

Even though Joshua is studying all Category A courses, he is not eligible for an ATAR for the following reasons.

First, only up to 4 units of maths can be included in the ATAR calculation. So taking Mathematics (Advanced), HSC Mathematics Extension 1 and HSC Mathematics Extension 2 means 2-unit Mathematics (Advanced) will no longer be available for Joshua's ATAR calculation, even if he excels in it.

Also, to be eligible for an ATAR you must have completed four subjects. Joshua has only completed three subjects: English, Mathematics and Ancient History.

Jessica		
Course	Units	Category
English (Standard)	2	A
Business Studies	2	A
Legal Studies	2	A
Economics	2	A
Business Services	2	B
Hospitality	2	B

If Jessica keeps all her courses she will be eligible for an ATAR. But if Jessica drops a course this may change depending on which course she drops.

For example, if Jessica drops Business Services she will still be eligible for an ATAR as she still meets the ATAR eligibility rules of 8 units of Category A courses and 2 units of Category B courses.

But if Jessica decides to drop Legal Studies she will no longer be eligible for an ATAR as she will only have 6 units of Category A courses.

## HSC BOARD DEVELOPED COURSES TO BE EXAMINED IN 2020

### Category A courses

Note: Some course names may change as a result of the Stronger HSC Standards reforms. For further information and updates, visit the NESA website at [educationstandards.nsw.edu.au](http://educationstandards.nsw.edu.au).

Number	Course name	Unit value	Subject area
15000	Aboriginal Studies	2	Aboriginal Studies
15010	Agriculture	2	Agriculture
15020	Ancient History	2	Ancient History
15280	HSC History Extension <sup>1</sup>	1	Ancient History
15030	Biology	2	Biology

## BOARD ENDORSED COURSES (CONTENT ENDORSED COURSES)

Course name	Unit value	Subject area
Aboriginal Languages	1 or 2	Aboriginal Languages
Ceramics	1 or 2	Ceramics
Computing Applications	1 or 2	Computing Applications
Exploring Early Childhood	1 or 2	Exploring Early Childhood
Marine Studies	1 or 2	Marine Studies
Photography, Video and Digital Imaging	1 or 2	Photography, Video and Digital Imaging
Sport, Lifestyle and Recreation Studies	1 or 2	Sport, Lifestyle and Recreation Studies
Visual Design	1 or 2	Visual Design
Work Studies	1 or 2	Work Studies

### Notes

- You can study both Ancient History and Modern History, but there is only one HSC History Extension course. It is considered a course within the subject of either Modern History or Ancient History.
- You must study Music 2 if you wish to study HSC Music Extension.
- You may study either Studies of Religion I or Studies of Religion II, but not both.
- You may study only one of the following languages: Croatian continuers, Macedonian continuers, Serbian continuers.
- You can only count either Malay Background Speakers or Indonesian and Literature in your pattern of study.
- An optional HSC written examination is offered for students who complete the 240-hour HSC indicative course. If you want the results from this course to be available for inclusion in the calculation of your ATAR, subject to ATAR rules (read page 08), you must undertake the optional written examination. Other VET courses available in this subject area are not examinable. Check with your school or the NESA website at [educationstandards.nsw.edu.au](http://educationstandards.nsw.edu.au) for more information.
- An optional HSC written examination is offered for students who complete the 240 or 360 HSC indicative hour course. If you want the results from this course to be available for inclusion in the calculation of your ATAR, subject to ATAR rules, you must undertake the optional written examination. Other VET courses available in this subject area are not examinable.
- The unit value of this course changes depending on whether the course is taken in combination with Mathematics (Advanced) or HSC Mathematics Extension 2. Read 'Mathematics' on page 36.

## PART 2: INSTITUTION CRITERIA

In this section, UAC's participating institutions have listed the courses they plan to offer in 2021.

Under each course listed on the following pages, institutions have provided, where relevant, details of the following:

- areas of study within the course
- additional selection criteria
- prerequisites
- assumed knowledge
- recommended studies.

If these details are not provided under the course heading, there is no specific information you need to keep in mind when choosing your HSC courses.

Note that if an institution requires you to have studied a specific course in your HSC, the full name of the course is stated (eg HSC Mathematics Extension 1). Read pages 40–41 for a list of HSC Board Developed courses.

In some subject areas, more than one course may meet the requirements. When this occurs, institutions have not listed all of the courses they accept, but you can assume they will accept extension courses and courses in the same subject area that challenge higher order thinking. For example, if institutions accept Mathematics (Advanced) they also accept HSC Mathematics Extension 1 or HSC Mathematics Extension 2, but not Mathematics Standard 2.

If the institution does not require you to have studied a specific level in your HSC, it is stated as 'any two units of'. For example, where you read 'any two units of English', this means that any 2-unit English course is acceptable. Institutions that ask for 'any two units of science' indicate what courses this includes at the beginning of their entry.

### PREREQUISITES

Prerequisites are HSC courses (or equivalent) you must have studied in order to be considered for admission to certain tertiary courses. There are course prerequisites and subject prerequisites. There are also a small number of courses

that require applicants to have completed post-Year 12 studies (eg a Diploma of Nursing).

### Course prerequisites

Some tertiary courses require you to have successfully completed, or achieved a specified standard in, an HSC course or equivalent before you'll be offered a place in the course. If you do not have the required course prerequisites, you cannot be selected for the course even though you may have met the other admission criteria.

Not all institutions have course prerequisites. Of those that do, some specify a performance band you must have achieved in your HSC course.

### Subject prerequisites

Some subjects in a tertiary course require you to have successfully completed, or achieved a specified standard in, an HSC course or equivalent before you are able to enrol in those particular subjects.

If you do not have the required subject prerequisites but have met the admission criteria for the course, you can still be selected for the course, but you may be unable to take the particular subject within the course.

Contact the relevant institution for details of any specified levels of achievement that are required and bridging or introductory courses that can help you achieve the required standard.

## ADDITIONAL SELECTION CRITERIA

Some courses have additional selection criteria. You may need to provide a personal statement, answer a questionnaire, present a portfolio of work, attend an audition or interview, or sit a test such as the Undergraduate Medicine and Health Sciences Admission Test (UMAT).

## ASSUMED KNOWLEDGE

Some institutions assume you have a knowledge of specific HSC courses or equivalent before you begin the course. If you don't have the assumed level of knowledge but do have a suitable ATAR, you may still be selected for the course but have some difficulty coping with your studies.

Some institutions offer bridging or introductory courses to help you achieve the required level of assumed knowledge – contact the relevant institution for details.

## RECOMMENDED STUDIES

These are HSC or equivalent courses that the institutions suggest will help you in your chosen tertiary course. If you have not studied these HSC courses, your chances of selection are not affected, but you may be offered a bridging course.

## AUSTRALIAN CATHOLIC UNIVERSITY

acu.edu.au  
CRICOS provider numbers 00004G, 00873F

### Enquiries

#### Strathfield campus (Mt St Mary)

### READ THIS FIRST

- When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.
- Where a course is offered at the Canberra campus, both the NSW and ACT subject requirements are listed.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ACCOUNTING AND FINANCE

**Areas of study:** Accounting information systems, auditing, corporate accounting, entrepreneurial finance, financial accounting, financial instruments, financial risk management, management accounting, portfolio management, principles of finance, strategic management accounting

**Course prerequisites:** Any 2 units of English

### ARTS

#### Humanities

**Areas of study:** Business studies, communications, computing, creative writing, criminology, drama, economics, education studies, geography, graphic design, history, international development studies, literature, mathematics, philosophy, politics and international relations, psychology, sociology, study of religions, theological studies, visual arts

**Assumed knowledge:** Any 2 units of English.

**For mathematics:** Any 2 units of mathematics (other than Mathematics Standard 2)

#### Biomedical Science

**Areas of study:** Biomedical sciences

**Course prerequisites:** Any 2 units of English, any 2 units of mathematics

### BUSINESS ADMINISTRATION

**Areas of study:** Business law, economics, human resource management, international business, managing entrepreneurship and innovation, managing organisational change, marketing, organisational behaviour, strategic management

**Course prerequisites:** Any 2 units of English

### BUSINESS/COMMERCE AND MANAGEMENT

**Areas of study:** Accounting; business law; entrepreneurship; event management; finance; human resource management; Indigenous business studies; international business; management; marketing; occupational health, safety and environmental management

**Course prerequisites:** Any 2 units of English

### EDUCATION

#### Early Childhood Education (Birth to Five Years)

Strathfield/North Sydney

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
Canberra

**Course prerequisites:** Nil

#### Education (Early Childhood and Primary)

Strathfield/North Sydney

**Course prerequisites:** Three Band 5 HSC results, including English

**Assumed knowledge:** Any 2 units of mathematics

Canberra

**Assumed knowledge:** ACT: English (T) (Major), any mathematics (T) (Major) NSW: English (Advanced), any 2 units of mathematics

#### Education (Primary)

Strathfield/North Sydney

**Assumed knowledge:** Three Band 5 HSC results, including English, any 2 units of mathematics

Canberra

**Assumed knowledge:** ACT: English (T) (Major), any mathematics (T) (Major) NSW: English (Advanced), any 2 units of mathematics (other than Mathematics Standard 2)

#### Inclusive Education and Disability Studies

**Areas of study:** Community services, disability studies and school education

**Education (Secondary) – Exercise Science****Canberra**

**Areas of study\*:** Business studies, computing, economics, geography, history, modern languages, literature, mathematics, music, study of religions, visual arts

**Assumed knowledge:** ACT: English (T) (Major), any mathematics (T) (Major) NSW: English (Advanced), any 2 units of mathematics

\* With the exception of study of religion, all areas of study are completed in partnership with ANU.

**Education (Secondary) – Humanities****Strathfield**

**Areas of study:** Computing, drama, economics, geography, history, literature, mathematics, sociology, study of religions, visual arts

**Assumed knowledge:** Three Band 5 HSC results, including English, For mathematics: Any 2 units of mathematics (other than Mathematics Standard 2)

**Canberra**

**Areas of study:** Business studies, geography, history, literature, mathematics, modern languages, music, study of religions, visual arts

**Assumed knowledge:** ACT: English (T) (Major), SOSE (T) (Major) (subject in the area of Studies of Society and Environment) NSW: English (Advanced) For mathematics: any 2 units of mathematics (other than Mathematics Standard 2)

**Education (Secondary) – Mathematics****Strathfield**

**Areas of study:** Computing, drama, economics, geography, literature, mathematics, study of religions, visual arts

**Assumed knowledge:** Three Band 5 HSC results, including English For mathematics: Mathematics (Advanced)

**Education (Secondary) – Technology****Strathfield**

**Areas of study:** Computing, design and technology (common), food technology, industrial technology, textiles and design

**Assumed knowledge:** Three Band 5 HSC results, including English

**Education (Secondary) – Visual Arts****Strathfield**

**Areas of study:** Business studies, computing, drama, economics, geography, history, literature, mathematics, study of religions, visual arts

**Assumed knowledge:** Three Band 5 HSC results, including English

For mathematics: Mathematics (Advanced)

**Recommended studies:** Visual Arts

**EXERCISE AND SPORTS SCIENCE****EXERCISE SCIENCE\***

**Areas of study:** Exercise, sports science

**Recommended studies:** English (Advanced), mathematics, Personal Development, Health and Physical Education (PDHPE), plus one of Biology, Chemistry or Physics

\* Only available as a combined degree option – refer to Combined degrees below (p39).

**GLOBAL STUDIES**

Only available as a combined degree option – refer to Combined degrees at the end of the ANU entry

**HIGH PERFORMANCE SPORT**

**Areas of study:** Coaching, exercise, sports science

**Course prerequisites:** Any 2 units of English

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE), mathematics, plus one of Biology, Chemistry or Physics

**HUMAN SERVICES**

**Areas of study:** Social and behavioural science, welfare and disadvantage

**Course prerequisites:** Any 2 units of English

**INTERNATIONAL DEVELOPMENT STUDIES**

**Areas of study:** Communication, economics, geography, global studies, international development studies, legal and management studies, politics and international relations, sociology

**Assumed knowledge:** Any 2 units of English

**LAWS**

**Course prerequisites:** Any 2 units of English

**NURSING**

**Areas of study:** Nursing

**NUTRITION SCIENCE**

**Areas of study:** Nutrition

**Course prerequisites:** Any 2 units of English

**OCCUPATIONAL THERAPY**

**Areas of study:** Occupational therapy

**Course prerequisites:** Any 2 units of English plus at least one of Biology, Chemistry, Physics or Personal Development, Health and Physical Education (PDHPE)

**PARAMEDICINE**

**Areas of study:** Paramedicine

**PHILOSOPHY**

**Areas of study:** Philosophy

**PHYSICAL ACTIVITY AND HEALTH SCIENCE**

**Areas of study:** Health science, physical activity

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE), mathematics, plus one of Biology, Chemistry or Physics

**PHYSIOTHERAPY**

**Areas of study:** Physiotherapy

**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry or Physics

**PSYCHOLOGICAL SCIENCE**

**Areas of study:** Psychology

**Course prerequisites:** Any 2 units of English

**PSYCHOLOGY (HONOURS)**

**Areas of study:** Psychology

**Course prerequisites:** Any 2 units of English

**SOCIAL WORK**

**Areas of study:** Human rights, social and behavioural sciences, social policy, social work

**Course prerequisites:** ACT: English (T) (Major) NSW: Any 2 units of English

**SPEECH PATHOLOGY**

**Areas of study:** Speech pathology

**Course prerequisites:** Any 2 units of English plus at least one of Biology, Chemistry, Physics, Personal Development, Health and Physical Education (PDHPE)

**SPORT AND OUTDOOR EDUCATION**

**Areas of study:** Sport, exercise and outdoor education

**Course prerequisites:** Any 2 units of English

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE), mathematics, plus one of Biology, Chemistry or Physics

**THEOLOGY**

**Areas of study:** Ancient languages, biblical studies, early Christian studies, interreligious dialogue, liturgy and sacraments, ministry, moral theology, philosophy and liberal arts, systematic theology/contemporary Christian thought, world religions

**VISUAL ARTS AND DESIGN**

**Areas of study:** 3D/4D object design, art and design history and theory, drawing, graphic design, painting photography, printmaking, sculpture plus areas of study within Arts (business studies, communication, computing, drama, economics, education studies, geography, history, literature, mathematics, philosophy, politics and international relations, psychology, sociology, study of religions, theological studies, visual arts)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Visual Arts

**COMBINED DEGREES**

If you intend to undertake combined degrees, check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

- Arts/Commerce
- Biomedical Science/Business Administration
- Commerce/Business Administration
- Exercise Science/Business Administration
- Information Technology/Business Administration
- Nursing/Business Administration
- Nursing/Counselling
- Nursing/Paramedicine

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### CASE MANAGEMENT (DIP)

**Areas of study:** Community case management facilitation, assessment and analysis

**Recommended studies:** Any 2 units of English

### COUNSELLING

**Areas of study:** Conflict resolution; counselling skills and theory; developmental psychology; mental health policy and practice; social, legal and ethical frameworks

**Recommended studies:** Any 2 units of English

### PSYCHOLOGICAL SCIENCE

**Areas of study:** Criminology, intercultural diversity and Indigenous psychology, learning and memory, perception and cognition, psychology, psychopathology, social psychology

**Recommended studies:** Mathematics (Advanced), any 2 units of English

### SOCIAL SCIENCE

**Areas of study:** Applied psychology; ethics, culture and diversity; mental health; organisational theory; sociology

**Recommended studies:** Any 2 units of English

### SOCIAL WORK

**Areas of study:** Contemporary society; government, public policy and civil society; human services; psychology; social work

**Recommended studies:** Any 2 units of English

### YOUTH WORK (DIP)

**Areas of study:** Family breakdown, homelessness, juvenile justice, mental health, young people in society and their development

**Recommended studies:** Any 2 units of English

– When you read 'any two units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### APPLIED SCIENCE

#### Nautical Science

#### Marine Engineering

#### Marine Electrical Engineering

**Course prerequisites:** Mathematics Standard 2 (or equivalent), Physics or Chemistry or a Physical science subject.

**Recommended studies:** Mathematics (Advanced), English, Physics or Chemistry

### BUSINESS

#### Global Logistics and Maritime Management

#### Global Logistics and Maritime Management with Honours

**Areas of study:** Port and terminal management, ship operations management, maritime economics

### ENGINEERING

#### Engineering (Specialisation) with Honours

**Areas of study:** Marine and offshore engineering, naval architecture, ocean engineering

**Course prerequisites:** Mathematics (Advanced), any two units of science

**Recommended studies:** HSC Mathematics Extension 1 plus Physics and Chemistry

#### Diploma of University Studies (Engineering)

**Recommended studies:** Any two units of mathematics

Bridging courses in mathematics, physics and chemistry are available for students who have not completed these subjects. Visit [utas.edu.au/future-students/preparation-programs](http://utas.edu.au/future-students/preparation-programs) for further information.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ACCOUNTING

**Areas of study:** Accounting

**Assumed knowledge:** ACT: Mathematical Methods (Major)

NSW: Mathematics (Advanced)

### ACTUARIAL STUDIES

**Areas of Study:** Accounting, actuarial studies, economics, finance, statistics

**Course prerequisites:** ACT: Specialist Mathematics (Major/Minor) (160+)

NSW: HSC Mathematics Extension 1 (Band E3)

**Recommended studies:** ACT: Specialist Mathematics (Double Major)

NSW: HSC Mathematics Extension 2

### ADVANCED COMPUTING

**Areas of study:** Computer science, cyber security, data analysis, intelligent systems, programming, systems and architecture, theoretical computer science

**Course prerequisites:** ACT: Mathematical Methods (Major)

NSW: Mathematics (Advanced)

**Recommended studies:** ACT: Specialist Mathematics (Major/Minor)

NSW: HSC Mathematics Extension 1

### ADVANCED COMPUTING (RESEARCH AND DEVELOPMENT)

**Areas of study:** Computer science, cyber security, programming, research projects, systems and architecture, theoretical computer science

**Course prerequisites:** ACT: Specialist Mathematics (Major/Minor)

NSW: HSC Mathematics Extension 1

**Recommended studies:** ACT: Specialist Mathematics (Double Major)

NSW: HSC Mathematics Extension 2

### APPLIED DATA ANALYTICS

**Areas of study:** Computer science, databases, data science, programming, social science, sociology, statistics

**Assumed knowledge:** ACT: Mathematical Methods (Major)

NSW: Mathematics (Advanced)

### ARTS

#### Archaeological Practice

#### Art History and Curatorship

#### Classical Studies

#### Criminology

#### Development Studies

#### European Studies

#### International Relations

#### Languages

#### Middle Eastern and Central Asian Studies

#### Policy Studies

#### Political Science

**Areas of study:** Ancient Greek, ancient history, anthropology, Arabic, archaeology, art history, art theory, Asian history, Asian studies, Asia-Pacific culture, Australian Indigenous studies, biological anthropology, Chinese language, Chinese studies, contemporary Europe, criminology, development studies, digital humanities, economic studies, English, environmental studies, French language and culture, gender, sexuality and culture, geography, German language and culture, Hindi language, history, human evolutionary biology, human rights, India studies, Indonesian language, Indonesian studies, international communications, international relations, Italian language and culture, Japanese language, Japanese linguists, Japanese studies, Korean language, Korean studies, Latin, Latin American studies, linguistics, mathematics, media and gender, Middle Eastern and Central Asian studies, music, music technology, Northeast Asia studies, Persian, philosophy, political science, psychology, Sanskrit language, sociology, Southeast Asian studies, Spanish, Thai language, Vietnamese language, war studies

#### Politics, Philosophy and Economics

**Assumed knowledge:** ACT: Mathematical Methods (Major)

NSW: Mathematics (Advanced)

### ASIAN STUDIES

**Areas of study:** Anthropology, Arabic, archaeology, Asian history, Asian and Pacific culture, media and gender, Asian and Pacific linguistics, Asian and Pacific literature and film, Asia-Pacific International Relations, Asia-Pacific politics, Asia-Pacific security studies, Burmese language, Chinese language, Chinese studies, French language and culture, Hindi language, India studies, Indonesian language, Indonesian studies, Japanese language, Japanese linguistics, Japanese studies, Korean language, Korean studies, linguistics, Mongolian language, Northeast Asian studies, Pacific studies, peace and conflict studies, Sanskrit language, Southeast Asian studies, Spanish language, Tetum language, Thai language, Tibetan language, Vietnamese language, war studies

## BIOTECHNOLOGY

**Areas of study:** Biochemistry, bioinformatics, biotechnology, chemistry, genetics, microbiology, molecular biology

**Course prerequisites:** *ACT:* Chemistry (Major) *NSW:* Chemistry

## BUSINESS ADMINISTRATION

**Areas of study:** Business, international business, leadership, management, marketing

## COMMERCE

**Areas of study:** Accounting, business information systems, corporate sustainability, economic studies, finance, international business, management, marketing

**Assumed knowledge:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## COMPUTING (DIP)

**Areas of study:** Databases, information systems, programming

**Course prerequisites:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## CREATIVE DESIGN (DIP)

**Areas of study:** Creative design, design, design arts, visual arts

## DESIGN

**Areas of study:** Animation and video, ceramics, furniture, glass, gold and silversmithing, painting, photomedia, printmedia and drawing, sculpture, textiles

**Additional selection criteria:** Interview, portfolio

## ECONOMICS

**Areas of study:** Econometrics, economic history, economics, finance, statistics

**Assumed knowledge:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## ENGINEERING

**Areas of study:** Biomedical systems, electronics and communication systems, mechanical and material systems, mechatronic systems, photonics systems, renewable energy systems, sustainable systems

**Course prerequisites:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

**Assumed knowledge:** *ACT:* Physics (Major) *NSW:* Physics

**Recommended studies:** *ACT:* Specialist Mathematics (Major/Minor)

*NSW:* HSC Mathematics Extension 1

## ENGINEERING (RESEARCH AND DEVELOPMENT)

**Areas of study:** Biomedical systems, electronics and communication systems, mechanical and material systems, mechatronic systems, photonics systems, renewable energy systems, sustainable systems

**Course prerequisites:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

**Assumed knowledge:** *ACT:* Physics (Major) *NSW:* Physics

**Recommended studies:** *ACT:* Specialist Mathematics (Double Major)

*NSW:* HSC Mathematics Extension 2

## FINANCE

**Areas of study:** Asian capital markets, capital markets, quantitative finance

**Assumed knowledge:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## FINANCE, ECONOMICS AND STATISTICS

**Areas of study:** Economics, finance, statistics

**Course prerequisites:** *ACT:* Specialist Mathematics (Major/Minor) (160+)

*NSW:* HSC Mathematics Extension 1 (Band E3)

**Recommended studies:** *ACT:* Specialist Mathematics (Double Major)

*NSW:* HSC Mathematics Extension 2

## GENETICS

**Areas of study:** Bioinformatics, evolutionary genetics, genetics, Mendelian, molecular and medical genetics, population

**Course prerequisites:** *ACT:* Chemistry (Major) *NSW:* Chemistry

## HEALTH SCIENCE

**Areas of study:** Biology, health science, Indigenous health, medical science, population health, science communication

**Assumed knowledge:** *ACT:* Chemistry (Major) *NSW:* Chemistry

## INFORMATION TECHNOLOGY

**Areas of study:** Artificial intelligence, cyber security, data science, information systems, IT in new media, software development,

**Course prerequisites:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## INTERNATIONAL BUSINESS

**Areas of study:** Asian, European, Latin American or Middle Eastern languages and contextual studies

**Assumed knowledge:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

## INTERNATIONAL SECURITY STUDIES

**Areas of study:** Arabic, Asia-Pacific security, Burmese language, Chinese language, French language and culture, German language and culture, Hindi language, historical international security, Indonesian language, international relations, Italian language and culture, Japanese language, Korean language, Mongolian language, peace and conflict studies, Persian, Russian, Spanish, Tetum language, Thai language, Vietnamese language, war studies

*Study of security and foreign policy issues is also possible in the Arts and Asian Studies degrees.*

## LANGUAGES

**Areas of study:** Ancient Greek, Arabic, Burmese, Chinese, French, German, Hindi, Indonesian, Italian, Japanese, Korean, Latin, literary Chinese, Mongolian, Persian, Russian, Sanskrit, Spanish, Tetum, Thai, Vietnamese

## LAW

**Areas of study:** Law, legal studies

## LIBERAL STUDIES (DIP)

**Areas of study:** Anthropology, criminology, development studies, English, history, international relations, philosophy, political science, sociology

## MATHEMATICAL SCIENCES

**Areas of study:** Mathematics

**Course prerequisites:** *ACT:* Specialist Mathematics (Double Major)

*NSW:* HSC Mathematics Extension 2

## MEDICAL SCIENCE

**Areas of study:** Biochemistry, genetics, immunology, medical science, microbiology, molecular biology, physiology

**Course prerequisites:** *ACT:* Chemistry (Major) *NSW:* Chemistry

## MUSIC

**Areas of study:** Creative musicianship (including composition), musicology (including ethnomusicology), performance

**Additional selection criteria:** Some music courses require an audition

## PACIFIC STUDIES

**Areas of study:** Anthropology; archaeology; biodiversity conversation and management; Chinese language, climate science and policy; development studies; environmental studies; forest science and policy; French language and culture; gender, sexuality and culture; geography; German language and culture; heritage and museum studies; Hindi language; history; human ecology; Indonesian language; international relations; Japanese language; Pacific studies; philosophy; social research methods; sociology; soil and land management; Spanish; sustainable development; visual arts practice; water science and policy

## SCIENCE

**Areas of study:** Astronomy and astrophysics, biological anthropology, biology, chemistry, computational modelling, computer science, earth and environmental science, environmental modelling, environmental policy, forest science, geography, geology, geophysics, global change science, human ecology, material science, mathematical economics, mathematical finance, mathematical physics, mathematics, mathematics and statistics, neuroscience, physics, psychology, quantitative biology and bioinformatics, science communication, statistics, sustainability science, theoretical physics, water science and policy

**Subject prerequisites and assumed knowledge:** Some science courses have subject prerequisites or assumed knowledge of Mathematics (Advanced), Physics or Chemistry. For further information, visit [programsandcourses.anu.edu.au](http://programsandcourses.anu.edu.au).

### Environment and Sustainability

**Areas of study:** Environmental science, resource and environmental management, sustainability science

### Psychology

**Areas of study:** Abnormal, biological, cognitive, developmental and social psychology

## SOCIAL SCIENCE (ACTUARIAL STUDIES AND ECONOMICS)

**Areas of study:** Accounting, actuarial studies, economics, finance, statistics

**Course prerequisites:** *ACT:* Specialist Mathematics (Major/Minor) (160+)

*NSW:* HSC Mathematics Extension 1 (Band E3)

**Recommended studies:** *ACT:* Specialist Mathematics (Double Major)

*NSW:* HSC Mathematics Extension 2

## SOFTWARE ENGINEERING

**Areas of study:** Artificial intelligence, cyber security, programming, project management, system design and analysis, system development

**Course prerequisites:** *ACT:* Mathematical Methods (Major)

*NSW:* Mathematics (Advanced)

**Recommended studies:** *ACT:* Specialist Mathematics (Major/Minor)

*NSW:* HSC Mathematics Extension 1

## STATISTICS

**Areas of study:** Applied probability, business statistics, econometrics, financial statistics, psychological or social research methods, statistical methodology

**Course prerequisites:** *ACT:* Specialist Mathematics (Major/Minor) (160+)

*NSW:* HSC Mathematics Extension 1 (Band E3)

**Recommended studies:** *ACT:* Specialist Mathematics (Double Major)

*NSW:* HSC Mathematics Extension 2

## VISUAL ARTS

**Areas of study:** Animation and video, ceramics, furniture, glass, gold and silversmithing, painting, photomedia, printmedia and drawing, sculpture, textiles

**Additional selection criteria:** Interview, portfolio

## FLEXIBLE DOUBLE DEGREES

The Australian National University offers flexible double degrees, which allow you to choose from hundreds of possible combinations across three groups:

- Arts, Social Sciences, Business and Science (4 years)
- Engineering or Advanced Computing (5 years)
- Law (5 years)

You can combine any two courses (for which you meet the selection rank) from the group.

*\* Courses below marked with an asterisk include prerequisites and/or additional selection criteria – see main area of study for requirements.*

### Flexible Double Arts, Social Sciences, Business and Science

By selecting this group as a preference, you can choose any two of the following bachelor degrees at the time of accepting your offer:

- Accounting
- Actuarial Studies\*
- Applied Data Analytics
- Archaeological Practice
- Art History and Curatorship
- Arts
- Asian Studies
- Biotechnology\* (cannot be combined with Genetics or Medical Science)
- Business Administration
- Classical Studies
- Commerce
- Criminology
- Design\*
- Development Studies
- Economics
- Environment and Sustainability
- European Studies
- Finance
- Genetics\* (cannot be combined with Biotechnology or Medical Science)
- Information Technology\*
- International Relations
- International Security Studies
- Languages

- Mathematical Sciences\*
- Medical Science\* (cannot be combined with Biotechnology or Genetics)
- Middle Eastern and Central Asian Studies
- Music\*
- Pacific Studies
- Policy Studies
- Political Science
- Politics, Philosophy and Economics
- Science
- Science (Psychology)
- Statistics\*
- Visual Arts\*

#### Flexible Double Engineering or Advanced Computing

By selecting this group as a preference, you can choose any one of the following bachelor degrees:

- Advanced Computing (Hons)\*
- Advanced Computing (Research and Development) (Hons)\*
- Engineering (Hons)\*
- Engineering (Research and Development) (Hons)\*
- Software Engineering (Hons)\*

plus any one of the following bachelor degrees at the time of accepting your offer:

- Actuarial Studies\*
- Applied Data Analytics
- Arts
- Asian Studies
- Biotechnology\*
- Business Administration
- Commerce
- Economics
- Environment and Sustainability
- Finance
- Genetics\*
- Information Technology\* (cannot be combined with Software Engineering or Advanced Computing)
- International Security Studies
- Languages\*
- Mathematical Sciences\*
- Music\*
- Pacific Studies
- Science
- Science (Psychology)
- Statistics\*

#### Flexible Double Law

By selecting this group as a preference, you choose Law plus any one of the following bachelor degrees at the time of accepting your offer:

- Accounting
- Actuarial Studies\*
- Applied Data Analytics
- Archaeological Practice
- Art History and Curatorship
- Arts
- Asian Studies
- Biotechnology\*
- Business Administration
- Classical Studies
- Commerce
- Criminology
- Design\*
- Development Studies
- Economics
- Environment and Sustainability
- European Studies
- Finance

- Genetics\*
- Information Technology\*
- International Relations
- International Security Studies
- Languages
- Mathematical Sciences\*
- Medical Science\*
- Middle Eastern and Central Asian Studies
- Music\*
- Pacific Studies
- Policy Studies
- Political Science
- Politics, Philosophy and Economics
- Science
- Science (Psychology)
- Statistics\*
- Visual Arts\*

#### VERTICAL DEGREES

The Australian National University offers a range of vertical (Bachelor/Master) options. Visit [anu.edu.au/study/study-options/vertical-double-degrees](http://anu.edu.au/study/study-options/vertical-double-degrees) for more information, or [programsandcourses.anu.edu.au](http://programsandcourses.anu.edu.au) to create your own program. Refer to the single bachelor degree entry for course prerequisites, major studies and other requirements.

#### UNDERGRADUATE RESEARCH DEGREES

The Australian National University offers the following undergraduate research degrees:

- B Advanced Computing (Research and Development) (Hons)
- B Engineering (Research and Development) (Hons)
- B Finance, Economics and Statistics (Hons)
- B Asia Pacific Studies (Year in Asia)
- B Science (Advanced) (Hons)
- B Philosophy (Hons) Arts\*
- B Philosophy (Hons) Science\*
- B Philosophy (Hons) Asia and the Pacific

\* B Philosophy courses are also available as joint degrees with the National University of Singapore. Contact the Australian National University for more information about these courses.

For more information visit [anu.edu.au/study/study-options/undergraduate-research-degrees-0](http://anu.edu.au/study/study-options/undergraduate-research-degrees-0)

#### In person

##### Albury-Wodonga campus

Prospective Student Adviser  
Building 673, Elizabeth Mitchell Drive  
Thurgoona NSW 2640

##### Dubbo campus

Course enquiries  
Tony McGrane Place  
Dubbo NSW 2830

##### Port Macquarie campus

Prospective Student Adviser  
7 Major Innes Road  
Port Macquarie NSW 2444

##### Bathurst campus

Prospective Student Adviser  
Building 1396  
Panorama Ave  
Bathurst NSW 2795

##### Orange campus

Prospective Student Adviser  
Building 1001  
Leeds Parade  
Orange NSW 2800

##### Wagga Wagga campus

Prospective Student Adviser  
Building 481  
Boorooma Street  
Wagga Wagga NSW 2650

#### READ THIS FIRST

- When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

#### AGRICULTURAL BUSINESS MANAGEMENT

**Areas of study:** Agricultural business management (farm, horticultural, land, viticultural)

#### AGRICULTURE

**Areas of study:** Agribusiness, agronomy, livestock production  
**Assumed knowledge:** Mathematics Standard 2, Investigating Science  
**Recommended studies:** Biology and/or Chemistry, Mathematics (Advanced)

#### ANIMAL SCIENCE

##### Animal Science

**Areas of study:** Animal production and management, biomedical science, equine science and management, wildlife conservation and management

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

##### Equine Science

**Areas of study:** Equine breeding and management, equine business management, equine exercise physiology, equine health and welfare, equine nutrition, equine science

**Assumed knowledge:** Biology, Chemistry, Mathematics (Advanced)

#### APPLIED SCIENCE

##### Outdoor Recreation and Ecotourism

##### Parks, Recreation and Heritage

**Areas of study:** Indigenous and cultural heritage, outdoor recreation, visitor services and open space management, wildlife and conservation

#### ARTS

**Areas of study:** Art history, community development and human services, English, history, Indigenous studies, philosophy, politics, policy studies, psychology, sociology

**Recommended studies:** Any 2 units of English

#### BUSINESS

##### Accounting

##### Business Studies

##### Human Resource Management

##### Marketing

**Assumed knowledge:** Mathematics (Advanced)

#### COMMUNICATION AND CREATIVE INDUSTRIES

##### Acting

**Additional selection criteria:** Audition, course consultation

##### Advertising

##### Digital Media Production

##### Public Relations

##### Radio

**Recommended studies:** English (Standard) or English (Advanced)

##### Acting and Performance

##### Animation and Visual Effects

##### Art History and Visual Culture

##### Graphic Design

##### Photography

##### Sound Design

##### Television

##### Visual Art and Design

**Recommended studies:** Design and Technology or Visual Arts or Drama or History

#### Journalism

#### Journalism and International Studies

**Recommended studies:** English (Advanced)

#### Theatre Media

**Additional selection criteria:** Audition, course consultation

### EDUCATION

#### Early Childhood and Primary

#### Health and Physical Education

#### Outdoor Education

**Assumed knowledge:** Entry standards for initial teacher education courses are three Band 5 results, including English, in the NSW HSC or equivalent. Charles Sturt University courses are designed for and accredited with alternative entry, as all students undertake core discipline studies in the first two years of study equivalent to three Band 5 results, including English and Mathematics (Advanced), before undertaking curriculum and professional studies.

**Recommended studies:** Any 2 units of English, any 2 units of mathematics

#### K-12

**Areas of study:** Business studies, English, mathematics, modern history, science

**Assumed knowledge:** Entry standards for initial teacher education courses are three Band 5 results, including English, in the NSW HSC or equivalent. Charles Sturt University courses are designed for and accredited with alternative entry as all students undertake core discipline studies in the first two years of study equivalent to three Band 5 results, including English and Mathematics (Advanced), before undertaking curriculum and professional studies.

**Recommended studies:** Any 2 units of mathematics

#### Technology and Applied Studies

**Areas of study:** Agriculture (includes biology), design and technology, food technology, industrial technology and information technology (software design, information systems). Food and industrial technology specialists can also choose an additional teaching area in graphics and multimedia or textiles.

**Assumed knowledge:** Entry standards for initial teacher education courses are three Band 5 results, including English, in the NSW HSC or equivalent. Charles Sturt University courses are designed for and accredited with alternative entry, as all students undertake core discipline studies in the first two years of study equivalent to three Band 5 results, including English and Mathematics (Advanced), before undertaking curriculum and professional studies.

**Recommended studies:** Any 2 units of English, any 2 units of mathematics, Design and Technology and/or any of the following: Agriculture, Food Technology, Industrial Technology, Information Processes and Technology, Software Design and Development, Textiles and Design *For agriculture and food technology:* Chemistry

### ENGINEERING

**Areas of study:** Entrepreneurship, structures, transport and infrastructure, water resources

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics

**Recommended studies:** Chemistry, Physics

**Additional selection criteria:** Supplementary application form, interview

*High-achieving students without an extensive mathematics background can still be accommodated in this program. A minimum level of familiarity with calculus is necessary.*

### ENVIRONMENTAL SCIENCE AND MANAGEMENT

**Recommended studies:** Geography or any 2 units of science

### EXERCISE SCIENCE

**Areas of study:** Exercise science, sports management, sports media, sports science, teaching

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics

**Recommended studies:** Any 2 units of science

### HEALTH SCIENCE

#### Clinical Practice (Paramedic)

**Assumed knowledge:** Biology, Mathematics (Advanced), any 2 units of English

**Recommended studies:** Investigating Science, first-aid training, medical terminology

#### Clinical Science

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

#### Dental Science

**Assumed knowledge:** Chemistry, Mathematics (Advanced), Physics

**Recommended studies:** English (Standard)

**Additional selection criteria:** Refer to [csu.edu.au/courses/dental-science](http://csu.edu.au/courses/dental-science)

#### Health and Rehabilitation Science

**Assumed knowledge:** English (Standard)

**Recommended studies:** Biology

#### Occupational Therapy

**Assumed knowledge:** English (Standard)

**Recommended studies:** Biology

#### Oral Health (Therapy and Hygiene)

**Assumed knowledge:** Chemistry, English (Standard)

**Recommended studies:** Biology

#### Podiatric Medicine

**Assumed knowledge:** English (Standard)

**Recommended studies:** Biology, Mathematics (Advanced)

#### Physiotherapy

**Assumed knowledge:** Biology, English (Standard), Mathematics (Advanced)

**Recommended studies:** Physics

#### Speech and Language Pathology

**Assumed knowledge:** English (Standard)

**Recommended studies:** Biology, Mathematics (Advanced)

### INFORMATION TECHNOLOGY

#### Computer Science

**Areas of study:** Computer science, games programming

**Assumed knowledge:** Mathematics (Advanced)

#### Information Technology

**Areas of study:** Business analysis, network engineering, software design and development, systems administration

### LAW

**Areas of study:** English (Standard)

**Assumed knowledge:** English (Advanced), Legal Studies

### MEDICAL RADIATION SCIENCE

**Areas of study:** Medical imaging, nuclear medicine, radiation therapy

**Assumed knowledge:** Mathematics (Advanced), Physics

### MEDICAL SCIENCE

**Areas of study:** Biotechnology, clinical physiology, medical science, pathology

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

### NURSING

**Assumed knowledge:** English (Standard), Mathematics (Advanced), Biology, Chemistry

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE), first-aid certificate, mental health first-aid certificate

### PHARMACY

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

**Recommended studies:** Biology

### PSYCHOLOGY

**Areas of study:** Psychology, social science (psychology)

### SCIENCE

**Areas of study:** Analytical chemistry, conservation biology, mathematics, microbiology and immunology, physics, plant science, spatial science

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Chemistry or Physics

#### General Studies (Science)

**Recommended studies:** Any 2 units of science

### SOCIAL SCIENCE

**Areas of study:** Criminal justice, psychology

### SOCIAL WORK

**Areas of study:** Social work

### THEOLOGY

**Areas of study:** Biblical studies, church history, systematic and practical theology

### VETERINARY SCIENCE

#### Veterinary Biology/Veterinary Science

**Assumed knowledge:** Biology, Chemistry, Mathematics (Advanced)

**Additional selection criteria:** Supplementary application form, interview

#### Veterinary Technology

**Areas of study:** Clinical technology, large animal technology, practice management

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

### COMBINED DEGREES

If you intend to undertake combined degrees, check the additional selection criteria, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

- Advertising/Marketing
- Nursing/Clinical Practice (Paramedic)
- Psychology/Business (Management)
- Psychology/Business (Marketing)
- Public Relations/Business Studies

**READ THIS FIRST**

– When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ACCIDENT FORENSICS**

**Areas of study:** Accident analysis, accident phenomenology, forensic engineering, human factors investigation, investigation methods, occupational health and safety  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Physics

**ACCOUNTING**

**Areas of study:** Accounting, business computing, contract law, human resource management, marketing, organisational behaviour, property, public relations  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**ARTS**

**ARTS (DIP)**

**Areas of study:** Aboriginal and Torres Strait Islander studies, business, creative writing, dance and drama, digital media, geography and environmental studies, journalism, languages, liberal arts, literary and cultural studies, psychology, sociology  
**Course prerequisites:** English (Standard)

**AVIATION FLIGHT OPERATIONS**

**AVIATION FLIGHT OPERATIONS (ASSOC DEG)**

**Areas of study:** Aerodynamics, air service operations, air traffic control, aircraft systems, airspace classifications, flight service and handling emergencies, meteorology, navigation, pilot licences and ratings  
**Recommended studies:** English (Standard), Mathematics (Advanced), Physics

**BUILDING DESIGN**

**BUILDING DESIGN (ASSOC DEG)**

**Areas of study:** Contract administration, design of residential and commercial buildings  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**BUILDING SURVEYING AND CERTIFICATION**

**BUILDING SURVEYING (ASSOC DEG)**

**Areas of study:** Assessment and inspection of construction for compliance  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**BUSINESS**

**Areas of study:** Accounting, human resources management, management, marketing, property, public relations, social innovation, supply chain management  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**BUSINESS STUDIES (DIP)**

**Areas of study:** Accounting, human resources management, management, marketing, property, public relations, social innovation, supply chain management  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**CONSTRUCTION MANAGEMENT**

**Areas of study:** Building law and regulations, building materials, building systems, built environment, contracts, cost planning and control, geotechnical studies, professional practice, structural forms  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**DIGITAL MEDIA**

**DIGITAL MEDIA (ASSOC DEG) OR DIGITAL MEDIA (DIP)**

**Areas of study:** Digital design, graphic design, interactive media, technology and media, video and animation  
**Course prerequisites:** English (Standard)

**ECHOCARDIOGRAPHY (CARDIAC PHYSIOLOGY)**

**Areas of study:** Adult echocardiography, cardiac physiology, foetal echocardiography, paediatric cardiovascular, vascular sonography  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Mathematics (Advanced), Physics

**ENGINEERING**

**ENGINEERING (ASSOC DEG)**

**Areas of study:** *For Engineering:* Civil, electrical, mechanical, mining, mechatronics *For Engineering (Assoc Deg):* Civil, electrical, geology, mechanical, mining  
**Course prerequisites:** *For Engineering:* English (Standard), Mathematics (Advanced)  
**Recommended studies:** *For Engineering:* HSC Mathematics Extension 1, Physics, Graphics *For Engineering (Assoc Deg):* English (Standard), Mathematics (Advanced), any 2 units of science

**ENGINEERING TECHNOLOGY**

**Areas of study:** Engineering: civil, electrical, mechanical  
**Course prerequisites:** English (Standard), Mathematics (Advanced)  
**Recommended studies:** Graphics, HSC Mathematics Extension 1, Physics

**ENVIRONMENTAL SCIENCE**

**Areas of study:** Environmental geography, land management, water management  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Earth and Environmental Science

**EXERCISE AND SPORTS SCIENCE**

**Areas of study:** Anatomy, biomechanics, motor control, physiology, psychology, sports management  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE)

**HEALTH SCIENCE (ALLIED HEALTH)**

**Areas of study:** Human body systems, the role of allied health practitioners and healthcare in contemporary society  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Physics

**INFORMATION AND COMMUNICATIONS TECHNOLOGY (DIP)**

**Areas of study:** Application development, business analysis, network security  
**Course prerequisites:** English (Standard)

**INFORMATION TECHNOLOGY**

**INFORMATION TECHNOLOGY CO-OP**

**INFORMATION TECHNOLOGY (ASSOC DEG)**

**Areas of study:** Application development, business analysis, network security  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Information Processes and Technology, Software Design and Development

**LAWS**

**Areas of study:** Administrative law, commercial law, constitutional law, contracts, corporations law, criminal law, family law, jurisprudence, legal drafting, property law, torts, trusts  
**Course prerequisites:** English (Standard)

**MEDICAL LABORATORY SCIENCE (HONOURS)**

**Areas of study:** Medical laboratory science  
**Course prerequisites:** English (Standard)  
**Recommended Study:** Mathematics (Advanced), Biology, Chemistry, Science

**MEDICAL SCIENCE**

**Areas of study:** Biotechnology, clinical investigation, nutrition  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Mathematics (Advanced), Physics

**MEDICAL SONOGRAPHY**

**Areas of study:** Abdominal sonography, musculoskeletal sonography, paediatric sonography, superficial structures in ultrasound, ultrasound obstetrics and gynaecology, vascular sonography  
**Course prerequisites:** English (Standard) and one of Chemistry, Biology or Physics  
**Recommended studies:** Chemistry, Biology, Mathematics (Advanced), Physics

**NURSING**

**Areas of study:** Nursing  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**OCCUPATIONAL HEALTH AND SAFETY**

**OCCUPATIONAL HEALTH AND SAFETY (ASSOC DEG)**

**Areas of study:** Environmental studies, human factors, liberal studies, occupational health and safety, public health, safety science  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Physics

**PODIATRY**

**Areas of study:** Anatomy, biomechanics, pharmacology, physiology, podiatry, psychology  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology plus Chemistry or Physics

**PROFESSIONAL COMMUNICATION**

**Areas of study:** Communication, digital media, human resource management, journalism, management, marketing, sociology  
**Course prerequisites:** English (Standard)

**PROPERTY**

**Areas of study:** Asset management, facility management, property finance, property management, property valuation  
**Recommended studies:** English (Standard), Mathematics (Advanced)

**PSYCHOLOGICAL SCIENCE**

**Areas of study:** Data analysis, human development, psychology, research methods  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Mathematics (Advanced), any 2 units of science

**PUBLIC HEALTH**

**PUBLIC HEALTH (ASSOC DEG)**

**Areas of study:** Environmental health, environmental science, exercise science, health promotion, Indigenous studies, management and human resources, nutrition science, occupational health and safety  
**Recommended studies:** Biology, Chemistry, English (Standard), Physics

**SCIENCE**

**Areas of study:** Applied biology, applied chemistry  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**SCIENCE (CHIROPRACTIC)**

**Areas of study:** Chemistry fundamentals, foundations of biochemistry, foundations of chiropractic  
**Course prerequisites:** English (Standard)  
**Recommended studies:** Biology, Chemistry, Physics

**SOCIAL WORK**

**Areas of study:** Advocacy, counselling, crisis intervention, social justice  
**Course prerequisites:** English (Standard)

**COMBINED DEGREES**

If you intend to undertake combined degrees, check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

**email:** domesticenquiries@griffith.edu.au  
or griffith.edu.au/ask-us  
**facebook:** facebook.com/griffithuniversity  
**twitter:** twitter.com/griffith\_uni

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

## ARCHITECTURAL DESIGN

**Course prerequisites:** Any 2 units of English  
**Recommended studies:** Mathematics Standard 2 or Mathematics (Advanced)

## ARTS

**Areas of study:** Creative writing, criminal justice, drama, history, Indigenous studies, Islam–West relations, journalism, languages (Chinese, Italian, Japanese, Modern Greek, Spanish), literary studies, politics and international studies, public relations, screen studies, security studies, sociology. Modern Greek can be taken online via cross-institutional study with Flinders University, South Australia.  
**Course prerequisites:** Any 2 units of English

## BIOMEDICAL SCIENCE

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced) plus one of Biology, Chemistry or Physics

## BUSINESS

**Areas of study:** *Gold Coast:* Asian business, employment relations, entrepreneurship and self-employment, event management, human resource management, international business, logistics and supply chain management, management, marketing, real estate and property development, sport management, tourism management  
*Online:* Entrepreneurship and self-employment, human resource management, management  
**Course prerequisites:** Any 2 units of English

## CHILD AND FAMILY STUDIES

**Course prerequisites:** Any 2 units of English

## COMMERCE

**Areas of study:** Accounting, economics, finance, financial planning  
**Course prerequisites:** Any 2 units of English

## COMMUNICATION AND JOURNALISM

**Course prerequisites:** Any 2 units of English

## COMPUTER SCIENCE

**Areas of study:** Data science and artificial intelligence, software development  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced)

## CONSTRUCTION MANAGEMENT (HONOURS)

**Areas of study:** Data science and artificial intelligence, software development  
**Course prerequisites:** Any 2 units of English plus Mathematics Standard 2 or Mathematics (Advanced)

## COUNSELLING

**Course prerequisites:** Any 2 units of English

## CREATIVE AND INTERACTIVE MEDIA

**Areas of study:** Digital arts and design, media applications  
**Course prerequisites:** Any 2 units of English

## CRIMINOLOGY AND CRIMINAL JUSTICE

**Course prerequisites:** Any 2 units of English

## DENTAL HEALTH SCIENCE

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematics (Advanced)

## DENTAL PROSTHETICS

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematics (Advanced)

## DENTAL TECHNOLOGY

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematics (Advanced)

## DESIGN

**Areas of study:** Graphic and communication design, interior design and environments, product and 3D design, visualisation and immersive design  
**Course prerequisites:** Any 2 units of English

## EDUCATION

**Areas of study:** Primary education, secondary education  
**Course prerequisites:** Any 2 units of English (Band 2) plus one of Mathematics Standard 2, Mathematics (Advanced), HSC Mathematics Extension 1 or HSC Mathematics Extension 2 (Band 2), plus non-academic entry requirements  
*For Primary (selected in second year):* Any 2 units of science (Band 2)  
*For Secondary (selected in second year):* Successful completion of chosen teaching areas (in particular, for mathematics teaching areas:

Mathematics (Advanced), HSC Mathematics Extension 1 or HSC Mathematics Extension 2 and for biology, chemistry and physics teaching areas: Biology, Chemistry and Physics respectively)  
**Professional recognition:** This program meets registration requirements for the Queensland College of Teachers. Applicants wishing to obtain registration in NSW will need to ensure that they meet the NSW Education Standards Authority registration requirements. For further information, visit [educationstandards.nsw.edu.au](http://educationstandards.nsw.edu.au).

## ENGINEERING (HONOURS)

**Areas of study:** Civil, civil and architectural, electrical and electronic, mechanical  
**Course prerequisites:** Any 2 units of English, Mathematics (Advanced)  
**Recommended studies:** One of Physics, Chemistry, HSC Mathematics Extension 1 or HSC Mathematics Extension 2

## ENVIRONMENTAL SCIENCE

**Areas of study:** Ecology and conservation, environmental management, soil and water science, urban environments  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics Standard 2 or Mathematics (Advanced)  
**Recommended studies:** One of Biology, Chemistry or Physics

## EXERCISE SCIENCE

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematics (Advanced)

## GOVERNMENT AND INTERNATIONAL RELATIONS

**Areas of study:** Asian business, Chinese, economics, international business, international relations, Islam–West relations, Italian, Japanese, politics and public policy, Spanish  
**Course prerequisites:** Any 2 units of English

## HEALTH SCIENCE

**Areas of study:** Environmental health, environmental toxicology  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics or Mathematics (Advanced)

## HUMAN SERVICES

**Course prerequisites:** Any 2 units of English

## INDUSTRIAL DESIGN

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics Standard 2 or Mathematics (Advanced)

## INFORMATION TECHNOLOGY

**Areas of study:** Information systems, networks and security, software development  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics Standard 2 or Mathematics (Advanced)

## INTELLIGENT DIGITAL TECHNOLOGIES

**Areas of study:** Internet of Things (IoT) and robotics, programming for visualisation and entertainment  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced)

## INTERNATIONAL BUSINESS

**Areas of study:** Asian business, Chinese, finance, human resource management, international relations, Italian, Japanese, logistics and supply chain management, management, marketing, Modern Greek, Spanish. Modern Greek can be taken online via cross-institutional study with Flinders University, South Australia.  
**Course prerequisites:** Any 2 units of English

## INTERNATIONAL TOURISM AND HOTEL MANAGEMENT

**Areas of study:** Event management, hospitality management, human resource management, management, marketing, real estate and property development, sport management, tourism management  
**Course prerequisites:** Any 2 units of English

## LANGUAGES AND LINGUISTICS

**Areas of study:** Chinese, Italian, Japanese, linguistics, Modern Greek, Spanish. Students can study languages at other campuses where program structure allows. Modern Greek can be taken via cross-institutional study online through Flinders University.  
**Course prerequisites:** Any 2 units of English

## LAW

**Course prerequisites:** Any 2 units of English

## LAW (COMBINED)

The following combined Law courses are available:

- Arts/Law
- Business/Law
- Commerce/Law
- Criminology and Criminal Justice/Law
- Environmental Science/Law
- Government and International Relations/Law
- International Business/Law
- Pharmacology and Toxicology/Law
- Psychological Science/Law

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** *For Environmental Science/Law:* Mathematics Standard 2 or Mathematics (Advanced) *For Pharmacology and Toxicology/Law:* Mathematics (Advanced) or HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus one of Biology, Chemistry or Physics  
**Recommended studies:** *For Environmental Science/Law:* One of Biology, Chemistry or Physics

## MARINE SCIENCE

**Areas of study:** Coastal management, coastal oceanography, marine chemistry, marine ecology  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics Standard 2 or Mathematics (Advanced)  
**Recommended studies:** One of Biology, Chemistry or Physics

## MEDICAL LABORATORY SCIENCE

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced) plus one of Biology, Chemistry or Physics

## MEDICAL SCIENCE

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced) plus one of Biology, Chemistry or Physics

**NURSING**

**Course prerequisites:** Any 2 units of English

**NUTRITION AND DIETETICS**

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Biology, Chemistry, Mathematics (Advanced)

**OCCUPATIONAL THERAPY**

**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry or Physics

**PARAMEDICINE**

**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry, Physics or Mathematics (Advanced)

**PHARMACOLOGY AND TOXICOLOGY**

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced) or HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus one of Biology, Chemistry or Physics

**PHARMACY**

**Course prerequisites:** Any 2 units of English plus one of Mathematics (Advanced), HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus one of Biology, Chemistry or Physics

**PHYSIOTHERAPY**

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics (Advanced) plus one of Biology, Chemistry or Physics

**PSYCHOLOGICAL SCIENCE**

**Course prerequisites:** Any 2 units of English

**PSYCHOLOGY (HONOURS)**

**Course prerequisites:** Any 2 units of English

**PUBLIC HEALTH**

**Course prerequisites:** Any 2 units of English

**SCIENCE**

**Areas of study:** Applied mathematics, biochemistry and molecular biology, chemistry, geography, marine biology, physics, wildlife biology  
**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** Mathematics Standard 2 or Mathematics (Advanced)  
**Recommended studies:** One of Biology, Chemistry or Physics

**SOCIAL SCIENCE**

**Areas of study:** Economics, environmental sustainability, global security threats, media, communication and social change, politics in Asia, social justice  
**Course prerequisites:** Any 2 units of English

**SOCIAL WORK**

**Course prerequisites:** Any 2 units of English

**SPORT DEVELOPMENT**

**Course prerequisites:** Any 2 units of English  
**Assumed knowledge:** One of Biology, Chemistry, Physics, Mathematics Standard 2 or Mathematics (Advanced)

**URBAN AND ENVIRONMENTAL PLANNING**

**Course prerequisites:** Any 2 units of English  
**Recommended studies:** Mathematics Standard 2 or Mathematics (Advanced)

**COMBINED DEGREES**

If you intend to undertake combined degrees, check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

**Additional selection criteria:** Interview

**INTERNATIONAL TOURISM**

**Recommended studies:** Any 2 units of English plus one of Business Studies, Economics, any 2 units of Mathematics, Chemistry, Physics, Biology, Investigating Science, Legal Studies, Financial Services or Business Services

**Additional selection criteria:** Interview

**PROPERTY (DEVELOPMENT, INVESTMENT AND VALUATION)**

**Recommended studies:** Any 2 units of English plus one of Business Studies, Economics, any 2 units of Mathematics, Chemistry, Physics, Biology, Investigating Science, Legal Studies, Financial Services or Business Services

**Additional selection criteria:** Interview

**SPORTS MANAGEMENT**

**Recommended studies:** Any 2 units of English plus one of Business Studies, Economics, any 2 units of Mathematics, Chemistry, Physics, Biology, Investigating Science, Legal Studies, Financial Services or Business Services

**Additional selection criteria:** Interview

**READ THIS FIRST**

- For up-to-date information contact the University before making any final decisions regarding your choice of HSC courses.
- Not all campuses offer all courses and areas of study. Contact the University for course locations.

**College of Arts, Social Sciences and Commerce**

For Accounting, Arts, Business, Creative Arts, Education, Law, Media/Journalism, Visual Arts courses

**College of Science, Health and Engineering**

For Civil Engineering, Health Sciences, Information Technology, Nursing, Occupational Therapy, Paramedic, Physiotherapy, Psychology, Science, Social Work, Speech Pathology courses

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**AGRIBUSINESS**

**Areas of study:** Agribusiness, management, marketing  
**Course prerequisites:** Any 2 units of English (min. standard required)

**ARTS**

**Areas of study:** English, history, psychology, sociology  
**Course prerequisites:** Any 2 units of English (min. standard required)

**BUSINESS, ACCOUNTING, COMMERCE**

**Areas of study:** Accounting, business, international business, management, marketing, sport management  
**Course prerequisites:** Any 2 units of English (min. standard required)

**CIVIL ENGINEERING**

**ENGINEERING (INDUSTRIAL)**

**Course prerequisites:** Any 2 units of English plus Mathematics (Advanced) or HSC Mathematics Extension 1 or HSC Mathematics Extension 2 (min. standards required)

**CREATIVE ARTS**

**Areas of study:** Visual arts  
**Course prerequisites:** Any 2 units of English (min. standard required)  
**Additional selection criteria:** Portfolio/interview

**EDUCATION**

**Areas of study:** Primary or secondary  
**Course prerequisites:** Any 2 units of English, any 2 units of mathematics (min. standards required)

**HEALTH INFORMATION MANAGEMENT**

**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry, Mathematics (Advanced), Physics or Personal Development, Health and Physical Education (PDHPE) (min. standards required)

**HEALTH SCIENCES**

**Areas of study:** Health and sustainability, health promotion, human physiology and anatomy, public health, rehabilitation counselling, sports counselling and athlete welfare  
**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry, Mathematics (Advanced), Physics or Personal Development, Health and Physical Education (PDHPE) (min. standards required)

**INFORMATION TECHNOLOGY**

**Course prerequisites:** Any 2 units of English (min. standard required)

**LAW**

**Areas of study:** Criminology, law  
**Course prerequisites:** Any 2 units of English (min. standard required)

**MEDIA AND COMMUNICATION (JOURNALISM)**

**Areas of study:** Journalism  
**Course prerequisites:** Any 2 units of English (min. standard required)

**NURSING (PRE-REGISTRATION)**

**Course prerequisites:** Any 2 units of English (min. standard required)  
**Recommended studies:** One of Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics

**OCCUPATIONAL THERAPY**

**Course prerequisites:** Any 2 units of English (min. standard required)  
**Recommended studies:** One of Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics

**PARAMEDIC PRACTICE**

**Course prerequisites:** Any 2 units of English plus two of Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics (min. standards required)

**PHYSIOTHERAPY**

**Course prerequisites:** Any 2 units of English, plus two of Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics (min. standards required)

**PSYCHOLOGICAL SCIENCE**

**Course prerequisites:** Any 2 units of English (min. standard required)

**PSYCHOLOGY**

**Course prerequisites:** Any 2 units of English (min. standard required)

**SCIENCE**

**Areas of study:** Biomedical science, pharmaceutical chemistry  
**Course prerequisites:** Any 2 units of English, any 2 units of mathematics (min. standards required)  
**Recommended studies:** One of Agriculture, Biology, Chemistry, Earth and Environmental Science, Geography, Information Processes and Technology, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics

**Agricultural Sciences<sup>+</sup>**

**Animal and Veterinary Biosciences<sup>+</sup>**

**Biological Sciences<sup>+</sup>**

**Science (Wildlife and Conservation Biology)<sup>+</sup>**

**Course prerequisites:** Any 2 units of English (min. standard required)

<sup>+</sup> First year only at Albury-Wodonga. Students transfer to Bundoora (Melbourne) from second year.

**SOCIAL WORK**

**Course prerequisites:** Any 2 units of English (min. standard required)

**SPEECH PATHOLOGY**

**Course prerequisites:** Any 2 units of English plus one of Biology, Chemistry, Mathematics (Advanced), Personal Development, Health and Physical Education (PDHPE) or Physics (min. standards required)

### ADVERTISING & MEDIA

#### ADVERTISING & MEDIA (DIP)

**Areas of study:** Creative process, digital design, campaign thinking, copywriting, foundations of marketing, media landscape, research and insight, social media strategy, the business of advertising, video production, positive psychology

**Recommended studies:** Any 2 units of English, Design and Technology, Visual Arts, Mathematics (Advanced), Business Studies

**Additional selection criteria:** Interview

### DIGITAL MEDIA

#### DIGITAL MEDIA (DIP)

**Areas of study:** Design thinking, positive psychology, digital design, video production, digital visualisation, ICT, interaction design, story and narrative, research and insight, social media strategy with specialisation options in digital marketing, visual content creation and interactive design

**Recommended studies:** Any 2 units of English, Design and Technology, Visual Arts, Mathematics (Advanced), Business Studies

**Additional selection criteria:** Interview

### BUSINESS

**Areas of study:** Business accounting, business fundamentals, digital business communications, foundations of marketing, business finance, project management, leadership and change management, business law, entrepreneurship, research and insight, positive psychology

**Recommended studies:** Any 2 units of English, Mathematics (Advanced)

**Additional selection criteria:** Interview

Entrepreneurship

Event Management

Marketing

Public Relations

Sports Business

Travel and Tourism

**Recommended studies:** Any 2 units of English, Mathematics (Advanced)

**Additional selection criteria:** Interview

### JOURNALISM

#### JOURNALISM (DIP)

**Areas of study:** Data journalism, feature writing, foundations of news, media history & ethics, media law, reporting government, radio, news research, professional news practice, video and mobile journalism (mojo)

**Recommended studies:** Any 2 units of English

**Additional selection criteria:** Interview

Business

Fashion

Food, Lifestyle & Travel

Investigative Reporting

Music

Sports

Photo

**Recommended studies:** Any 2 units of English

**Additional selection criteria:** Interview

### MARKETING (DIP)

**Areas of study:** Consumer behaviour, entrepreneurship, foundations of marketing, research and insight, sales and negotiation, digital business communications, positive psychology

**Recommended studies:** Mathematics (Advanced), any 2 units of English

**Additional selection criteria:** Interview

### BUSINESS (ACCOUNTING)

#### ACCOUNTING (DIP)

**Areas of study:** Accounting, accounting information systems, business communications, business fundamentals, business law, economics for business, foundations of marketing.

**Recommended studies:** Mathematics (Advanced), Legal Studies, Business Studies, any 2 units of English.

**Additional selection criteria:** Interview

### READ THIS FIRST

- The University recognises performance in relevant subjects. See Macquarie Entry Navigator for information ([mq.edu.au/study/macquarie-entry-navigator](http://mq.edu.au/study/macquarie-entry-navigator)).
- There are no course prerequisites for entry into degree courses at Macquarie University.
- Some courses have subject prerequisites, assumed knowledge and recommended studies. Some of these may have minimum band requirements. Students who do not have the stated subjects or minimum bands may take up relevant introductory units provided in the first year or bridging courses in chemistry and mathematics.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ACTUARIAL STUDIES

**Areas of study:** Actuarial science, economics, finance, financial management, insurance, mathematics, probability, risk management, statistics

**Assumed knowledge:** HSC Mathematics Extension 1

**Recommended studies:** HSC Mathematics Extension 2

### ANCIENT HISTORY

**Areas of study:** Ancient languages, archaeology, Egypt and Near East, Greece, Rome and late antiquity

**Recommended studies:** Ancient history

### APPLIED FINANCE

**Areas of study:** Corporate finance, financial economics, financial management, financial models, investments, probability, quantitative analysis, risk management, statistics

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** HSC Mathematics Extension 1

### ARCHAEOLOGY

**Areas of study:** Ancient history, ancient languages, anthropology, earth science, geology, human biology, modern history, palaeobiology, spatial information science

**Recommended studies:** Ancient history. For earth science, geology, human biology, palaeobiology and spatial information science, refer to 'Science'.

### ARTS

**Areas of study:** Ancient history; anthropology, arts management, Chinese studies, Chinese/English translation and interpreting, creative writing, criminology, Croatian studies, dance and performance, development studies, English, English as a foreign language, environmental humanities, French and Francophone studies, gender studies, geography, German studies, human geography, Indigenous studies, interactivity and games, international communication, international relations, Italian studies, Japanese studies, linguistics, media: culture and communication, modern Greek studies, modern history, music, philosophy, Polish studies, political economy, politics, psychological science<sup>+</sup>, Russian studies, society and culture, sociology and social policy, Spanish and Latin American studies

<sup>+</sup> The study of psychological science does not lead to registration as a psychologist or to professional postgraduate training in psychology.

**Recommended studies:** For psychological science: Mathematics (Advanced)

### BIODIVERSITY AND CONSERVATION

**Areas of study:** Biodiversity and conservation animal sciences, biodiversity and conservation biology, cell and molecular biology, ecology, environmental biology, genetics, microbiology, physiology, plant sciences

**Recommended studies:** Mathematics (Advanced) plus one of Biology, Chemistry or Investigating Science

### BUSINESS ADMINISTRATION

**Areas of study:** Accounting, business law, economics, human resource management, international business, marketing, strategic management

**Assumed knowledge:** Mathematics Standard 2

### BUSINESS ANALYTICS

**Areas of study:** Business forecasting, business information systems, data analytics, database management, risk management, social networks, statistics

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** HSC Mathematics Extension 1

## CHIROPRACTIC SCIENCE

**Areas of study:** Advanced anatomy and physiology, ageing, clinical chiropractic studies, community health, health promotion, physiology/exercise physiology, public health and research, rehabilitation, research methodology, sports medicine  
**Recommended studies:** Mathematics (Advanced) plus one of Biology, Chemistry, Physics

## CLINICAL SCIENCE

**Areas of study:** Anatomy, biochemistry, biology (human), embryology, genetics and genomics, histology, immunology, medical microbiology, neuroscience, pathology, pharmacology, physics, physiology, professional skills and knowledge for working in healthcare and medical research settings  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** Chemistry, English (Advanced)  
 For students who have not completed Chemistry and/or Mathematics (Advanced), it will be compulsory to participate in a relevant 4 to 5-day bridging course(s) prior to commencement. An introductory mathematics unit may be required for students with limited prior learning in mathematics and students taking this unit may incur additional fees. Find out more about bridging courses on the Faculty of Science and Engineering section of the Macquarie University website.

## COMMERCE

**Areas of study:** Accounting, business information systems, decision science, economics, entrepreneurship, finance, human resources, international business, marketing  
**Assumed knowledge:** *For decision science, economics, finance:* Mathematics (Advanced) *For accounting, business information systems, entrepreneurship, human resources, international business, marketing:* Mathematics Standard 2  
**Recommended studies:** *For accounting, business information systems:* Mathematics (Advanced) *For finance:* HSC Mathematics Extension 1

## GAMES DESIGN AND DEVELOPMENT

**Areas of study:** Computer graphics, games programming, games design, games development  
**Subject prerequisites:** Mathematics (Advanced) (Band 4) or HSC Mathematics Extension 1 (Band E2) or HSC Mathematics Extension 2  
**Recommended studies:** Software Design and Development plus HSC Mathematics Extension 1 or HSC Mathematics Extension 2

## DIGITAL BUSINESS

**Areas of study:** Computer programming, creativity and innovation, database systems, eCommerce, entrepreneurship, marketing, networking, software development, web design, web technology  
**Recommended studies:** Mathematics (Advanced), Information Processes and Technology, Software Design and Development

## ECONOMICS

**Areas of study:** Applied economics, econometrics, economic policy, financial economics, industrial organisation, macroeconomics, microeconomics  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** HSC Mathematics Extension 1

## EDUCATION

### Early Childhood Education

### Primary Education

**Recommended studies:** Any 2 units of mathematics

### Secondary Education

**Areas of study:** Business studies, economics, English, geography, history, languages, mathematics, science  
**Recommended studies:** Successful completion of chosen teaching areas (in particular, for mathematics teaching areas: Mathematics (Advanced), HSC Mathematics Extension 1 or HSC Mathematics Extension 2 and for biology, chemistry and physics teaching areas: Biology, Chemistry and Physics respectively)

## ENGINEERING (HONOURS)

**Areas of study:** Electrical engineering, electronics engineering, mechanical engineering, mechatronic engineering, software engineering, telecommunications engineering  
**Subject prerequisites:** Mathematics (Advanced) (Band 4) or HSC Mathematics Extension 1 (Band E2) or HSC Mathematics Extension 2  
**Recommended studies:** Physics and either HSC Mathematics Extension 1 or HSC Mathematics Extension 2

## ENVIRONMENT

**Areas of study:** Biology, climate science, environmental earth science, environmental management, spatial information science  
**Recommended studies:** A combination of Biology, Chemistry, Earth and Environmental Science, Geography, Mathematics (Advanced)

## GLOBAL BUSINESS

**Areas of study:** Entrepreneurship, global business environment, international business operations, international business strategy, macroeconomics, management, trade law. A major in either an Asian or European language is also an integral part of this course.  
**Assumed knowledge:** Mathematics Standard 2  
**Recommended studies:** Mathematics (Advanced)

## HELLENIC STUDIES

**Areas of study:** Ancient Greek studies, Byzantine studies, languages, modern Greek studies

## HUMAN SCIENCES

**Areas of study:** Cognitive and brain sciences, health studies, human movement, public health  
**Recommended studies:** Mathematics (Advanced)

## INFORMATION TECHNOLOGY

### Business Information Systems

**Areas of study:** Business analysis, data analytics, databases, data management, computer systems, system analysis  
**Assumed knowledge:** Mathematics Standard 2  
**Recommended studies:** Information Processes and Technology

### Information Technology

**Areas of study:** Cybersecurity, data analytics, data science, enterprise applications, information systems and business analysis, network security, software technology, web design and development  
**Recommended studies:** Software Design and Development plus HSC Mathematics Extension 1 or HSC Mathematics Extension 2

## INTERNATIONAL STUDIES

**Areas of study:** Cultural studies, intercultural communication, languages (Chinese, Croatian, French, German, Italian, Japanese, modern Greek, Polish, Russian, Spanish)

## LAW

**Areas of study:** Corporate and commercial law; criminology; environmental law and management; international law and global governance; media, technology and the law; public policy, law and governance; social justice

## MARINE SCIENCE

**Areas of study:** Biology, earth sciences, environmental chemistry, marine biology, marine environment, marine geoscience, oceanography, research methodology  
**Recommended studies:** Mathematics (Advanced) plus one of Earth and Environmental Science, Biology, Chemistry or Investigating Science

## MARKETING AND MEDIA

**Areas of study:** Australian media and media cultures, brand management, digital media, digital production, marketing research, marketing strategy, marketing theory, public relations and advertising, social media and marketing, technology  
**Assumed knowledge:** Mathematics Standard 2  
**Recommended studies:** Mathematics (Advanced)

## MEDIA

**Areas of study:** Digital design; journalism and non-fiction writing; media studies; public relations and social media; radio, digital audio and broadcast production; screen practice and production; screen, sound, performance

## MEDICAL SCIENCES

**Areas of study:** Biomedicine, medicinal chemistry, psychomedicine, anatomy, behavioural science, biochemistry, molecular biology, pathology, pharmacology, physiology, medical research  
**Recommended studies:** HSC Mathematics Extension 1, Chemistry

## PLANNING

**Areas of study:** Development, geographic information science, human geography, resource and environmental management, society and culture, urban planning  
**Recommended studies:** One of Geography, Earth and Environmental Science or Society and Culture

## PROFESSIONAL ACCOUNTING

**Areas of study:** Auditing, business advisory, business information systems and processes, business law, financial accounting, financial management, management accounting  
**Assumed knowledge:** Mathematics Standard 2  
**Recommended studies:** Mathematics (Advanced)

## PSYCHOLOGY

**Recommended studies:** *For psychology:* Mathematics (Advanced)

## SECURITY STUDIES

**Areas of study:** Business analysis, criminology, cyber security, languages, international relations, politics, public policy, risk management, strategy

## SCIENCE AND SCIENCE – GLOBAL CHALLENGES

**Areas of study:** Agricultural science, astronomy, astronomy and astrophysics, biology, biotechnology, chemical and biomolecular sciences, climate change, conservation studies, environmental science, geology, geophysics, mathematics, molecular and cell biology, computing, human biology, paleobiology, physics, plant and animal ecology, marine science, earth sciences, pharmacology, physics, psychological science, resource and environmental management, spatial science, statistics, sustainability  
**Subject prerequisites:** *For mathematics:* Mathematics (Advanced) (Band 4) or HSC Mathematics Extension 1 (Band E2) or HSC Mathematics Extension 2; refer also to Science Advanced  
*For astronomy and astrophysics and physics:* Mathematics (Advanced) (Band 4) or HSC Mathematics Extension 1 (Band E2) or HSC Mathematics Extension 2  
**Assumed knowledge:** *For chemistry-related areas of study:* Chemistry, Mathematics (Advanced) *For electronics:* Mathematics (Advanced) *For intending primary and secondary teachers in NSW:* Refer to Arts/Arts with Education *For global challenges:* Mathematics (Advanced)  
**Recommended studies:** *For applied and pure mathematics:* HSC Mathematics Extension 1 or HSC Mathematics Extension 2  
*For astronomy and astrophysics or physics:* HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus one of Physics (preferred), Chemistry, Engineering Studies or Investigating Science  
*For biology-related areas of study:* Mathematics (Advanced) plus one of Biology, Chemistry or Investigating Science *For climate science:* Mathematics (Advanced) plus Earth and Environmental Science or Geography *For computing:* HSC Mathematics Extension 1 or HSC Mathematics Extension 2 *For electronics:* HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus Information Processes and Technology or Software Design and Development *For environmental earth science:* Mathematics (Advanced) plus Earth and Environmental Science or Geography *For environmental management:* One of Earth and Environmental Science, Geography or Society and Culture  
*For geology-related areas of study:* Earth and Environment Science or Chemistry *For geophysics:* One of Earth and Environmental Science, Engineering Studies, Mathematics (Advanced) or Physics. Units of study are available in Chemistry, Physics and Mathematics (Advanced) for students who have not studied these courses at HSC level *For human biology:* Mathematics (Advanced) plus one of Biology, Chemistry or Investigating Science *For psychological science:* Mathematics (Advanced) *For spatial information science:* Geography, Mathematics (Advanced) *For statistics:* Mathematics (Advanced)

**SCIENCE ADVANCED**

**Applied Mathematics**

**Subject prerequisites:** HSC Mathematics Extension 1 (Band E3) or HSC Mathematics Extension 2

**Astronomy and Astrophysics**

**Recommended studies:** Physics, Mathematics (Advanced)

**Biology**

**Recommended studies:** Mathematics (Advanced) plus Biology, Chemistry or Investigating Science

**Chemical and Biomolecular Sciences**

**Recommended studies:** Mathematics (Advanced) plus Chemistry or Investigating Science

**Geology**

**Recommended studies:** Chemistry, Earth and Environmental Science

**Geophysics**

**Recommended studies:** Physics, Mathematics (Advanced)

**Palaeobiology**

**Recommended studies:** Earth and Environmental Science and/or Biology

**Physics**

**Recommended studies:** Physics, Mathematics (Advanced)

**Pure Mathematics**

**Subject prerequisites:** HSC Mathematics Extension 1 (Band E3) or HSC Mathematics Extension 2

**Software Technology**

**Recommended studies:** HSC Mathematics Extension 1 or HSC Mathematics Extension 2 plus Software Design and Development or Information Processes and Technology

**Statistics**

**Subject prerequisites:** HSC Mathematics Extension 1 (Band E3) or HSC Mathematics Extension 2

**SOCIAL SCIENCES**

**Areas of study:** Anthropology, criminology, development studies and culture change, environmental humanities, gender studies, human geography, Indigenous studies, international relations, philosophy, politics, political economy and social policy, psychological science, sociolinguistics, sociology

**SPEECH, HEARING AND LANGUAGE SCIENCES\***

**Areas of study:** Anatomy and physiology of speech and hearing, language sciences (linguistics) with a focus on speech and hearing science (hearing first and second language acquisition, language and the brain, language and society, phonetics and phonology, speech and language disorders, syntax)

\* This degree does not lead to registration as a speech pathologist or audiologist.

**DOUBLE DEGREES**

At Macquarie, you can combine a number of different study options to create a Double Degree. For example: Law and Environment, Applied Finance and Actuarial Studies, Engineering and Arts, Education and Arts or Science. To explore your double degree study options, visit courses.mq.edu.au.

<b>MIT SYDNEY</b>		
mit.edu.au CRICOS provider numbers 01545C, 03245K (NSW)		
		
<b>Enquiries</b>		
<b>by post:</b> MIT Sydney 154-158 Sussex Street Sydney NSW 2000	<b>in person:</b> 154-158 Sussex Street Sydney NSW 2000	<b>telephone:</b> (02) 8267 1400 <b>fax:</b> (02) 8627 1499 <b>email:</b> info.sydney@mit.edu.au, enrolments.syd@mit.edu.au

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**BUSINESS**

**Areas of study:** Accounting, management, marketing

**INFORMATION TECHNOLOGY**

**Networking**

**Areas of study:** Planning, implementing and managing computer networks, including specialisation in cyber security and cloud networks

<b>NATIONAL ART SCHOOL</b>

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ANIMATION**

**Additional selection criteria:** Interview

**3D Animation (Dip)**

**Areas of study:** 3D digital model creation, character rigging, design animation and digital visual effects, interpreting and responding to a design brief, production of 3D assets, staging and drawing, storyboards, visual design

**3D Modelling**

**3D Modelling (Assoc Deg)**

**Areas of study:** Advanced 3D modelling, development and implementation of 3D production pipelines, digital environments and technical art pipelines, lighting and rendering, modelling terminology and methods, texturing and shading

**Character Animation**

**Character Animation (Assoc Deg)**

**Areas of study:** Advanced 2D animation; development of user-friendly animation rigs; principles of character animation: posing, motion studies, body mechanics and facial animation

**Visual Effects**

**Visual Effects (Assoc Deg)**

**Areas of study:** Computer modelling; lighting; rendering; texturing; intermediate and advanced compositing, match moving, particle systems, dynamic simulations and colour grading

**AUDIO**

**Additional selection criteria:** Interview

**Post-production**

**Post-production (Assoc Deg)**

**Areas of study:** Advanced sound for picture techniques, audio post-production team dynamics, creation and manipulation of the sonic environment of multimedia

**Studio Production**

**Studio Production (Assoc Deg)**

**Areas of study:** Advanced studio production techniques, mastery of tracks from recording through to production, sound aesthetics, studio production team dynamics

**Audio Production (Dip)**

**Areas of study:** Assembly of small-scale digital recording system, digital technology, microphones, mixing and application of signal processors, music theory, musical forms and structure, operation of Digital Audio Workstation (DAW), sound recording

**Music Production (Dip)**

**Areas of study:** Blending sounds, conducting a location recording, Digital Audio Workstation (DAW) transcription and operation, music genres and styles, music theory, technical language, understanding and recognition of key features of music, working to a brief, writing a production brief

**DESIGN**

**Additional selection criteria:** Interview

**Graphic Design****Graphic Design (Assoc Deg) Graphic Design (Dip)**

**Areas of study:** Critical and creative thinking, design and layout, design for print media, fundamentals of drawing, pre-press, principles of design, typography

**Web Design****Web Design (Assoc Deg)**

**Areas of study:** Critical and creative thinking, design and layout, design for content management systems, dynamic development, interaction design, interface design, principles of design

**FILM**

**Additional selection criteria:** Interview

**Post-production****Post-production (Assoc Deg)**

**Areas of study:** Colour grading, compositing, editing, film fundamentals, operation of film equipment, storytelling, understanding the roles and responsibilities of film production crews

**Production****Production (Assoc Deg)**

**Areas of study:** Directing, film fundamentals, operation of film equipment, producing, storytelling, understanding the roles and responsibilities of film production crews

**Film (Dip)**

**Areas of study:** Film fundamentals, operation of film equipment, storytelling, understanding the roles and responsibilities of film production crews

**GAMES DEVELOPMENT**

**Additional selection criteria:** Interview

**Game Development (Dip)**

**Areas of study:** Differences between digital and analogue games, game construction, game functionality, instructional design, methods for construction of functional games, principles of spatial layout, programmatic solutions, visual communication techniques, writing Technical Design Documents (TDD)

**Games Design****Games Design (Assoc Deg)**

**Areas of study:** Advanced game design, foundations of 3D graphics, game audio, games as media, level development, psychology of play

**Games Programming****Games Programming (Assoc Deg)**

**Areas of study:** Applied mathematics, game engine architecture, games technology, programming, tools development

**SIBT**

sibt.nsw.edu.au  
CRICOS provider number 01576G

**Enquiries**

**by post:** SIBT

**facebook:** facebook.com/SIBT1

**READ THIS FIRST**

– SIBT will only consider academic subjects when determining a student's average performance.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ARTS (DIP)**

**Areas of study:** Arts, interpreting and translation, international studies, criminology and criminal justice.

**COMMERCE (DIP)**

**Areas of study:** Accounting, finance, economics, marketing, statistics, management

**ENGINEERING (DIP)**

**Areas of study:** Engineering computing, electrical engineering, mechanical engineering, physics, engineering materials, mathematics  
**Assumed knowledge:** HSC Mathematics Extension 1. If not, students can enrol in equivalent units to acquire this knowledge.

**INFORMATION TECHNOLOGY (DIP)**

**Areas of study:** Business information systems, data management, digital media, programming, software design, systems design

**MEDIA AND COMMUNICATION (DIP)**

**Areas of study:** Cross cultural communication, digital media, international communication, national and global media

**SOUTHERN CROSS UNIVERSITY**

**ACCOUNTING**

**Areas of study:** Business accounting, finance, law  
**Recommended studies:** Business Studies, Economics, Information Processes and Technology, Legal Studies

**ART AND DESIGN**

**Areas of study:** 3D studies, curating, digital art and design, drawing, painting, printmaking, sculpture  
**Recommended studies:** Visual Arts  
**Additional selection criteria:** Interview, portfolio

**ARTS**

**Areas of study:** Australian studies, communication studies, creative arts, cultural studies, education, English, environmental studies, history, human geography, Indigenous studies, international studies, law and justice, mathematics, media studies, music, physical geography, politics, psychology, society and culture, tourism, visual arts, writing  
**Assumed knowledge:** English (Advanced)

**ARTS (ASSOC DEG)**

**Recommended studies:** English (Advanced)

**BIOMEDICAL SCIENCE**

**Areas of study:** Anatomy, biochemistry, human physiology, immunology, microbiology, neuroscience  
**Recommended studies:** Mathematics (Advanced) plus at least one of Biology, Chemistry or Physics

**BUSINESS**

**Areas of study:** Accounting, aviation management, finance, human resource management, international business, management, marketing  
**Assumed knowledge:** Mathematics (Advanced), Business Studies, any 2 units of English  
**Recommended studies:** One or more of Business Studies, Economics, Information Processes and Technology or Legal Studies

**BUSINESS (ASSOC DEG)**

**Recommended studies:** Business Studies or Economics

**CIVIL ENGINEERING**

**Areas of study:** Environmental engineering  
**Recommended studies:** Mathematics (Advanced) plus Chemistry and/or Physics

**CLINICAL SCIENCES (OSTEOPATHIC STUDIES)**

**Areas of study:** Human anatomy and physiology, structure and function of the muscular and nervous systems  
**Recommended studies:** Biology plus Chemistry or Mathematics (Advanced)

**COASTAL SYSTEMS ENGINEERING**

**Areas of study:** Coastal engineering and management, floodplain engineering and management, project management, hydraulic engineering, water and wastewater engineering, engineering geochemistry and hydrology  
**Recommended studies:** Mathematics (Advanced) plus Chemistry and/or Physics

**CREATIVE WRITING (ASSOC DEG)**

**Areas of study:** Experimental writing, journalism, life writing, poetry, writing for stage and screen, writing for young adults  
**Assumed knowledge:** English (Advanced)  
**Recommended studies:** HSC English Extension 1 or HSC English Extension 2

**DIGITAL BUSINESS**

**Areas of study:** Entrepreneurship and innovation, e-commerce, management, marketing, web technology and cyber security.  
**Recommended studies:** Mathematics (Advanced) and/or one of Business Studies, Economics, Information Processes and Technology, Legal Studies

**DIGITAL MEDIA AND COMMUNICATIONS**

**Areas of study:** Creative writing, digital design, digital marketing, journalism, music and technology, screen media, visual culture  
**Assumed knowledge:** English (Advanced)  
**Recommended studies:** HSC English Extension 1 or HSC English Extension 2

**EDUCATION/TEACHING****Early Childhood****Primary (K-6)****Secondary****Technology Education**

There are no prerequisites or assumed knowledge.

Only available as a combined degree option – refer to

Education/Teaching (Combined degrees) below

**Additional selection criteria:** Non-academic requirements

**ENVIRONMENTAL SCIENCE**

**Areas of study:** Coastal management, environmental resource management, fisheries and aquaculture management, waste management and resource recovery

**Recommended studies:** Biology, Chemistry, Earth and Environmental Science, Geography, Mathematics (Advanced)

**FOREST SCIENCE AND MANAGEMENT**

**Areas of study:** Biology, ecology, environmental studies, forestry studies, plant physiology, soil processes, wood science

**Recommended studies:** Biology and/or Chemistry, Earth and Environmental Science, Mathematics (Advanced)

**HEALTH (ASSOC DEG)**

**Recommended studies:** Biology and/or Chemistry

**HOTEL MANAGEMENT**

**Areas of study:** Accommodation operations, food and beverage, management, professional practice

**Recommended studies:** Business Studies and/or Hospitality, any 2 units of English

**Additional selection criteria:** Interview

**INDIGENOUS KNOWLEDGE**

**Areas of study:** Indigenous knowledge and research, community and land management, Aboriginal health care

**Recommended studies:** Any 2 units of English

**INFORMATION TECHNOLOGY**

**Areas of study:** Information systems, software development, user experience

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Information Processes and Technology, any 2 units of English

**INFORMATION TECHNOLOGY (ASSOC DEG)**

**Areas of study:** Applications development, database systems, digital media, programming, systems analysis and design, web development

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Information Processes and Technology, any 2 units of English

**LAW (ASSOC DEG)**

**Areas of study:** Conveyancing

**LAWS****LAWS (DOUBLE DEGREES)**

- Arts/Laws
- Business/Laws
- Creative writing
- Legal and Justice Studies/Laws
- Psychological Science/Laws
- Social Science/Laws
- Sport and Exercise Science/Laws

**Requirements:** *For Laws:* None *For the other area of study:* Refer to the relevant entry

**LEGAL AND JUSTICE STUDIES**

**Areas of study:** Conveyancing, Australian politics, legal systems and processes

**MARINE SCIENCE AND MANAGEMENT**

**Areas of study:** Biology, chemistry, coastal marine ecosystems, ecology, environmental issues

**Recommended studies:** Biology and/or Chemistry, Mathematics (Advanced)

**MECHANICAL ENGINEERING**

**Areas of study:** Applied mechanics, dynamics, fluid mechanics, manufacturing, materials, thermodynamics

**Recommended studies:** Chemistry and/or Physics, Mathematics (Advanced)

**MIDWIFERY**

**Areas of study:** Anatomy and physiology, midwifery theory and practice, primary health care, psychosocial sciences, women's health

**Assumed knowledge:** Any 2 units of English, Mathematics (Advanced) plus Chemistry or Biology

**Recommended studies:** HSC English Extension 1 or HSC English Extension 2

**CONTEMPORARY MUSIC**

**Areas of study:** Music education, new media arts, performance (audition), performance (non-audition), screen, songwriting/composition (audition), songwriting/composition (non-audition), sound production

**Assumed knowledge:** Competency on a musical instrument, particularly for the performance stream, basic music theory

**Recommended studies:** Music 1 or Music 2 or HSC Music Extension

**Additional selection criteria:** *For the performance and songwriting/composition audition streams:* Audition/interview

**NURSING**

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics

**Recommended studies:** One or more of Chemistry, Biology or Physics

**OCCUPATIONAL THERAPY**

**Areas of study:** Biomedical science, professional areas, social sciences

**Recommended studies:** Biology

**PEDORTHICS**

**Areas of study:** Footwear design and production, lower limb function, orthoses and bracing manufacture

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**PODIATRY**

**Areas of study:** Allied health studies, anatomy and physiology, gait biomechanics, lower limb medicine

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**PSYCHOLOGICAL SCIENCE**

**Areas of study:** Analytical problem-solving, applied skills, interpreting research findings, scientific principles, statistical methods, testing and assessment

**Recommended studies:** Mathematics (Advanced), Biology

**SCIENCE**

**Areas of study:** Biology, engineering, environmental chemistry, human biology, information technology, mathematics, psychology

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**SCIENCE (ASSOC DEG)****SCIENCE (DIP)**

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

**SOCIAL SCIENCE**

**Areas of study:** Politics and government, sociology

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Society and Culture

**SOCIAL WELFARE**

**Areas of study:** Children and young people, health and disability, Indigenous studies

**Assumed knowledge:** Any 2 units of English

**SPEECH PATHOLOGY**

**Areas of study:** Audiology, cultural competency, multi-modal communication neurology, phonetics and linguistics, principles of evidence-based practice

**Assumed knowledge:** English (Advanced)

**Recommended studies:** Biology

**SPORT AND EXERCISE SCIENCE**

**Areas of study:** Education, exercise science, nutrition

**Recommended studies:** Mathematics (Advanced), any 2 units of English, one or more of Biology, Chemistry, Physics, Personal Development, Health and Physical Education (PDHPE)

**TOURISM AND HOSPITALITY MANAGEMENT**

**Areas of study:** Event management, hospitality management, tourism management

**Recommended studies:** Any 2 units of English plus Business Studies and/or Hospitality

**DOUBLE DEGREES**

Refer to the assumed knowledge and recommended studies for both components of the double degrees.

- Arts/Laws
- Business/Arts
- Business/Laws
- Exercise Science and Psychological Science\*
- Environmental Science/Marine Science and Management
- Laws and Creative Writing\*
- Legal and Justice Studies/Laws
- Podiatry/Pedorthics
- Psychological Science/Laws
- Social Science/Laws
- Sport and Exercise Science/Laws

\*Combined degree

**EDUCATION/TEACHING (COMBINED DEGREES)**

- Arts/Education (Primary)
- Arts/Education (Primary/Early Childhood)
- Arts/Education (Primary/Secondary)
- Arts/Education (Secondary)
- Technology/Education (Secondary)

<b>TOP EDUCATION INSTITUTE</b>

**READ THIS FIRST**

- Top Education Institute offers courses through the Sydney City School of Business and the Sydney City School of Law on-campus at the Australian Technology Park, Sydney.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**SYDNEY CITY SCHOOL OF BUSINESS****APPLIED FINANCE AND ACCOUNTING****APPLIED FINANCE AND ACCOUNTING (DIP)**

**Areas of study:** Accounting, economics, finance, financial planning, financial systems and instruments, law, management, security analysis and pricing

**Recommended studies:** Mathematics (Advanced)

**BUSINESS (DIP)**

**Areas of study:** Accounting, economics, finance, management, statistics

**Recommended studies:** Business Studies

**INTERNATIONAL BUSINESS**

**Areas of study:** Accounting, business, economics, finance, law, management, statistics

**Recommended studies:** Business Studies, Mathematics (Advanced)

**SYDNEY CITY SCHOOL OF LAW****LAWS**

**Areas of study:** Law, including commercial, criminal, cyber, environmental, international, property, technology

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** English (Advanced)

**READ THIS FIRST**

- When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.
- Torrens University Australia (TUA) offers a range of career programs in **Business, Hospitality, Design, Health, Nursing and Sports Management** for study on-campus, online or a hybrid of both. Torrens University's programs are run through a combination of well-known, established schools and the University's own business and health degrees.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**BUSINESS**

Event Management

Marketing

Public Relations and Communications

Sports Management

**Areas of study:** Accounting, business and law, business fundamentals, customer experience management, digital marketing trends, economics, ethics and sustainability, events policy and strategy, identifying consumer behaviour, international business strategy, organisational creativity and innovation, public relations management, sports tourism, strategic marketing planning, understanding people and organisations

**COMMERCE**

**Areas of study:** Accounting, business communications, business law, economic, finance, leadership and professional practice, management, quantitative analysis

**BUSINESS**

**Areas of study:** Business fundamentals, customer experience management, ethics and sustainability, identifying consumer behaviour, understanding people and organisations

### EVENT MANAGEMENT (DIP)

**Areas of study:** Business fundamentals, customer experience management, event planning and management, events policy and strategy, organisational creativity and innovation, understanding people and organisations

### MARKETING (DIP)

**Areas of study:** Business fundamentals, customer experience management, identifying consumer behaviour, digital marketing trends and development, organisational creativity and innovation, strategic marketing planning, understanding people and organisations

## HEALTH COURSES

### APPLIED PUBLIC HEALTH

**Areas of study:** Health monitoring and screening at a population level; health policy; health promotion campaigns and advocacy; planning, implementing and evaluating health programs  
**Recommended studies:** Any 2 units of science

### BEAUTY AND SPA PRACTICE (DIP)

**Areas of study:** Aesthetic electrotherapy, aesthetic practice with technology, beauty and spa practice, foundations of aesthetics manual aesthetic techniques  
**Additional selection criteria:** Applicants must be 18 years or older at the course commencement date. Applicants must also be able to demonstrate the ability to undertake study at the required level.

### HEALTH SCIENCE

#### Aesthetics

**Areas of study:** Aesthetics, aesthetic electrotherapy, aesthetic practice with technology, cosmetic chemistry, digital fluency, foundations of aesthetics human anatomy and physiology, human biology, manual aesthetic techniques  
**Recommended studies:** Any 2 units of science

### NUTRITION

**Areas of study:** Analyse and develop health programs, nutritional needs of the human body, understanding nutrition needs on a global scale

### COUNSELLING & COMMUNICATION SKILLS (DIP)

**Areas of study:** digital fluency, health and wellbeing, human development across the lifespan, introduction to ageing, introduction to disability, introduction to human services, interpersonal communication

### SPORT DEVELOPMENT (DIP)

**Areas of study:** Athlete health and wellbeing; coaching practices; developing sports participation; drugs in sport; essentials of sports marketing; event management; high performance training and injury management principles; risk, law and work health and safety; staff recruitment  
**Recommended studies:** Personal Development, Health and Physical Education (PDHPE)

### HEALTH & WELLBEING (DIP)

**Areas of study:** Body systems and disease, understanding health, disease prevention, human nutrition, active lifestyle promotion, health promotion, corporate health, leisure, sport and fulfilling lives for older people, social and emotional wellbeing  
**Recommended studies:** Health and Physical Education, Nutrition

## NURSING COURSES

### NURSING (COMING SOON\*)

\* Although Torrens is a self-accrediting university, the Bachelor of nursing degree will only be available for enrolment and hence course delivery once accreditation from the Australian Nursing & Midwifery Accreditation Council is attained.

**Areas of study:** Administer and monitor medications, analyse health-related information, develop effective communication skills, implement basic nursing care, legal and ethical parameters in nursing, work as an enrolled nurse (RN)

**Recommended studies:** Biology

## BILLY BLUE COLLEGE OF DESIGN

### BRANDED FASHION DESIGN

**Areas of study:** Colour and material theory, design development and costing, fashion buying and merchandise planning, fashion illustration and technical drawing, fashion production, print design and theory  
**Recommended studies:** Textiles and Design, Visual Arts

### COMMUNICATION DESIGN

**Areas of study:** Design and typographic fundamentals, moving image and 3D design and production, packaging and branding  
**Recommended studies:** Visual Arts, Design and Technology

### DESIGN (DIP)

**Areas of study:** Branded fashion, communication design, design fundamentals, digital media, interior design, moving image and 3D design and production  
**Recommended studies:** Visual Arts

### DIGITAL MEDIA DESIGN

#### Interaction Design

#### Film and Video Design

#### 3D Design and Animation

**Areas of study:** 3D design, character design, cinematography, compositing, content production, editing, lighting, interaction, motion graphics, user behaviour

**Recommended studies:** Information Processes and Technology, Visual Arts, Design and Technology

### DIGITAL MEDIA DESIGN (DIP)

**Areas of study:** 3D design and animation, concept development, design fundamentals, interactive design, motion design

**Recommended studies:** Visual Arts plus Information Processes and Technology or Design and Technology

### INTERIOR DESIGN

#### Commercial

#### Residential

**Recommended studies:** Visual Arts, Design and Technology

### INTERIOR DESIGN AND DECORATION (DIP)

**Recommended studies:** Visual Arts, Design and Technology

### PHOTO IMAGING (DIP)

**Areas of study:** Digital photography, history, photo imagery

**Recommended studies:** Visual Arts

### DOUBLE DEGREE

If you intend to study this double degree check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the college for further details.

– Business/Design

## MEDIA DESIGN SCHOOL

### CREATIVE TECHNOLOGIES (GAME ART)

**Areas of study:** Animation, asset creation, game principles, game studies

**Recommended studies:** Design and Technology, Visual Arts

### SOFTWARE ENGINEERING (GAME PROGRAMMING)

**Areas of study:** 3D graphic programming, computer graphics, mathematics, software engineering

**Course prerequisites:** Mathematics Standard 2

**Recommended studies:** Visual Arts, Visual Design (not an ATAR course), Information Processes and Technology, Software Design and Development, Mathematics (Advanced), Physics

## BLUE MOUNTAINS INTERNATIONAL HOTEL MANAGEMENT SCHOOL

### BUSINESS

#### International Hotel and Resort Management

#### International Event Management

**Areas of study:** Hospitality management, leadership, business, conferences, event management, hotel operations, management, resort management

**Recommended studies:** Hospitality Examination (Kitchen Operations and Cookery) or Hospitality Examination (Food and Beverage) plus any 2 units of a language and business

**Additional selection criteria:** Students are required to attend an interview either in person or via Skype

## WILLIAM BLUE COLLEGE OF HOSPITALITY MANAGEMENT

### BUSINESS

#### BUSINESS (ASSOC DEG)

#### BUSINESS (DIP)

#### Hospitality Management

#### Tourism Management

**Recommended studies:** Hospitality Examination (Kitchen Operations and Cookery) or Hospitality Examination (Food and Beverage) plus any 2 units of language

### CULINARY MANAGEMENT (ASSOC DEG)

#### Commercial Cookery

**Recommended studies:** Hospitality Examination (Kitchen Operations and Cookery) or Hospitality Examination (Food and Beverage) plus Food Technology

**READ THIS FIRST**

- There are no course prerequisites into degree courses at UC.
- UC's subject adjustment factors recognises performance in relevant HSC subjects by enabling adjustment factors to students applying to UC after Year 12. For more information about UC's subject adjustment factors, visit [canberra.edu.au/future-students/applications/apply-now/alternative-entry/bonus-points](http://canberra.edu.au/future-students/applications/apply-now/alternative-entry/bonus-points).

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ACCOUNTING**

**Areas of study:** Auditing, finance, financial and management accounting, law, systems theory  
**Recommended studies:** ACT: English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) NSW: English (Advanced), Mathematics (Advanced)

**APPLIED ECONOMICS**

**Areas of study:** Professional economics  
**Recommended studies:** ACT: English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) NSW: English (Advanced), Mathematics (Advanced)

**ARCHITECTURE**

**Areas of study:** Architecture design, built design, landscape architecture, interior architecture

**ARTS**

**Areas of study:** Accounting, advertising, applied economics, applied statistics, architecture history and theory, communication studies, community development, community studies, counselling studies, creative writing, cultural heritage practice, digital design and production, English language and literature, event management, financial services, governance and policy, graphic design studio, human nutrition, Indigenous studies, information systems, integrated environmental management, international studies, journalism, justice studies, language studies, law and society, law and technology, literary studies, management, managing human resources, marketing, media and public affairs, media arts, museum studies, national security, politics and government, politics and international relations, psychology, public relations, service management, sociology and social policy, sport business, sport management, storytelling, teaching English to speakers of other languages (TESOL), tourism management, web design and production

**BIOMEDICAL SCIENCE**

**Areas of study:** Human biology: chemical and molecular principles, human biology: from cells to organism  
**Recommended studies:** ACT: Biology T (Major) and/or Chemistry T (Major), Mathematical Methods T (Major) NSW: Biology and/or Chemistry, Mathematics (Advanced)

**BUILDING AND CONSTRUCTION MANAGEMENT**

**Areas of study:** Building and construction management

**BUSINESS (DIP)**

**Areas of study:** Accounting, business, finance, law, management, marketing

**BUSINESS ADMINISTRATION**

**Areas of study:** Business administration  
**Recommended studies:** ACT: Mathematical Methods T (Major) NSW: Mathematics (Advanced)

**BUSINESS INFORMATICS**

**BUSINESS INFORMATICS (DIP)**

**Areas of study:** Business informatics, information systems

**COMMERCE**

**Areas of study:** Accounting, business economics, banking and financial services, financial planning,  
**Recommended studies:** ACT: Mathematical Methods T (Major)/Specialist Mathematics T (Major), English T (Major) NSW: Mathematics (Advanced), English (Advanced)

**COMMUNICATION AND MEDIA**

**Areas of study:** Corporate and public communication, journalism, marketing communication, media and public affairs, public relations, sports media

**COMMUNICATION (DIP)**

**Areas of study:** Advertising, communication, public relations

**CREATIVE WRITING**

**Areas of study:** Arts, creative writing

**CULTURAL HERITAGE**

**Areas of study:** Conservation, cultural heritage practice, heritage studies, museum studies

**DESIGN**

**Areas of study:** Design, industrial design, interaction design, visual communication design.  
**Recommended studies:** ACT: Mathematical Methods T (Major)/Specialist Mathematics T (Major), English T (Major) NSW: Mathematics (Advanced), English (Advanced)  
**Additional selection criteria:** Students may be considered for entry based on portfolio submission and/or interview

**DESIGN (DIP)**

**Areas of study:** Design, industrial design, interior architecture, landscape architecture

**DIGITAL MEDIA**

**Areas of study:** Arts, digital media

**EDUCATION**

**Areas of study:** Early childhood, key learning areas, primary curriculum and pedagogy, teacher professional practice  
**Recommended studies:** ACT: English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) NSW: English (Advanced), Mathematics (Advanced)

**EARLY CHILDHOOD**

**Areas of study:** Early childhood, key learning areas, primary curriculum and pedagogy, teacher professional practice

**ENGINEERING IN NETWORK AND SOFTWARE ENGINEERING**

**Areas of study:** Network engineering  
**Recommended studies:** ACT: Mathematical Methods T (Major)/Specialist Mathematics T (Major), English T (Major) NSW: Mathematics (Advanced), English (Advanced)

**ENTREPRENEURSHIP AND INNOVATION**

**Areas of study:** Entrepreneurial management

**ENVIRONMENTAL SCIENCE**

**Areas of study:** Applied ecology, coastal marine science, earth science, ecological conservation, environmental assessment, environmental chemistry, environmental genetics, environmental management, integrated environmental management, sustainability, water science  
**Recommended studies:** ACT: Mathematical Methods T (Major), Biology T (Major) and/or Chemistry T (Major) NSW: Mathematics (Advanced), Biology and/or Chemistry

**EVENT AND TOURISM MANAGEMENT**

**Areas of study:** Event and tourism management

**EXERCISE PHYSIOLOGY AND REHABILITATION**

**Areas of study:** Sport coaching, sports science  
**Recommended studies:** ACT: Biology T (Major), Chemistry T (Major), Mathematical Methods T (Major), Physics T (Major) NSW: Biology, Chemistry, Mathematics (Advanced), Physics

*A National Police Check and Working with Vulnerable People clearance is required for placement units.*

**FILM PRODUCTION**

**Areas of study:** Arts, film production

**FORENSIC STUDIES**

**Areas of study:** Forensic biology, forensic chemistry  
**Recommended studies:** ACT: Biology T (Major) and/or Chemistry T (Major), Mathematical Methods T (Major) NSW: Biology and/or Chemistry, Mathematics (Advanced)

**GLOBAL STUDIES**

**Areas of study:** Arts, global studies

**HEALTH STUDIES**

**Areas of study:** Health studies

**HEALTH SCIENCE**

**Areas of study:** Health science

**HUMAN NUTRITION**

**Areas of study:** Human nutrition  
**Recommended studies:** ACT: Chemistry T (Major), Mathematical Methods T (Major) NSW: Chemistry, Mathematics (Advanced)

**HUMAN RESOURCE MANAGEMENT**

**Areas of study:** Human resource management  
**Recommended studies:** ACT: English T (Major), Mathematical Methods T (Major) NSW: English (Advanced), Mathematics (Advanced)  
**Additional selection criteria:** Students may be considered for entry based on portfolio submission and/or interview

**INFORMATION TECHNOLOGY**

**Areas of study:** Information systems, software engineering  
**Recommended studies:** ACT: Mathematical Methods T (Major)/Specialist Mathematics T (Major), English T (Major) NSW: Mathematics (Advanced), English (Advanced)

**INFORMATION TECHNOLOGY (DIP)**

**Areas of study:** Information systems, software engineering

**JOURNALISM**

**Areas of study:** Communication studies, journalism

**JUSTICE STUDIES**

**Areas of study:** Justice studies

**LAW**

**LAW (COMBINED)**

The University of Canberra offers a range of combined courses with Law. For more information, visit [www.canberra.edu.au](http://www.canberra.edu.au)  
**Requirements:** For Law: None For the other areas of study: Refer to the relevant entry requirements

**MANAGEMENT**

**Areas of study:** Entrepreneurial management, governance and policy, government and politics, management, public sector management

**MARKETING**

**Areas of study:** Marketing management

### MEDICAL RADIATION SCIENCE

**Areas of study:** Medical imaging, medical radiation science  
**Recommended studies:** *ACT:* Biology T (Major), Physics T (Major), Mathematical Methods T (Major) *NSW:* Biology, Physics, Mathematics (Advanced)

### MEDICAL SCIENCE

**Areas of study:** Biological chemistry, human biology: from cells to organism  
**Recommended studies:** *ACT:* Chemistry T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major)  
*NSW:* Chemistry, Mathematics (Advanced)

### MIDWIFERY

**Areas of study:** Midwifery practice theory, midwifery professional theory, midwifery theory  
**Recommended studies:** *ACT:* Biology T (Major), Chemistry T (Major), English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) *NSW:* Biology, Chemistry, English (Advanced), Mathematics (Advanced)  
**Additional selection criteria:** Supplementary application form, CV

*All students enrolled in B Midwifery are required to undergo a National Police Check prior to undertaking clinical experience. All students are also required to present an immunisation history.*

### NETWORK AND SOFTWARE ENGINEERING (DIP)

**Areas of study:** Network and software engineering

### NURSING

**Areas of study:** Nursing inquiry, professional nursing practice  
**Recommended studies:** *ACT:* Biology T (Major), Chemistry T (Major), English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) *NSW:* Biology, Chemistry, English (Advanced), Mathematics (Advanced)

*All students enrolled in B Nursing are required to undergo a National Police Check prior to undertaking clinical experience. All students are also required to present an immunisation history.*

### OCCUPATIONAL THERAPY

**Areas of study:** Occupational therapy

### PHARMACY

**Areas of study:** Pharmacotherapeutics, pharmacy practice  
**Recommended studies:** *ACT:* Mathematical Methods T (Major) plus Biology T (Major) or Human Movement T (Major), plus Chemistry T (Major) or Physics T (Major) *NSW:* Mathematics (Advanced) plus Biology or Personal Development, Health and Physical Education (PDHPE) plus Chemistry or Physics

*All students are required to undergo a National Police Check prior to undertaking clinical experience. All students are also required to present an immunisation history.*

### PHYSIOTHERAPY

**Areas of study:** Physiotherapy interventions, physiotherapy practice  
**Recommended studies:** *ACT:* Mathematical Methods T (Major) plus Biology T (Major) or Human Movement T (Major), plus Chemistry T (Major) or Physics T (Major) *NSW:* Mathematics (Advanced) plus Biology or Personal Development, Health and Physical Education (PDHPE), plus Chemistry or Physics

*All students are required to undergo a National Police Check prior to undertaking clinical experience. All students are also required to present an immunisation history and first-aid certificates, including CPR.*

### POLITICS AND INTERNATIONAL RELATIONS

**Areas of study:** Politics and international relations

*All students must satisfy a security check for the national security internships.*

### PSYCHOLOGY

**Areas of study:** Psychological science

### PUBLIC ADMINISTRATION

**Areas of study:** Public sector management

### PUBLIC HEALTH

**Areas of study:** Biology, community development, community studies, counselling studies, human biology: chemical and molecular principles, human biology: from cells to organism, human nutrition, information systems, international studies, management, management and governance and policy; marketing, pre-physiotherapy, psychology: an introduction, public health, sports science, sustainability

### SCIENCE

**Areas of study:** Applied ecology, applied statistics, biology, chemistry, ecological conservation, environmental assessment, human biology: chemical and molecular principles, human biology: from cells to organism, human nutrition, information systems, integrated environmental management, psychological science, software engineering, sports science, water science  
**Recommended studies:** *ACT:* Biology T, English T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major) plus Chemistry T or Physics T (Major) *NSW:* Biology, English (Advanced), Mathematics (Advanced) plus Chemistry or Physics

### SCIENCE (DIP)

**Areas of study:** Biology, chemistry, physical science, science

### SERVICE MANAGEMENT

**Areas of study:** Service management

### SOFTWARE ENGINEERING

**Areas of study:** Software engineering  
**Recommended studies:** *ACT:* Mathematical Methods T (Major) *NSW:* Mathematics (Advanced)

### SPORT AND EXERCISE SCIENCE

**Areas of study:** Sport coaching, sports science  
**Recommended studies:** *ACT:* Biology T (Major), Chemistry T (Major), Mathematical Methods T (Major)/Specialist Mathematics T (Major), Physics T (Major) *NSW:* Biology, Chemistry, Mathematics (Advanced), Physics

*A National Police Check may be required for practical placement units.*

### VISION SCIENCE

**Areas of study:** Vision science

### COMBINED DEGREES

If you intend to undertake combined degrees check the assumed knowledge and recommended studies for both degrees. Contact the University of Canberra for further details.

<b>UNIVERSITY OF NEW ENGLAND</b>		
une.edu.au CRICOS provider number 00003G		
<b>Enquiries</b>		
<b>by post:</b> Student Success University of New England Armidale NSW 2351	<b>in person:</b> Student Success Dixon Library Learning Commons University of New England Armidale NSW 2351	<b>telephone:</b> freecall 1800 818 865 <b>email:</b> via une.edu.au/askune

### READ THIS FIRST

- *Competence in the English language is a requirement for all University of New England courses.*
- *English (Standard) is not regarded as adequate preparation for the study of English Literature at the University of New England.*
- *When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.*
- *Foundation-level units in chemistry, mathematics and physics are available for students who do not have a background in these areas.*

*Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.*

### ACCOUNTING

**Areas of study:** Accounting, advanced accounting, agribusiness, business law, economics, finance, information systems, managing organisations and people, RG146 financial planning, tax practitioner  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

### AGRIBUSINESS

**Areas of study:** Agribusiness, accounting, economics, finance, marketing and management, rural science, technology and data analytics  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

### AGRICULTURAL AND RESOURCE ECONOMICS

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

### AGRICULTURAL PRODUCTION AND MANAGEMENT

**Areas of study:** Crop production, feedlot management, livestock production, poultry production, production horticulture  
**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
**Recommended studies:** Agriculture and/or Primary Industries, Biology

### AGRICULTURE

**Areas of study:** Agriculture, agricultural technology, agronomy, animal production, animal science, farm management, plant production, precision agriculture, primary industries, wool science  
**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
*For technology:* Mathematics (Advanced)  
**Recommended studies:** Agriculture, Biology and/or Chemistry

### AGRICULTURE/BUSINESS

**Areas of study:** Accounting, agribusiness, agriculture, animal and plant production, international business, marketing  
**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
**Recommended studies:** Agriculture, Biology and/or Chemistry

### ANIMAL SCIENCE

**Areas of study:** Canine and equine science, livestock production, wildlife management  
**Assumed knowledge:** Any 2 units of English, Chemistry, Mathematics (Advanced)  
**Recommended studies:** Biology

## ARTS

**Areas of study:** Ancient history, archaeology, Australian history, Chinese (Mandarin), classical languages (Greek/Latin), criminology, English, French, German, history, human geography, Indigenous studies, Indonesian, international history, Islamic studies, Italian, Japanese, linguistics, music, peace studies, philosophy, physical geography, political and international studies, psychology, screen and media studies, sociology, Spanish, studies in religion, theatre and performance, writing  
**Assumed knowledge:** Any 2 units of English

## BUSINESS

**Areas of study:** Accounting, agribusiness, business analytics, economics, finance, financial planning, human resource management, international business, management, marketing  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

## COMPUTER SCIENCE

**Areas of study:** Applied modelling, software development  
**Recommended knowledge:** Mathematics (Advanced)

## CRIMINOLOGY

**Assumed knowledge:** Any 2 units of English

## ECONOMICS

**Areas of study:** Applied econometrics, economic development, economics, environmental analysis and policy  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

## EDUCATION

### Early Childhood and Primary

### K-12 Teaching

**Prerequisite knowledge:** Minimum of three Band 5 (or E3) HSC results, including one in English

**Assumed knowledge:** Any 2 units of mathematics. See course entry requirements at [my.une.edu.au/courses](http://my.une.edu.au/courses) for full details.

### K-6 Teaching

### Special and Inclusive Education (Primary)

**Prerequisite knowledge:** Any 2 units of English

**Assumed knowledge:** Any 2 units of mathematics

### Secondary Arts

### Secondary Mathematics

### Secondary Science

### Secondary Music (Distance only)

**Prerequisite knowledge:** Any 2 units of English

**Assumed knowledge:** Any 2 units of mathematics

*For Secondary Mathematics:* HSC Mathematics Extension 1

*For Secondary Science:* Any 4 units of science

*For Secondary Music:* Music

**Additional selection criteria:** Admission to B Education (Secondary Music) requires a performing standard equivalent to Grade 6 of the Australian Music Examinations Board demonstrated via audition or music performance qualification, a music theory standard equivalent to Grade 4 of the Australian Music Examinations Board demonstrated via music performance qualifications or successful completion of a music theory test set by the Music Discipline convenor, and a personal statement assessed by the discipline.

## ENVIRONMENTAL SCIENCE

**Areas of study:** Conservation ecology, envirobusiness, natural resource management, remediation and restoration

**Assumed knowledge:** Chemistry, Mathematics (Advanced), any 2 units of English,

**Recommended Studies:** Biology

## GEOSCIENCE

**Areas of study:** Digital geological mapping by GIS, environmental geology, geology, ore deposit geology

**Assumed knowledge:** Any 2 units of English, Chemistry, Mathematics (Advanced)

**Recommended studies:** Biology and/or Physics

## HISTORICAL INQUIRY AND PRACTICE

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Ancient History or Modern History

## INTERNATIONAL STUDIES

**Areas of study:** Global politics and peace, languages, societies

**Assumed knowledge:** Any 2 units of English

## LANGUAGES

**Areas of study:** Chinese (Mandarin), French, German, Indonesian, Italian, Japanese, Spanish

**Assumed knowledge:** Any 2 units of English

## LANGUAGES AND INTERNATIONAL BUSINESS

**Areas of study:** Chinese (Mandarin), French, German, Indonesian, Italian, Japanese, Spanish

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Mathematics (Advanced)

## LAW

### LAW (DOUBLE DEGREES)

**Assumed knowledge:** *For Law:* Any 2 units of English

*For the other area of study:* Refer to the relevant entry

- Agriculture/Law
- Arts/Law
- Business/Law
- Computer Science/Law
- Criminology/Law
- Economics/Law
- Environmental Science/Law
- Science/Law

## MEDIA AND COMMUNICATION STUDIES

**Areas of study:** Media and culture, writing and publishing

**Assumed knowledge:** Any 2 units of English

## MEDICINE

**Areas of study:** Medicine

**Recommended studies:** Any 2 units of English

**Additional selection criteria:** Direct University Joint Medical Program application form, Undergraduate Medicine and Health Sciences Admission Test (UMAT), Multiple Skills Assessment (interview), Personal Qualities Assessment

*The medical program is offered jointly by the University of Newcastle and the University of New England.*

## MUSIC (DISTANCE ONLY)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Music

**Additional selection criteria:** Admission to B Music requires a performing standard equivalent to Grade 6 of the Australian Music Examinations Board demonstrated via audition or music performance qualification, a music theory standard equivalent to Grade 4 of the Australian Music Examinations Board demonstrated via music performance qualifications or successful completion of a music theory test set by the Music Discipline convenor, and a personal statement assessed by the discipline.

## NURSING

**Assumed knowledge:** Any 2 units of English, any 2 units of science

## PHARMACY

**Assumed knowledge:** Mathematics (Advanced), Chemistry

**Recommended studies:** Biology, HSC Mathematics Extension 1 or 2

## PSYCHOLOGICAL SCIENCE

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of mathematics

## PSYCHOLOGY

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of mathematics

## RURAL SCIENCE

**Areas of study:** Agricultural systems, animal and plant breeding, animal and plant nutrition, animal and plant physiology, biochemistry, cotton and grain production, farm management, horticultural science, meat science, pasture and crop agronomy, post-harvest technology, precision agriculture, sheep and wool science, soil science

**Assumed knowledge:** Chemistry, Mathematics (Advanced), any 2 units of English

**Recommended studies:** Biology

## SCIENCE

### Biomedical

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Biology and Chemistry

### Science

**Areas of study:** Animal science and veterinary studies, applied physics, archaeology, biochemistry/biotechnology, biodiversity, botany, chemistry, computational science, forensic science, genetics, geography, geoscience, mathematics, medical chemistry, microbiology, neuroscience, palaeobiology, physiology, psychology, zoology

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Depending on degree subjects chosen, Biology, Chemistry and/or Physics

## SCIENTIFIC STUDIES

**Assumed knowledge:** Any 2 units of English

## SOCIAL SCIENCE

**Areas of study:** Aboriginal perspectives, criminology, health management, linguistics, organisational management, peace and developmental studies, political and international studies, psychology, social philosophy, sociology, urban and regional studies

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of mathematics (if majoring in Psychology)

## SOCIAL WORK

**Recommended studies:** Any 2 units of English

## SPORTS AND EXERCISE SCIENCE

### Clinical Exercise Physiology

### Exercise and Sports Science

**Assumed knowledge:** Any 2 units of mathematics, Personal Development, Health and Physical Education (PDHPE) and/or any 2 units of science

**Recommended studies:** Chemistry and/or Biology

## SUSTAINABILITY

**Areas of study:** Community engagement and development, cultural heritage management, environmental governance, environmental resilience, governance and regulation

**Assumed knowledge:** Any 2 units of English

## URBAN AND REGIONAL PLANNING

**Assumed knowledge:** Any 2 units of English

## ZOOLOGY

**Areas of study:** Animal behaviour, animal/freshwater/marine ecology, animal physiology, entomology, environmental and comparative physiology, freshwater ecology, marine ecology, parasitology

**Assumed knowledge:** Chemistry, Mathematics (Advanced), any 2 units of English

**Recommended studies:** Biology

## COMBINED DEGREES

If you intend to undertake combined degrees, check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

- Agriculture/Business
- Arts/Business
- Arts/Science
- Business/Economics

Double degrees in Law are also offered. Refer to Law entry for details.

<b>UNIVERSITY OF NEWCASTLE</b>

**READ THIS FIRST**

- The University of Newcastle recognises performance in relevant HSC subjects. For information about the University of Newcastle's Subject Performance Scheme and Year 12 Adjustment Factors Scheme, visit [newcastle.edu.au](http://newcastle.edu.au).
- The University of Newcastle offers a number of refresher and preparation courses to assist students who may not have the recommended studies or assumed knowledge requirements. The preparation courses are offered before term commences and cover many areas such as mathematics, chemistry, physics and other specific academic skills. Information about preparation courses is available on the University of Newcastle website at [newcastle.edu.au/future-students/uonprep-bridging-courses/about-uonprep-bridging-courses](http://newcastle.edu.au/future-students/uonprep-bridging-courses/about-uonprep-bridging-courses).
- Not all campuses offer all courses and areas of study. Visit the University website for course locations.
- When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ARTS**

**Areas of study:** Ancient history; Chinese; creative and performing arts; education; English and writing; film, media and cultural studies; French; gender and sexuality studies; German; global indigenous studies, history; human geography and the environment; information technology, Japanese; linguistics; studies of religion, psychology studies, sociology and anthropology. violence studies, writing studies  
**Recommended studies:** For psychology studies: Mathematics (Advanced) For all other majors: English (Advanced)

\* Psychology studies are not accredited by the Australian Psychology Accreditation Council.

**BIOMEDICAL SCIENCE**

**Areas of study:** Advanced medical research, anatomy, biochemistry, immunology, industry and education, medical genetics, physiology  
**Assumed knowledge:** Mathematics (Advanced), Chemistry, Physics, Biology

**BIOTECHNOLOGY**

**Areas of study:** Biochemistry, biomolecules, laboratory skills in biological systems, molecular genetics, plant cell and molecular biology, statistics for the sciences  
**Assumed knowledge:** Mathematics (Advanced), Chemistry  
**Recommended studies:** Physics

**BUSINESS**

**Areas of study:** Entrepreneurship and innovation, governance, human resource management, international business, leadership and management, marketing, policy and political economy, sports management, tourism  
**Assumed knowledge:** Mathematics (Advanced)

**COMMERCE**

**Areas of study:** Accounting, economics, finance  
**Assumed knowledge:** Mathematics (Advanced)

**COMMUNICATION**

**Areas of study:** Journalism, media production, media studies, public relations  
**Assumed knowledge:** Any 2 units of English

**COMPUTER SCIENCE**

**Areas of study:** Computer systems and robotics, data science, software development, cyber security  
**Assumed knowledge:** Mathematics (Advanced) (Band 5)  
**Recommended studies:** HSC Mathematics Extension 1

**CONSTRUCTION MANAGEMENT**

**Areas of study:** Building information modelling, building surveying, communication, construction ecology, construction technology, contract administration, economics, facilities management, finance, health and safety, law, management, procurement, tendering and estimating  
**Recommended studies:** Any 2 units of English, Mathematics (Advanced)

**CREATIVE INDUSTRIES**

**Areas of study:** Communication and media, creative and performing arts, design, information technology, music, visual art: imaging technologies; visual art: studio practices, writing and publishing  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** One or more of English (Advanced), Drama, Design and Technology, Information Processes and Technology, Software Design and Development, Photography, Video and Digital Imaging (not an ATAR course), Visual Arts, any 2 units of music

**DESIGN (ARCHITECTURE)**

**Areas of study:** Architectural history: aesthetics, composition and proportion, architectural site as landscape, clients and their architectural briefs, communication in the built environment, construction and detailing of buildings, construction ecology, construction technology, digital and parametric design processes, history and theory in the built environment, making conceptual and realistic models in our workshop, sustainable design practices  
**Recommended studies:** Any 2 units of English plus Ancient History or Modern History, plus one or more of Visual Arts, Design and Technology, Industrial Technology

**DEVELOPMENT STUDIES**

**Areas of study:** Cultures and citizenship, environmental sustainability, globalisation and economic development, urban and regional development

**EDUCATION**

**Early Childhood and Primary**

**Areas of study:** Aboriginal education, behaviour management, children's learning and growth across the span of birth to 12 years, ethics and professional codes of conduct, families and society, language and mathematical learning, policy and issues, programming and planning for children aged 0 to 5 years, psychology of learning and teaching, special education  
**Assumed knowledge:** HSC Band 5 results in a minimum of three subjects, one of which must be English  
**Recommended studies:** Mathematics (Advanced)

**Primary**

**Areas of study:** Foundations of primary education, how to teach K-6 curriculum, language and literacy development, psychology of learning and teaching and behaviour management  
**Assumed knowledge:** HSC Band 5 results in a minimum of three subjects, one of which must be English

**Secondary**

**Areas of study:** Aboriginal studies, ancient history, biology, business studies, chemistry, computing technology: information systems and software design, design technologies, drama, earth and environmental science, economics, English, French, geography, German, health and physical education, Japanese, mathematics, modern history, physics, society and culture, visual arts  
**Assumed knowledge:** HSC Band 5 results in a minimum of three subjects, one of which must be English

**ENGINEERING**

**Chemical**

**Areas of study:** Automatic control, chemical engineering principles, fluid mechanics, green engineering and sustainability processes, heat transfer and design of energy systems, kinetics and reaction engineering, mass transfer and separation processes, process control, particle processing, separations involving solids, liquids, and gases, thermodynamics  
**Assumed knowledge:** Mathematics (Advanced) (Band 5), any 2 units of science (Physics or Chemistry preferred)  
**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

**Civil**

**Areas of study:** Calculus of science and engineering, civil engineering materials, engineering computation, engineering mechanics, fluid mechanics, geomechanics, hydrology, reinforced concrete design, steel design, stress and finite element methods, structural engineering, surveying, theory of structures, transportation engineering and design, water engineering  
**Assumed knowledge:** Mathematics (Advanced) (Band 5)  
**Recommended studies:** HSC Mathematics Extension 1, any 2 units of science

**Computer Systems**

**Areas of study:** Advanced computer systems, advanced physics, calculus of science and engineering, computer engineering, electrical engineering, embedded systems, engineering Mathematics, procedural programming, programmable logic design, quantum mechanics and semiconductor physics, signals and systems  
**Assumed knowledge:** Mathematics (Advanced) (Band 5)  
**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

**Electrical and Electronic**

**Areas of study:** Analog and digital communications, automatic control, computer engineering, electric energy systems, electric machines and power systems, electrical engineering design, electronics, engineering Mathematics, physics, procedural programming, signals and systems  
**Assumed knowledge:** Mathematics (Advanced) (Band 5)  
**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

**Environmental**

**Areas of study:** Calculus of science and engineering, engineering computations and probability, environmental chemistry, environmental legislation and planning, fluid mechanics, geomechanics, hydrobiological modelling, hydrology, land surface process and management, spatial data systems and remote sensing, water engineering  
**Assumed knowledge:** Mathematics (Advanced) (Band 5)  
**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

### Mechanical

**Areas of study:** Advanced materials and manufacturing, bulk solids handling, computer-aided engineering, design, fluid dynamics, mathematics, mechanics, physics, thermodynamics

**Assumed knowledge:** Mathematics (Advanced) (Band 5)

**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

### Mechatronics

**Areas of study:** Computer-integrated manufacturing, computer networks, control systems, electrical systems, electronic design, engineering management, finite element analysis, heat transfer, mechanical engineering design, mechanics of fluids and solids, microprocessor systems, modelling and simulation, sensors and actuators

**Assumed knowledge:** Mathematics (Advanced) (Band 5)

**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

### Medical

**Areas of study:** Analog and digital communications, electrical engineering design, engineering mathematics, electronics, exercise physiology, human pathophysiology, neurobiology, pharmacology, physics, procedural programming

**Assumed knowledge:** Mathematics (Advanced) (Band 5)

**Recommended studies:** HSC Mathematics Extension 1. Study of one science-related subject would also be an advantage (Biology, Physics or Chemistry preferred).

### Mining transfer program

The Mining Engineering degree is comprised of two years' study at UON. Upon successful application through UAC the remaining two years are undertaken at UNSW Sydney or the University of Wollongong.

The studies undertaken at UON are the same as the first two years of our Civil Engineering program. For areas of study, assumed knowledge and recommended studies refer to the Civil Engineering entry.

### Software

**Areas of study:** Algorithmics, computer engineering, database management systems, discrete mathematics, enterprise software architectures, formal languages and automata, internet communication, network and distributed computing, operating systems, programming languages and paradigms, software architecture and quality management, software development, web engineering

**Assumed knowledge:** Mathematics (Advanced) (Band 5)

**Recommended studies:** HSC Mathematics Extension 1 plus Physics or Chemistry

## ENVIRONMENTAL SCIENCE AND MANAGEMENT

**Areas of study:** Biological and earth processes, environmental planning and impact assessment, environmental remote sensing and computer-based mapping, environmental sampling and data analysis, environmental values, sustainability and ethics, land management, social development and the environment

**Assumed knowledge:** Mathematics (Advanced) plus Chemistry or Biology

## EXERCISE AND SPORT SCIENCE

**Areas of study:** Biomechanics; exercise physiology; exercise testing and prescription; growth, development and ageing; motor control and learning; sport and exercise psychology; sports nutrition

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE)

## FOOD SCIENCE AND HUMAN NUTRITION

**Areas of study:** Biomedical science, chemistry, food analysis, food and nutrition, food product development, functional foods and health claims,

macronutrients, micronutrients, nutrition in health and disease, plant and animal food products

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced)

## GLOBAL INDIGENOUS STUDIES

**Areas of study:** Global indigenous studies, human services, film media and cultural studies, human geography and the environment, human resource management, sociology and anthropology, governance, policy and political economy, entrepreneurship and innovation

## INFORMATION TECHNOLOGY

**Areas of study:** Business analysis, computing fundamentals, databases and information management, foundations of information systems, human computer interaction, programming, project management, systems analysis and design, systems and network administration, web technologies

**Assumed knowledge:** Any 2 units of English

## INTEGRATED CARE IN AGEING (ASSOC DEG)

**Areas of study:** Health assessment, health service delivery, leadership and management, physiological function and the ageing life cycle

**Additional selection criteria:** Successful completion of a minimum of a Certificate III qualification in aged care or a related field, and employed either part-time or full-time in aged care or a related industry such as community and disability services and allied health

## LANGUAGES (DIP)

**Areas of study:** Auslan (Australian sign language), Chinese, French, German, Japanese

## LAWS (COMBINED)

- Aboriginal Professional Practice/Laws
- Arts/Laws
- Business/Laws
- Commerce/Laws
- Communication/Laws
- Development Studies/Laws
- Innovation and Entrepreneurship/Laws
- Science/Laws
- Social Science/Laws

**Assumed knowledge:** *For Laws:* None *For other area of study:* Refer to the relevant entry

**Recommended studies:** *For Laws:* None *For other area of study:* Refer to the relevant entry

## MATHEMATICS (ADVANCED)

**Areas of study:** Complex analysis, differential equations, linear algebra, number theory, numerical methods, statistics, topology

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** HSC Mathematics Extension 1

## MEDICAL RADIATION SCIENCE (DIAGNOSTIC RADIOGRAPHY)

**Areas of study:** Anatomy and physiology, clinical education, instrumentation, physics, radiation protection, research

**Assumed knowledge:** Mathematics (Advanced) or Physics

## MEDICAL RADIATION SCIENCE (NUCLEAR MEDICINE)

**Areas of study:** Anatomy, molecular imaging, nuclear medicine instrumentation and radiopharmacy, nuclear medicine theory, patient care, physiology, psychology, research

**Assumed knowledge:** Mathematics (Advanced) or Physics

## MEDICAL RADIATION SCIENCE (RADIATION THERAPY)

**Areas of study:** Anatomy, behavioural science, clinical methods, imaging and treatment technologies, oncology, physiology, research

**Assumed knowledge:** Mathematics (Advanced) or Physics

## MEDICINE

*The medical program is offered jointly by the University of Newcastle and the University of New England.*

**Areas of study:** Engaging in medical practice, essentials of medical practice, extension of medical practice

**Recommended studies:** Any 2 units of English

**Additional selection criteria:** Direct University Joint Medical Program application form, Undergraduate Medicine and Health Sciences Admission Test (UMAT), Multiple Skills Assessment (interview), Personal Qualities Assessment

## MIDWIFERY

**Areas of study:** Antenatal care, care of the newborn baby, labour and birthing care, postnatal care

**Assumed knowledge:** Any 2 units of English (Band 4), Mathematics Standard 2, Biology and/or Chemistry

**Recommended studies:** English (Standard), Mathematics Standard 2, Biology and/or Chemistry

**Additional selection criteria:** Direct University B Midwifery Clinical Placement Preference application form

## MUSIC

**Areas of study:** Composition, creative production, music research and communication, music teaching and pedagogy, performance (instrumental/voice), song writing

**Assumed knowledge:** Music 1 or demonstrated musical experience or qualification equivalent to Music 1 or AMEB (Grade 6 to 8 pass)

**Additional selection criteria:** Audition (performance), interview (oral assessment), application (written assessment)

## NATURAL HISTORY ILLUSTRATION

**Areas of study:** Traditional and digital illustration techniques plus specialised laboratory applications

**Recommended studies:** One or more of Visual Arts, Textiles and Design, Design and Technology, Investigating Science, Biology or Geography

## NURSING

**Areas of study:** Aged care; human bioscience; mental health; primary, secondary and tertiary nursing

**Assumed knowledge:** Any 2 units of English plus General Mathematics (Advanced) 2, Chemistry and/or Biology

## NUTRITION AND DIETETICS

**Areas of study:** Basic and applied sciences, food service and management, medical nutrition therapy, professional practice, public health nutrition, social sciences

**Recommended studies:** Chemistry

## OCCUPATIONAL THERAPY

**Areas of study:** Anatomy and physiology; biomedical, behavioural and occupational sciences and therapy; mental health; psychology; sociology and community development

**Recommended studies:** Biology, Mathematics (Advanced)

## ORAL HEALTH THERAPY

**Areas of study:** Clinical treatment for children, the elderly, Indigenous Australians and special needs groups; communication; dental therapy; health promotion; human bioscience and anatomy; oral pathology; periodontology; radiography

**Recommended studies:** Biology, Chemistry

## PHARMACY

**Areas of study:** Anatomy and physiology, chemistry, dosage formulation, drug design and discovery, epidemiology, mental health first aid, pharmacotherapeutics

**Assumed knowledge:** Mathematics (Advanced) (Band 5), English (Advanced), Chemistry, Physics

**Recommended studies:** HSC Mathematics Extension 1

## PHYSIOTHERAPY

**Areas of study:** Advanced anatomy and physiology, clinical physiotherapy studies, community health, health promotion, research methodology

**Assumed knowledge:** English (Advanced), Chemistry plus Physics or Biology

## PODIATRY

**Areas of study:** Anatomy, physiology and biomechanics, podiatric theory

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

## PSYCHOLOGY

**Areas of study:** Clinical and abnormal behaviour, cognition and information processing, developmental psychology, neuroscience, perceptual processes and learning theory, psychopharmacology, research methodology, social psychology and personality, statistics

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Biology

## SCIENCE

**Areas of study:** Biological sciences, chemistry, co-major mathematics, co-major statistics, earth sciences, geography, marine science, photonics, physics, psychology, sustainable resource management

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Biology and/or Chemistry and/or Physics depending on major area of study

## SOCIAL SCIENCE

**Areas of study:** Criminology, global indigenous studies, history, human geography and the environment, human services, human resource management and industrial relations, leisure and tourism, linguistics, politics and international relations, psychology studies\*, sociology and anthropology

**Recommended studies:** *For psychology studies:* Mathematics (Advanced) *For all other majors:* English (Advanced)

\* *Psychology studies are not accredited by the Australian Psychology Accreditation Council.*

## SOCIAL WORK

**Areas of study:** Aboriginal studies, law, philosophy, psychology, social work, sociology and anthropology

**Recommended studies:** English Advanced, Society and Culture, Community and Family Studies, languages

### SPEECH PATHOLOGY

**Areas of study:** Acquired and developmental human communication disorders, audiology, communication disorders of neurological origin, phonological and articulatory disorders, stuttering, swallowing disorders, voice disorders

**Recommended studies:** Biology, Chemistry, Mathematics (Advanced), English (Advanced)

### SURVEYING

**Areas of study:** Cadastral surveying, geodesy, geotechnical engineering, industrial surveying, photogrammetry, satellite positioning, spatial data systems and remote sensing, surveying techniques and computations, town planning, water engineering

**Assumed knowledge:** Mathematics (Advanced) (Band 5)

**Recommended studies:** HSC Mathematics Extension 1, any 2 units of science

### TECHNOLOGY (RENEWABLE ENERGY SYSTEMS)

**Areas of study:** Electrical engineering (quantum mechanicals and semiconductor physics, electric machines and power systems, power electronics and renewable energy systems, principles and design of off-grid power systems, automatic control), mechanical engineering (mechatronic systems, thermofluids, mechanical engineering design, materials science and engineering, renewable energy conversion)

**Additional selection criteria:** Successful completion of Assoc Deg Engineering (Renewable Energy Technologies) from TAFE NSW (or equivalent)

### VISUAL COMMUNICATION

**Areas of study:** Advertising, animation, graphic design, human-centred design, illustration, information design, motion graphics, multimedia, publishing, transmedia, web design

**Recommended studies:** One or more of Visual Arts, Design and Technology, Textiles and Design, Industrial Technology

### COMBINED PROGRAMS

If you intend to undertake combined programs, check the prerequisites, assumed knowledge and recommended studies for both programs. Not all specialisations or majors within a program may be available within a combined program. Visit the University website for further details.

- Arts/Science
- Arts/ Innovation and Entrepreneurship
- Business/Innovation and Entrepreneurship
- Commerce/Innovation and Entrepreneurship
- Creative Industries/Innovation and Entrepreneurship
- Business/Commerce
- Development Studies/Business
- Development Studies/Social Science
- Engineering/Business
- Engineering/Computer Science
- Engineering/Engineering
- Engineering/Mathematics
- Engineering/Science
- Engineering/Surveying
- Food Science/Business
- Information Technology/Business
- Mathematics/Computer Science
- Mathematics/Science
- Music/Arts

Combined programs in Laws are also offered. Refer to Laws entry for details.

All programs are subject to routine review. This may result in slight variations in subject offerings. Program list correct at time of printing.

**website:** [sydney.edu.au/future\\_students](http://sydney.edu.au/future_students)

### READ THIS FIRST

- A course prerequisite of Mathematics (Advanced) (Band 4) is required for courses in the areas of agriculture, commerce, engineering and advanced computing, medicine, project management, science, pharmacy and veterinary science, including combined courses. This means that you must have reached this minimum standard in your NSW HSC or equivalent before you will be offered a place in the course. If you do not have the required course prerequisite you cannot be selected for the course, even though you may have met the other admission requirements. Admission requirements may include ATAR (or equivalent), or ATAR (or equivalent) and additional selection criteria (eg interview/audition/portfolio). For more information visit [sydney.edu.au/study/maths](http://sydney.edu.au/study/maths).
- A course prerequisite of any 2 units of English (not English as an Additional Language or Dialect (EALD)) (Band 5) and Band 5 in two other HSC subjects is required for some education courses.
- Most courses include assumed knowledge. This means you are expected to have studied these subjects in your NSW HSC or equivalent and you may be disadvantaged if you have not completed them. Some courses also require the study of certain subjects (eg mathematics, chemistry or physics) during your first year at university. Bridging courses in Chemistry, Physics, Biology, Mathematics (Advanced) and HSC Mathematics Extension 1 are offered for students who have not met the minimum assumed knowledge requirements.
- Where assumed knowledge depends on first-year subjects chosen, see the relevant faculty handbook at [sydney.edu.au/handbooks](http://sydney.edu.au/handbooks) for the available subjects.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ADVANCED COMPUTING

**Areas of study:** Computer science, databases, information systems, mathematics, programming, systems analysis

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** HSC Mathematics Extension 1

### ARCHITECTURE

#### Architecture and Environments

**Areas of study:** Architectural and environmental design, architectural history and theory, architectural sciences and technologies, digital architecture and communications, property and sustainability, urban design and planning

**Assumed knowledge:** English (Advanced), Mathematics (Advanced)

#### Design in Architecture

**Areas of study:** Architectural communications, architectural design, architectural history and theory, architectural technologies, art workshops, environment and sustainability, professional practice

**Assumed knowledge:** English (Advanced), Mathematics (Advanced)

### ARTS AND SOCIAL SCIENCES

#### Arts

#### Dalyell Scholars including Languages

#### International and Global Studies

#### Media and Communications

#### Politics and International Relations

**Areas of study:** Agricultural and resource economics; American studies; ancient history; anthropology; Arabic language and cultures; archaeology; art history; Asian studies; Australian literature; biblical studies and classical Hebrew; Celtic studies; Chinese studies; criminology cultural studies; digital cultures; diversity studies; econometrics; economic policy; economics; English; European studies; exchange, internship and project

units; film studies; financial economics; French and francophone studies; gender studies; Germanic studies; Greek (ancient); Hebrew (modern); history; Indigenous studies; Indonesian studies; international comparative literary studies; international relations; Italian studies; Japanese studies; Jewish civilisation, thought and culture; Korean studies; Latin; linguistics; media studies; modern Greek; music; philosophy; political economy; politics; psychology; Sanskrit; social policy; socio-legal studies; sociology; Spanish and Latin American studies; studies in religion; theatre and performance studies; writing studies.

**Assumed knowledge:** Depends on first-year subjects chosen. In most cases, where a first-year subject has a level of assumed knowledge, there is an alternative subject available with no knowledge assumed.

### COMMERCE

**Areas of study:** Accounting, banking, business analytics, business information systems, business law, finance, industrial relations and human resource management, international business, management and marketing

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Depends on first-year subjects chosen

### DENTISTRY

#### Oral Health

**Areas of study:** Dental hygiene, dental therapy, oral health education and promotion

**Assumed knowledge:** Chemistry, Biology

#### Science/Doctor of Dental Medicine

**Areas of study:** Anatomy and histology, biochemistry, bioinformatics, biology, chemistry, computer science, financial mathematics and statistics, geography, geology and geophysics, immunobiology, marine science, mathematics, medicinal chemistry, microbiology, nanoscience and technology, neuroscience, pharmacology, physics, physiology,

plant science, statistics. All students undertake studies in biology. For *Doctor of Dental Medicine*: Clinical dentistry, life sciences, research project

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** HSC Mathematics Extension 1. All students in Science must take some study in mathematics.

### DESIGN COMPUTING

**Areas of study:** App design, creative technology, design thinking, digital design, graphic design, human computer experience information architecture, information visualisation design, interaction design, physical computing, sound design, user-centred design, user-experience. Other related units and majors may be taken from fields including Arts and Social Sciences, Business, Engineering, Information Technology, Science. **Assumed knowledge:** Mathematics (Advanced)

### DIAGNOSTIC RADIOGRAPHY

**Areas of study:** Anatomy, biological sciences, clinical education, equipment and imaging techniques, image processing, pathology, physics, psychology, radiation biology **Recommended studies:** Mathematics (Advanced) plus one of Biology, Chemistry or Physics

### ECONOMICS

**Areas of study:** Agricultural and resource economics, econometrics, economics or financial economics. Second area of study from those offered by the Business School (see Commerce) or Arts and Social Sciences

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Other assumed knowledge depends on first-year subjects chosen

### EDUCATION

#### Early Childhood

**Areas of study:** Child development and learning, education, learning studies (language, arts, mathematics, health and wellbeing science), professional studies

**Assumed knowledge:** Depends on first-year subjects chosen

**Additional selection criteria:** Personal statement

#### Primary

**Areas of study:** Education and primary education

**Course prerequisites:** Any 2 units of English (not EALD) (Band 5), Band 5 in two other HSC subjects

**Recommended studies:** Mathematics (Advanced)

**Additional selection criteria:** Personal statement

#### Secondary

**Areas of study:** Health and physical education, humanities and social sciences, mathematics, science

**Course prerequisites:** For *health and physical education*: Any 2 units of English (not EALD) (Band 5), Band 5 in two other HSC subjects

For *mathematics and science*: Mathematics (Advanced) (Band 4)

**Assumed knowledge:** For *mathematics and science*: HSC Mathematics Extension 1

**Additional selection criteria:** Personal statement

All science students must take some study in mathematics. Graduates intending to teach science at a secondary level must complete at least one year of study in chemistry or physics during their degree.

### ENGINEERING

#### Aeronautical

#### Biomedical

#### Chemical and Biomolecular

#### Civil

#### Dalyell Scholars

#### Electrical

#### Flexible first year

#### Mechanical

#### Mechatronic

#### Software

#### Space Engineering major

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** HSC Mathematics Extension 1 plus Chemistry and/or Physics (depending on stream chosen)

### EXERCISE AND SPORT SCIENCE

#### Exercise Physiology

#### Exercise and Sport Science

**Areas of study:** Anatomy; biochemistry; biomechanics; learning and control of human movement; nutrition; physiology/exercise physiology and the application of these fundamental sciences to sport, exercise, ageing, rehabilitation, public health and research

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

### LAW (COMBINED)

- Arts/Laws
- Commerce/Laws
- Economics/Laws
- Engineering Honours/Laws
- Science/Laws

**Course prerequisites:** For *Law combined with Commerce, Economics, Engineering Honours or Science*: Mathematics (Advanced) (Band 4)

**Assumed knowledge:** For *Law*: None

For the other area of study: Refer to the relevant entry

### LIBERAL ARTS AND SCIENCE

**Areas of study:** Major from Arts and Social Sciences or a major from Science, a sequence of subjects in Science (if an Arts major is chosen) or in Arts (if a Science major is chosen) and a sequence in the Liberal Studies stream (analytical thinking, communication, culture, ethics, scientific enquiry, society and global citizenship, technological literacy) For subject areas, see Arts and Social Sciences or Science.

**Assumed knowledge:** Depends on first-year subjects chosen

### MEDICINE (DOUBLE DEGREE)

- Arts/Doctor of Medicine
- Science/Doctor of Medicine

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Refer to the relevant entry. All students in Double Degree Medicine must take some study in biology, physics and chemistry during their undergraduate degree. All students in Science/ Doctor of Medicine must take some study in mathematics during their undergraduate degree.

### MUSIC

**Areas of study:** Composition, contemporary music practice, creative music, digital music and media, improvised music, music education, musicology, performance (jazz studies, instrumental or vocal).

**Course prerequisites:** For *music education*: Any 2 units of English (not EALD) (Band 5), Band 5 in two other HSC subjects

**Assumed knowledge:** Music 1 For *composition, music education and music performance*: Music 2

**Additional selection criteria:** Audition and/or interview

For *music education*: Audition and/or interview and personal statement

### NURSING

**Areas of study:** Child and adolescent health, chronic care, community healthcare, health and human biology, health policy, Indigenous health, mental health, palliative care, population health, professional practice

### OCCUPATIONAL THERAPY

**Areas of study:** Biological sciences, occupational therapy, social sciences, theory and practice

**Recommended studies:** Biology

### PHARMACY

#### Pharmacy

#### Pharmacy and Management

**Areas of study:** Biology, chemistry, medicinal chemistry, pharmaceutical sciences, pharmaceuticals, pharmacology, pharmacy and pharmacy practice For *pharmacy and management*: Business

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry

**Recommended studies:** Biology or Physics

### PHYSIOTHERAPY

**Areas of study:** Biomechanics, exercise physiology, human anatomy and physiology, measurement of human performance, motor performance and learning, neuroscience, psychology, research design and statistics

**Assumed knowledge:** Chemistry, Physics

**Recommended studies:** Mathematics (Advanced)

### PROJECT MANAGEMENT

**Areas of study:** *Streams*: Built environment, civil engineering science or software. Studies include complex project coordination, management data, organisational behaviour, project finance, psychology, quality management, risk management, statistics

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** HSC Mathematics Extension 1

### PSYCHOLOGY

**Areas of study:** Psychology

**Course prerequisites:** Mathematics (Advanced) (Band 4).

**Assumed knowledge:** Depends on first-year subjects chosen

### SCIENCE

**Areas of study:** Agriculture; agroecosystems; anatomy and histology; animal and veterinary bioscience; animal health, disease and welfare; animal production; applied medical science; behavioural sciences; biochemistry and molecular biology; biology; cell and developmental biology; chemistry; computer science; data science; ecology and evolutionary biology; environmental science; environmental studies; financial mathematics and statistics; food and agribusiness; food science;

genetics and genomics; geography; geology and geophysics; health; history and philosophy of science; human movement; immunology; immunology and pathology; infectious diseases; information systems; marine science; mathematical sciences; mathematics; medical science; medicinal chemistry; microbiology; nanoscience and nanotechnology; neuroscience; nutrition and dietetics; nutrition science; pathology; pharmacology; physics; physiology; plant production; plant science; psychological sciences; quantitative life sciences; software development; soil science and hydrology; statistics; virology; wildlife conservation.

#### Science

#### Science (Advanced)

#### Dalyell Scholars including Mathematical Sciences

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** HSC Mathematics Extension 1. All students undertaking a science degree must take some study in mathematics. Other assumed knowledge depends on first-year subjects chosen.

#### Agriculture

**Areas of study:** Agriculture, including a major in animal production, plant production or soil science and hydrology; plus a second major from those offered for Science

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry

#### Animal and Veterinary Bioscience

**Areas of study:** Animal and veterinary bioscience plus a second major from those offered for Science

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry

**Recommended studies:** Biology

#### Food and Agribusiness

**Areas of study:** Food science and a second major from: Accounting, agricultural and resource economics, banking, business analytics, business information systems, commercial law, economic policy, economics, finance, industrial relations and human resource management, international business, management or marketing

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry

**Recommended studies:** Biology

#### Health

**Areas of study:** Health, a second major from those offered for Science

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** For *human movement*: Chemistry For *other majors*: Depends on first-year subjects chosen

#### Medical Science

**Areas of study:** Medical science including a major in anatomy, biochemistry, biology, cell pathology, genetics, histology, history and philosophy of science, immunology, infectious diseases, microbiology, molecular biology, pharmacology, physiology or psychology; plus a second major from those offered for Science

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry plus Biology or Physics

#### Taronga Wildlife Conservation

**Areas of study:** Wildlife conservation plus a second major from those offered for Science

**Course prerequisites:** Mathematics (Advanced) (Band 4)

**Assumed knowledge:** Chemistry

### SOCIAL WORK

**Areas of study:** Social policy, social work, sociology

**Assumed knowledge:** Depends on first-year subjects chosen

### SPEECH PATHOLOGY

**Areas of study:** Audiology, biomedical sciences, linguistics and language development, neurobiology, phonetics, psychology, research methods, sociology, specialist areas (aphasia, dysarthria, dyslexia, stuttering)  
**Recommended studies:** English (Advanced)

### VETERINARY BIOLOGY/DOCTOR OF VETERINARY MEDICINE

**Areas of study:** Animal diseases and pathology, animal husbandry, cell biology, chemistry, clinical and professional practice, pharmacology, veterinary anatomy and physiology, veterinary conservation biology, veterinary medicine, veterinary surgery  
**Course prerequisites:** Mathematics (Advanced) (Band 4)  
**Assumed knowledge:** Chemistry, Physics  
**Recommended studies:** Biology

### VISUAL ARTS

**Areas of study:** Visual arts specialisation  
**Recommended studies:** Design and Technology, Visual Arts  
**Additional selection criteria:** Portfolio

### COMBINED AND DOUBLE DEGREES

For combined degrees, see the course prerequisites, assumed knowledge and recommended studies for both degrees.

- Advanced Computing/Commerce
- Advanced Computing/Science
- Advanced Computing/Science (Health)
- Advanced Computing/Science (Medical Science)
- Arts/Laws
- Arts/Master of Nursing
- Arts/Doctor of Medicine
- Arts/Social Work
- Commerce/Laws
- Design in Architecture (Honours)/Master of Architecture
- Economics/Laws
- Education (Secondary: Humanities and Social Sciences)/Arts
- Education (Secondary: Mathematics)/Science
- Education (Secondary: Science)/Science
- Engineering Honours/Arts
- Engineering Honours/Commerce
- Engineering Honours/Laws
- Engineering Honours/Project Management
- Engineering Honours/Science
- Engineering Honours/Science (Health)
- Engineering Honours/Science (Medical Science)
- Engineering Honours (Civil)/Design in Architecture
- Science/Laws
- Science/Doctor of Dental Medicine
- Science/Doctor of Medicine
- Science/Master of Mathematical Sciences
- Science/Master of Nursing
- Science/Master of Nutrition and Dietetics
- Science (Health)/Master of Nursing
- Science (Medical Science)/Doctor of Medicine
- Veterinary Biology/Doctor of Veterinary Medicine

### ADVANCED STUDIES (COMBINED)

This is not a standalone degree. It may be taken in conjunction with:

- Arts
- Commerce
- Design Computing
- Economics
- Science
- Visual Arts

### READ THIS FIRST

- There are no course prerequisites for entry into bachelor degree courses at UTS.
- When you read 'any 2 units of science' or 'at least 2 units of science' or 'any two science subjects', this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ADVANCED SCIENCE

#### Advanced Science – Advanced Materials and Data Science

**Areas of study:** Chemistry, computational physics, data science, energy science and technology, mathematics (for physical science, quantum physics, solid-state science and nanodevices, surface processes).

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1, Physics

#### Advanced Science – Environmental Biotechnology

**Areas of study:** Bioinformatics, biotechnology, cell biology and genetics, chemistry, environmental biotechnology, mathematical modelling for science, medical biotechnology, metabolic biochemistry, microbiology, molecular biology, physical aspects of nature.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** Biology, HSC Mathematics Extension 1

#### Advanced Science – Infection and Immunity

**Areas of study:** Bacteriology, chemistry, cell biology and genetics, drug discovery, haematology and immunology, human anatomy and physiology, microbiology, molecular biology, parasitology, pharmacology, physical aspects of nature.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** Biology, HSC Mathematics Extension 1

#### Advanced Science – Pre-medicine

**Areas of study:** Biochemistry, cell biology, chemistry, genetics, human anatomy and physiology, histology, microbiology, pathophysiology, pharmacology, physics, preparing for graduate medicine

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** Biology, HSC Mathematics Extension 1

#### Advanced Science – Pharmaceutical Sciences

**Areas of study:** Cell biology and genetics, drug discovery, human anatomy and physiology, microbiology, pharmacology, medicinal chemistry

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** Biology, HSC Mathematics Extension 1

### ANALYTICS

**Areas of study:** Consumer analytics, financial mathematics, operations analysis, risk management, mathematical analysis and modelling, data analysis and analytics, probability, database fundamentals, quantitative management.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### ARCHITECTURE

**Areas of study:** Architectural design, technology, theory and professional practice

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

#### Landscape Architecture

**Areas of study:** Botany, design of landscapes in urban and rural contexts, ecology, graphic communications, hydrology, professional practice, research, sustainability

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts, Geography, Earth and Environmental Science

### ARTS

#### Communication – Creative Writing

**Areas of study:** Creative non-fiction writing, critical analysis, fiction writing, genre writing, narrative, poetry, screenwriting, textual theory

**Assumed knowledge:** Any 2 units of English

#### Communication – Digital and Social Media

**Areas of study:** Digital communities, digital marketing, digital technologies, programming, user experience design, user interface design, social media platforms

**Assumed knowledge:** Any 2 units of English

#### Communication – Journalism

**Areas of study:** Data journalism, digital publishing, ethical practice, investigative journalism, long-form storytelling, radio and TV journalism, reflective practice, reporting online, social media

**Assumed knowledge:** Any 2 units of English

#### Communication – Media Arts and Production

**Areas of study:** Aesthetics, documentary, drama, exploring media arts, media arts project, media arts specialist modules

**Assumed knowledge:** Any 2 units of English

#### Communication – Public Communication

**Areas of study:** Advertising, integrated communication, public communication, public relations

**Assumed knowledge:** Any 2 units of English

#### Communication – Social and Political Sciences

**Areas of study:** Analysing social and political change; communicating policy and producing online publications; developing policy analysis and advocacy; project research with an outside organisation; using real-world social research and research methods; using theory from politics, sociology and political economy

**Assumed knowledge:** Any 2 units of English

### Global Studies

**Areas of study:** Business studies, communication, globalisation, health, legal studies, management studies

**Assumed knowledge:** Any 2 units of English

### Music and Sound Design

**Areas of study:** Audio production, music technology, popular music studies, screen sound, songwriting, sound design

**Assumed knowledge:** Any 2 units of English

### BIOMEDICAL PHYSICS

**Areas of study:** Advanced medical device technology, applied electronics and interfacing, biomedical physics, bionanotechnology, cell biology and genetics, chemistry, human anatomy and physiology, human pathophysiology, imaging science, mathematical modelling for science, medical imaging technology, physics in action, quantum physics, solid-state science and nanodevices.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1, Physics

### BIOMEDICAL SCIENCE

**Areas of study:** Anatomy, autoimmunity, allergy, biochemistry, blood banks, blood transfusions, blood tests, cell biology, clinical microbiology, diabetes, diagnosis disease, epidemiology, genetics, genetic screening, haematology, histology, immunodeficiency, immunity, immunology, infection, laboratory, molecular biology, parasitology, pathology, physiology, histopathology, proteomics, research, serology, stem cell, transplantation.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### BIOTECHNOLOGY

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### Medical Biotechnology

**Areas of study:** Human anatomy and physiology, immunology, medical biotechnology, medical devices, microbiology, molecular biology, pharmacology, recombinant biology

### Environmental Biotechnology

**Areas of study:** Environmental biotechnology: environmental chemistry, environmental engineering, environmental remediation, medical biotechnology, recombinant biology, wastewater engineering,

### Computational Biotechnology

**Areas of study:** Computational biotechnology: bioinformatics, data analysis, information systems, mathematical modelling, microbiology, molecular biology, programming fundamentals, recombinant biology

### Biosensor Biotechnology

**Areas of study:** Biosensor technology: biosensors, human anatomy and physiology, mathematics, medical devices, medical imaging, nanophotonics, nanotechnology, physical modelling

### BUILDING

#### Construction Project Management

**Areas of study:** Building surveying, business management, contract management, construction site management, construction technology, cost planning and professional practice, design management, economics, estimating, law, project management, quantity surveying, risk and safety management, services, structures, sustainable development, time/cost/quality management

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Design and Technology, Engineering Studies, Construction (Exam), Economics, Business Studies, English (Standard), HSC Mathematics Extension 1 or HSC Mathematics Extension 2

### BUSINESS

#### Accounting

**Areas of study:** Accounting, business.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

#### Business

**Areas of study:** Accounting, business, business law\*, economics, finance, human resource management, information technology\*, international business, management, marketing, marketing communication

\* *Second major only*

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

#### Economics

**Areas of study:** Applied microeconomics, behavioural economics, econometrics, economic policy, economics of money and finance, economics of the environment, experimental economics, finance, game theory, industrial organisation, labour economics, macroeconomics, management, market design, marketing and business law, microeconomics, public economics,

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

#### Management

- Digital Creative Enterprise
- Events
- Sport Business
- Tourism

**Areas of study:** Business strategy, creative industries in the collaborative economy, current challenges in tourism, current issues in sport, digital strategy and governance, entrepreneurship studio, event and entertainment, event management, event sponsorship, events, innovation and entrepreneurship, international sport marketplace, management, management research skills, managing professional sport, managing risk and opportunity, promoting events, scenario planning, sport business, sport marketing, sustainable tourism, tourism, tourism, tourism promotion, tourist experience

**Assumed knowledge:** Any 2 units of English

### DESIGN

#### Animation

**Areas of study:** 2D animation, 3D computer animation, character design, design history, storyboarding, script writing and narrative, visual effects

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

#### Architecture

**Areas of study:** Architecture, construction technology, design, design history/theory, design technology, digital culture, ecodesign, environmental control, media, thermal design, sustainability

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

#### Fashion and Textiles

**Areas of study:** 2D and 3D pattern-making approaches, conceptual thinking, experimental design, fashion design practice, fashion history, fashion research, global fashion studios, menswear, sustainable fashion, textile design practice, womenswear

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

#### Product Design

**Areas of study:** Contemporary and advanced concept design, design history, design thinking, experience design, industrial design, innovation and commercialisation, interaction design, product engineering, user-centred design

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

### Interior Architecture

**Areas of study:** Design history and theory, exhibition design, interior design to urban design, lighting design, performance design, professional practice and design technology, spatial communications

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

### Landscape Architecture (Honours)

**Areas of study:** Botany, design of landscapes in urban and rural contexts, ecology, sustainability, graphic communications, hydrology, professional practice, research

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts, Geography, Earth and Environmental Science

### Photography

**Areas of study:** Animation, art history and theory, communication studies, computer technology, computing and design, cultural studies, design history/theory, design history, design thinking, design technology, design media, digital media, electronic arts/digital arts, film and video, image studies, interaction design, installation design, mass communication, media and digital culture, media arts, multimedia, photography, photojournalism, photomedia, screen production, visual arts

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

### Visual Communication

**Areas of study:** Branding, data visualisation, design for animation, design history, design thinking, emergent visual communication practices, experiential design, illustration, interactive design, moving image design, strategic design, typography, web design

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Design and Technology, Visual Arts

### EDUCATION

#### Primary, Secondary and K-12 Education

**Areas of study:** Contextual studies of education, curriculum studies in all key learning areas taught in primary schools (creative arts, English, personal development, health and physical education, social and environmental education, mathematics, science and technology), discipline studies, professional experience, teaching method subjects for discipline areas taught in secondary schools

**Assumed knowledge:** Minimum three Band 5 HSC results, including one in English

**Additional selection criteria:** Personal statement

### ENGINEERING

**Areas of study:** Biomedical, civil, civil and environmental, data, electrical, electronic, mechanical, mechanical and mechatronic, mechatronic, software

**Assumed knowledge:** HSC Mathematics Extension 1, Physics, English (Standard).

**Recommended studies:** English (Advanced) is recommended. For the biomedical, civil, and civil and environmental engineering majors, Chemistry is recommended. For the software engineering major, a sound knowledge of the fundamentals of programming is recommended

**Additional selection criteria:** Questionnaire

### ENVIRONMENTAL BIOLOGY

**Areas of study:** Biodiversity; cell biology and genetics; ecology of freshwater, estuarine and marine systems; environmental chemistry; experimental design and data analysis; GIS and remote sensing; marine geoscience; plant and wildlife ecology and management; structure, behaviour and physiology of plants and animals (additional subjects are available after first year for in-depth specialisation in selected areas)

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

### FORENSIC SCIENCE

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

**Recommended studies:** Chemistry, Physics, HSC Mathematics Extension 1

#### Forensic Science – Chemistry

**Areas of study:** Analytical chemistry, chemical criminalistics, document and counterfeiting, drug analysis, fire and explosion, forensic intelligence, organic chemistry, toxicology

#### Forensic Science – Biology

**Areas of study:** Advanced genomics, bioinformatics, biological criminalistics, bionanotechnology, DNA profiling, investigation of human remains, metabolic biochemistry, microbiology, molecular biology

#### Forensic Science – Crime Scene Investigation

**Areas of study:** Advanced forensic imaging and recovery, criminalistics, forensic intelligence, homicide investigation, investigation of human remains, major scene investigation, organic chemistry

#### Forensic Science – Digital Forensics

**Areas of study:** Digital crime and cybercrime, digital trace and identity, forensic intelligence, forensic statistics, mobile networking, network security, web and monitoring investigation

### GLOBAL STUDIES

**Areas of study:** Business studies, communication, globalisation, health, legal studies, management studies

**Assumed knowledge:** Any 2 units of English, computer literacy.

### HEALTH SCIENCE

#### Health Science

**Areas of study:** Analytics, contemporary health issues, data analytics,, digital health, digital health, epidemiology, global health, global health, human structure and function, pharmacology, sport and exercise

**Assumed knowledge:** Any 2 units of English

#### Traditional Chinese Medicine

**Areas of study:** Acupuncture, auricular acupuncture, biomedical anatomy, channel, Chinese herbs, Chinese massage, Chinese medicinal preparations, clinical assessment and examination, clinical practice, complementary and alternative medicine, critical thinking and aseptic technique, diagnosis, electro acupuncture, herbal medicine, laser acupuncture, materials and formula, meridian, pathophysiology, pharmacology, philosophy of Chinese medicine, physiology, practice management, reflective practices, research methods, trigger point

**Assumed knowledge:** Any 2 units of English, any 2 units of science

**Recommended studies:** Biology

### INFORMATION TECHNOLOGY

**Areas of study:** Business analysis, business-focused information system modelling, computing and IT fundamentals, industry-based learning.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

#### Computing Science

**Areas of study:** Business information systems management, data analytics and artificial intelligence, enterprise systems development, interaction design, internetworking and applications, mathematical analysis, operations research, statistics.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

#### Games Development

**Areas of study:** Animation, computing and IT fundamentals, game design, graphics, software engineering, systems development

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

## LAW

### LAW (COMBINED)

- Business/Law
- Communication (Creative Writing)/Law
- Communication (Digital and Social Media)/Law
- Communication (Journalism)/Law
- Communication (Media Arts and Production)/Law
- Communication (Public Communication)/Law
- Communication (Social and Political Sciences)/Law
- Creative Intelligence and Innovation/Law
- Economics/Law
- Engineering Science/Law
- Forensic Science/Law
- International Studies/Law
- Medical Science/Law
- Science/Law
- Science in Information Technology/Law

**Areas of study:** *For Law:* Commercial law, corporate law, criminal law, contracts, dispute resolution, employment law, environmental law, family law, finance and banking law, health and medical law, human rights, industrial law, intellectual property, international law, legal theory, Indigenous knowledge, justice studies, public international law, remedies, torts, law and technology.

*For the other area of study:* Refer to the relevant entry

**Assumed knowledge:** *For Law:* Any 2 units of English

## MARINE BIOLOGY

**Areas of study:** Animal behaviour and physiology, biological diversity, coral reef ecosystems, ecology, environmental protection and management, fisheries, GIS and remote sensing, marine communities, marine geoscience, marine primary producers.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

## MEDICINAL CHEMISTRY

**Areas of study:** Analytical chemistry, cell biology and genetics, human anatomy and physiology, inorganic chemistry, mathematical modelling for science, medicinal chemistry, metabolic biochemistry, organic chemistry, pharmacology, physical chemistry, physiological systems, principles of scientific practice, spectroscopy and structure, strategies in drug synthesis

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science, any 2 units of English

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

## MEDICAL SCIENCE

**Areas of study:** Anatomy, cell biology, diagnostics, drugs, genetics, haematology, human diseases, immunology, medical devices, medicine, metabolic biochemistry, microbiology, molecular biology, neuroscience, pharmacology, physiology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

## MIDWIFERY

**Areas of study:** Midwifery

**Assumed knowledge:** Any 2 units of English.

**Recommended studies:** Any 2 units of science, any 2 units of mathematics

## NURSING

**Areas of study:** Nursing

**Assumed knowledge:** English (Standard)

**Recommended studies:** Any 2 units of science, any 2 units of mathematics

## PROPERTY ECONOMICS

**Areas of study:** Economics, financial management, investment and valuation, land appraisal/land evaluation, land economics, legal studies, planning/land management/land science, property management, real estate management.

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

## SCIENCE

**Assumed knowledge:** *For all Science courses:* Mathematics (Advanced), any 2 units of English, any 2 units of science unless otherwise specified. HSC Mathematics Extension 1 is recommended for those majoring in mathematics/statistics. Refer to 'Read this first' at the beginning of the UTS entry.

### Chemistry

**Areas of study:** Analytical, inorganic, organic and physical chemistry; materials science; polymer science and surface chemistry. Students also have the opportunity to take subjects in forensic chemistry, medicinal, pharmaceutical and toxicological chemistry, nanotechnology.

**Recommended studies:** Chemistry, HSC Mathematics Extension 1, Physics

### Applied Physics

**Areas of study:** Advanced mechanics, computer modelling, electronics and computer interfacing, measurement analysis, nanophotonics, optics, quantum physics, scanning probe and electron microscopy, solid-state science, thermodynamics

**Recommended studies:** Chemistry, HSC Mathematics Extension 1, Physics

### Biomedical Science

**Areas of study:** Anatomy, animal and plant biotechnology, biobusiness, bioreactors and bioprocessing, biochemistry, cell biology and genetics, environmental biotechnology, haematology, immunology, medical devices, microbiology, molecular biology, neuroscience, parasitology, pathology, pathophysiology, pharmacology, physiology

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### Biotechnology

**Areas of study:** Anatomy, animal and plant biotechnology, biobusiness, bioreactors and bioprocessing, biochemistry, cell biology and genetics, environmental biotechnology, haematology, immunology, medical devices, microbiology, molecular biology, neuroscience, parasitology, pathology, pathophysiology, pharmacology, physiology

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### Environmental Sciences

**Areas of study:** Cell biology and genetics; biodiversity, ecosystem protection and management; environmental chemistry; environmental management; experimental design and analysis of ecological data; fisheries resources; freshwater ecology, estuarine and marine systems; GIS and remote sensing; marine geoscience; plant and wildlife ecology and management; pollution impacts on ecosystems; structure, behaviour and physiology of plants and animals

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

### Flexible

**Areas of study:** Analytical chemistry, organic and inorganic chemistry; applied physics; biotechnology; environmental sciences; marine biology; mathematics and statistics; medical science and biomedical science; nanomaterials and nanotechnology

**Assumed knowledge:** Chemistry, HSC Mathematics Extension 1

### Mathematics

**Areas of study:** Analysis of commercial and scientific data; applied statistics; design of statistical studies in commerce, industry and society; quantitative methods in management and logistics; theoretical foundations of applied mathematics and statistics. Students can choose additional studies in business, finance, law or information technology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### Medical Science

**Areas of study:** Anatomy, animal and plant biotechnology, biobusiness, bioreactors and bioprocessing, biochemistry, cell biology and genetics, environmental biotechnology, haematology, immunology, medical devices, microbiology, molecular biology, neuroscience, parasitology, pathology, pathophysiology, pharmacology, physiology

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### Nanotechnology

**Areas of study:** Bionanotechnology, materials science, nanofabrication, nanomaterials, nanoscale sensors, nanotubes

**Recommended studies:** Chemistry, HSC Mathematics Extension 1, Physics

### Statistics

**Areas of study:** Analysis of commercial and scientific data; applied statistics; design of statistical studies in commerce, industry and society; quantitative methods in management and logistics; theoretical foundations of applied mathematics and statistics. Students can choose additional studies in business, finance, law or information technology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

## SPORT AND EXERCISE MANAGEMENT

**Areas of study:** Accounting, anatomy, biomechanics, exercise management, exercise physiology, law, sport management, sports marketing, sports psychology, sports science, strategic management, management, sport and exercise

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

## SPORT AND EXERCISE SCIENCE

**Areas of study:** Anatomy, biomechanics, exercise physiology, exercise prescription, exercise rehabilitation, health, human movement, motor learning, personal development, health and physical education (PDHPE), sports psychology, sports science, strength and conditioning

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

### Exercise Therapy

**Areas of study:** Sport and exercise science, health, physiotherapy

## TECHNOLOGY AND INNOVATION

**Areas of study:** Creating value in problem solving and inquiry, imaginative and ethical citizenship, inter- and transdisciplinary practices, resilient practices within complex systems, technological fluency and computational thinking

**Assumed knowledge:** Any 2 units of English

## COMBINED DEGREES

If you intend to undertake combined degrees check the prerequisites, assumed knowledge and recommended studies for both degrees.

Contact the University for further details.

- Biotechnology/Business
- Business/Information Technology
- Engineering/Business
- Medical Science/Business
- Medical Science/Engineering
- Science/Business
- Science/Engineering

Combined degrees in Law are also offered – refer to main subject entry for details.

## INTERNATIONAL STUDIES (COMBINED)

- Analytics
- Animation
- Business
- Communication (Creative Writing)
- Communication (Digital and Social Media)

- Communication (Journalism)
- Communication (Media Arts and Production)
- Communication (Public Communication)
- Communication (Social and Political Sciences)
- Construction Project Management
- Education
- Engineering
- Fashion and Textiles
- Forensic Science
- Information Technology
- Interior Architecture
- Law
- Management
- Medical Science
- Music and Sound Design
- Nursing
- Photography
- Product Design
- Property Economics
- Science
- Sport and Exercise Management
- Sport and Exercise Science
- Traditional Chinese Medicine
- Visual Communication

## CREATIVE INTELLIGENCE AND INNOVATION (COMBINED)

- Advanced Science
- Animation
- Architecture
- Biomedical Physics
- Business
- Communication (Creative Writing)
- Communication (Digital and Social Media)
- Communication (Journalism)
- Communication (Media Arts and Production)
- Communication (Public Communication)
- Communication (Social and Political Sciences)
- Engineering
- Fashion and Textiles
- Forensic Science
- Information Technology
- Interior Architecture
- Law
- Management
- Medicinal Chemistry
- Midwifery
- Nursing
- Product Design
- Science
- Sport and Exercise Science
- Visual Communication

**Areas of study:** *For creative intelligence and innovation:* Critical and creative thinking, invention, complexity, innovation, future scenario building, entrepreneurship, collaboration and co-creation

**Assumed knowledge/Recommended studies:** Refer to the core degree to be combined with Creative Intelligence and Innovation

### Innovation (Dip)

A Diploma in Innovation can be combined with one of the bachelor degree courses listed under Creative Intelligence and Innovation (Combined) as an alternative to the Bachelor of Creative Intelligence and Innovation

## UNIVERSITY OF WOLLONGONG

uow.edu.au  
CRICOS provider number 00102E

## Enquiries

**by post:** UOW Future Students  
University of Wollongong  
NSW 2522

**youtube:** youtube.com/uownow

## READ THIS FIRST

- *Mathematics Standard 2 and Investigating Science may not adequately prepare students for further studies in the areas of mathematics and science at the University of Wollongong. However, these courses can be included in the calculation of the ATAR.*
- *'Any 2 units of science' includes Biology, Chemistry, Earth and Environmental Science, Geography or Physics. It does not include Investigating Science.*
- *Any 4 units of science includes two courses from Biology, Chemistry, Earth and Environmental Science, Geography or Physics. It does not include Investigating Science.*

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

## ARTS (HUMANITIES)

**Areas of study:** Chinese (Mandarin); community, culture and environment (Shoalhaven, Batemans Bay, Bega and Southern Highlands campuses only. Completion of full major subject to availability at time of enrolment.); creative writing; English literatures; French; history; Indigenous studies; international relations; Italian; Japanese; legal studies\*; philosophy; photography; politics; science and technology studies; sociology; Spanish; writing and English literature

\* Subject to final approval

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced)

## BIONOTECHNOLOGY

**Areas of study:** Molecular biology and biophysics, nanotechnology, physical and biological chemistry  
**Assumed knowledge:** Biology, Chemistry, Mathematics (Advanced), Physics  
**Recommended studies:** HSC Mathematics Extension 1

## BUSINESS

**Assumed knowledge:** Any 2 units of English

## BUSINESS (DIP)

**Areas of study:** Accounting, economics, finance, management, marketing  
**Assumed knowledge:** Any 2 units of English

## BUSINESS INFORMATION SYSTEMS

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Mathematics (Advanced) or Mathematics Standard 2

## COMMERCE

**Areas of study:** Accountancy, business law, economics, finance, financial planning, human resource management, international business, management, marketing, public relations, supply chain management  
**Assumed knowledge:** Any 2 units of English

## COMMERCE

- TAFE ADVANCED DIPLOMA OF EVENTS MANAGEMENT
- TAFE ADVANCED DIPLOMA OF HOSPITALITY MANAGEMENT
- TAFE ADVANCED DIPLOMA OF TOURISM AND TRAVEL MANAGEMENT

**Areas of study:** Human resource management, management, marketing, public relations  
**Assumed knowledge:** Any 2 units of English

These degrees are studied in conjunction with the relevant TAFE Advanced Diploma.

## COMMERCE GLOBAL (HONOURS)

**Areas of study:** Accountancy, finance  
**Assumed knowledge:** Any 2 units of English  
**Additional selection criteria:** Application and/or interview

## COMMUNICATION AND MEDIA

**Areas of study:** Communication and advertising, digital and social media, global screen media, journalism, marketing, visual communication design  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced)

## COMPUTER SCIENCE

**Areas of study:** Big data, computer science, cyber security, digital systems security, game and mobile development, software engineering  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

## COMPUTER SCIENCE GLOBAL (HONOURS)

**Areas of study:** Big data, computer science, cyber security, digital systems security, game and mobile development, software engineering  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

## CONSERVATION BIOLOGY

**Areas of study:** Conservation biology, landscape science, plant and animal ecology  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of science  
**Recommended studies:** Biology, Chemistry

## CREATIVE ARTS

**Areas of study:** Creative writing, music, theatre, visual arts, visual arts and design  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced) *For visual arts:* Design and Technology and/or Textiles and Design and/or Visual Arts  
*For music:* Music 2 or HSC Music Extension *For theatre:* Drama

## ECONOMICS AND FINANCE

**Areas of study:** Economics, finance  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

## ENGINEERING

**Areas of study:** Architectural\*, biomedical, civil, computer, electrical, environmental, materials, mechanical, mechatronic, mining and telecommunications engineering  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of English  
**Recommended studies:** Engineering Studies, HSC Mathematics Extension 1, Physics, Chemistry (not required for computer, electrical, mechatronic or telecommunication engineering)

\* Subject to approval

## ENGINEERING - SCHOLAR

**Areas of study:** Architectural\*, biomedical, civil, computer, electrical, environmental, materials, mechanical, mechatronics, mining and telecommunications engineering  
**Assumed knowledge:** HSC Mathematics Extension 1, any 2 units of English  
**Recommended studies:** Engineering Studies, Physics, Chemistry (not required for computer, electrical, mechatronics or telecommunications engineering)

\* Subject to approval

## ENGINEERING (DIP)

**Areas of study:** Design, mathematics, mechanics, physics  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of English  
**Recommended studies:** Chemistry, Engineering Studies, Physics

## ENVIRONMENTAL SCIENCE

**Areas of study:** Earth sciences, environmental chemistry, land resources, life sciences  
**Assumed knowledge:** Mathematics (Advanced) plus one of Biology, Chemistry, Earth and Environmental Science or Geography  
**Recommended studies:** Four units of science (including Biology or Chemistry)

## EXERCISE SCIENCE

**Areas of study:** Anatomy, biomechanics, exercise physiology, exercise prescription, physiology  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of science  
**Recommended studies:** Biology, Chemistry

## EXERCISE SCIENCE AND REHABILITATION

**Areas of study:** Anatomy, biomechanics, exercise physiology, exercise prescription, exercise rehabilitation, physiology  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of science  
**Recommended studies:** Biology, Chemistry

## GEOGRAPHY

**Areas of study:** Human and physical geography  
**Assumed knowledge:** Mathematics (Advanced), any 2 units of science  
**Recommended studies:** Earth and Environmental Science, Geography

## INDIGENOUS HEALTH

**Areas of study:** Community structures and organisations, health promotion and policy change, health leadership and management, Indigenous health issues, Indigenous health research  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Aboriginal Studies, any 2 units of science

## INFORMATION TECHNOLOGY

**Areas of study:** eBusiness, network design and management, social and digital innovation, web design and development  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Mathematics (Advanced)

## INFORMATION TECHNOLOGY INTERNATIONAL

**Areas of study:** eBusiness, network design and management, social and digital innovation, web design and development  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Mathematics (Advanced)

## INFORMATION TECHNOLOGY (DIP)

**Areas of study:** Data management, networks and communications, programming, system analysis, web technology  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Any 2 units of mathematics

## INTERNATIONAL STUDIES

**Areas of study:** Global screen media, global sustainable development, international relations, languages  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced)

## JOURNALISM

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced)

## LANGUAGE STUDIES

**Areas of study:** Chinese (Mandarin), French, Italian, Japanese, Spanish  
**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced), any 2 units of a language

## LAW (SINGLE DEGREE)

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** English (Advanced)

## LAW (DOUBLE DEGREES)

- Arts/Law
- Arts (Psychology)/Law
- Business/Law
- Commerce/Law
- Communication and Media/Law
- Computer Science/Law
- Creative Arts/Law
- Economics and Finance/Law
- Engineering (Honours)/Law
- Information Technology/Law

- International Studies/Law
- Journalism/Law
- Mathematics/Law
- Politics, Philosophy and Economics/Law
- Psychological Science/Law
- Science/Law

**Assumed knowledge:** *For Law:* Any 2 units of English

**Recommended studies:** *For Law:* English (Advanced) *For the other area of study:* Refer to the relevant entry

## MARINE SCIENCE

**Areas of study:** Biodiversity of marine and freshwater organisms, coastal environments, conservation biology, ecology, fisheries and aquaculture, marine and terrestrial ecology, oceanography

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Four units of science (including Biology and Chemistry)

## MATHEMATICS

### Mathematics

**Areas of study:** Industrial and applied mathematics, mathematical analysis, pure mathematics, statistics

**Course prerequisite:** Mathematics (Advanced)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### Mathematics and Finance

**Areas of study:** Financial planning, mathematical economics, quantitative and computational trading, quantitative corporate finance and investment, risk management and insurance

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### Medical Mathematics

**Areas of study:** Applied statistics, biology, mathematics

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English, any 2 units of science

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

### Mathematics Education – see Teaching

## MATHEMATICS – ADVANCED AND DEAN'S SCHOLAR

### Mathematics Advanced

**Areas of study:** Industrial and applied mathematics, mathematical analysis, pure mathematics, statistics

**Course Prerequisite:** HSC Mathematics Extension 2

### Mathematics and Finance – Dean's Scholar

**Areas of study:** Financial planning, mathematical economics, quantitative and computational trading, quantitative corporate finance and investment, risk management and insurance

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### Medical Mathematics – Dean's Scholar

**Areas of study:** Applied statistics, biology, mathematics

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Chemistry, HSC Mathematics Extension 1

## MEDICAL AND HEALTH SCIENCE

**Areas of study:** Anatomy, chemistry, neuroscience, physiology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Biology, Chemistry

## MEDICAL AND RADIATION PHYSICS

**Areas of study:** Medical imaging, nuclear medicine, radiation protection, radiation therapy, radiobiology

**Assumed knowledge:** Mathematics (Advanced), Physics, any 2 units of English

**Recommended studies:** Biology, Chemistry, English (Advanced), HSC Mathematics Extension 1

## MEDICAL BIOTECHNOLOGY

**Areas of study:** Biochemistry, biotechnology, cellular and molecular biology, genetics, immunology

**Assumed knowledge:** Mathematics (Advanced), 2 units of science

**Recommended studies:** Biology, Chemistry

## MEDICINAL CHEMISTRY

**Areas of study:** Biochemistry, pharmacology, physiology

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

**Recommended studies:** Four units of science

## NURSING

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Mathematics (Advanced), any 2 units of science

## NUTRITION AND DIETETICS

**Areas of study:** Biochemistry, clinical dietetics, community and public health nutrition, food service management, nutrition research, physiology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Biology, Chemistry

## NUTRITION SCIENCE

**Areas of study:** Biochemistry, community and public health nutrition, food composition, physiology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Biology, Chemistry

## PERFORMANCE

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** English (Advanced), Drama

**Additional selection criteria:** Audition and/or interview

## POLITICS, PHILOSOPHY, ECONOMICS

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** English (Advanced)

## PRE-MEDICINE, SCIENCE AND HEALTH

**Areas of study:** Anatomy, chemistry, human anatomy, human physiology

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Biology, Chemistry

## PSYCHOLOGY

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Mathematics (Advanced)

## PUBLIC HEALTH

**Areas of study:** Public health

**Assumed knowledge:** Any 2 units of English

## SCIENCE

**Areas of study:** Atmospheric science, biological sciences, biomolecular physics, bionanotechnology, chemistry, conservation biology, environment, geology, human geography, land and heritage management,

materials, medical biotechnology, medicinal chemistry, nuclear science technology, physical geography and environmental geosciences, physics

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science *For atmospheric science, biomolecular physics, materials, nuclear science technology, physics:* Mathematics (Advanced), any 2 units of English

**Recommended studies:** Four units of science *For materials, nuclear science technology, physics:* Chemistry, HSC Mathematics Extension 1, Physics

### Advanced

**Areas of study:** Atmospheric science, biomolecular physics, human geography, land and heritage management, physics

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science *For atmospheric science, biomolecular physics and physics:* Mathematics (Advanced), any 2 units of English

**Recommended studies:** Four units of science *For atmospheric science, biomolecular physics and physics:* Chemistry, HSC Mathematics Extension 1, Physics

### Dean's Scholar

**Areas of study:** Biological sciences, chemistry, geology, physical geography and environmental geosciences

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Four units of science

### Science Education – see Teaching

## SOCIAL SCIENCE

**Areas of study:** Community culture and environment (Shoalhaven campus only), criminology, health promotion, human geography, Indigenous studies, public health, social marketing, social policy, sociology

**Assumed knowledge:** Any 2 units of English

## SOCIAL SCIENCE (DIP)

**Areas of study:** Academic skills for social science, economics and society, human geography

**Assumed knowledge:** Any 2 units of English

## SOCIAL WORK

**Areas of study:** Social work

**Assumed knowledge:** Any 2 units of English

## SUSTAINABLE COMMUNITIES

**Areas of study:** Human geography, social and environmental sustainability, social policy

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Geography

## TEACHING

### Early Years (including Dean's Scholar)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of mathematics

### Health and Physical Education (including Dean's Scholar)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of science or Personal Development, Health and Physical Education (PDHPE)

### Mathematics Education (including Dean's Scholar)

**Course prerequisite:** Mathematics (Advanced)

**Assumed knowledge:** Mathematics (Advanced) (Band 4), any 2 units of English

**Recommended studies:** HSC Mathematics Extension 1

### Primary Education (including Dean's Scholar)

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of mathematics

## Science Education (including Dean's Scholar)

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**Recommended studies:** Any 2 units of mathematics, any 4 units of science

## DOUBLE DEGREES

If you intend to undertake double degrees check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

- Arts/Commerce
- Arts/Economics and Finance
- Arts/International Studies
- Arts/International Studies (Dean's Scholar)
- Business/Information Technology
- Communication and Media/Arts
- Communication and Media/Arts (Dean's Scholar)

**READ THIS FIRST**

- UNSW's HSC Plus recognises performance in relevant HSC subjects. For further information, visit [unsw.edu.au/hscplus](http://unsw.edu.au/hscplus).
- For HSC courses listed as assumed knowledge, students are expected to have a level of performance at Band 4 or higher.
- Mathematics Standard 2 is not regarded as adequate preparation for university studies in business, engineering and science. However, these courses can be included in the calculation of the ATAR.
- Students who do not have the level of assumed knowledge specified may find themselves ill-prepared for first-year subjects and therefore be placed at a considerable disadvantage. Chemistry and Physics bridging courses are offered at the Kensington campus before the start of semester 1 each year for students who have not included one or both in their HSC program. A mathematics bridging course is also offered for those students wishing to upgrade their HSC mathematics knowledge to the level of HSC Mathematics Extension 1.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

**ACTUARIAL STUDIES**

**Areas of study:** Accounting, actuarial risk management and analytics, actuarial studies, business economics, business law, business strategy and economic management, finance, financial economics, human resource management, information systems, international business, management, marketing, mathematics, quantitative data science, real estate studies, statistics, taxation  
**Assumed knowledge:** HSC Mathematics Extension 1  
**Recommended studies:** English (Advanced), HSC Mathematics Extension 2

**ARCHITECTURAL STUDIES**

**Recommended studies:** Ancient History, Design and Technology, English (Advanced), Modern History, Visual Arts

**ART THEORY**

**Recommended studies:** One or more of English (Advanced), Modern History, Visual Arts

**ARTS**

**Areas of study:** Asian studies, Australian studies, Chinese studies, creative writing, criminology, development studies, economics (Business), English, environmental humanities, European studies, film studies, French studies, geography (Science), German studies, history, human resources (Business), Indigenous studies, international business (Business), Japanese studies, Korean studies, linguistics, media, culture and technology, music studies, philosophy, politics and international relations, sociology and anthropology, Spanish and Latin American studies, studies in psychology, theatre and performance studies, women's and gender studies  
**Recommended studies:** English (Advanced)

**ARTS AND BUSINESS**

**Areas of study:** Asian studies, Australian studies, Chinese studies, creative writing, criminology, development studies, English, environmental humanities, European studies, film studies, French studies, German studies, history, Indigenous studies, Japanese studies, Korean studies, linguistics, media, culture and technology, music studies, philosophy, politics and international relations, sociology and anthropology, Spanish and Latin American studies, theatre and performance studies, women's and gender studies  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** English (Advanced)

**AVIATION**

**Flying**

**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** Physics  
**Additional selection criteria:** Medical examination, internal application, interview

**Management**

**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** Physics

**CITY PLANNING**

**Recommended studies:** Design and Technology, Economics, English (Advanced), Geography, Legal Studies, Society and Culture

**COMMERCE**

**Areas of study:** Accounting, business economics, business law, business strategy and economic management, finance, financial economics, human

resource management, information systems, international business, management, marketing, real estate studies, taxation  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

**COMMERCE (INTERNATIONAL)**

**Areas of study:** Accounting, Asian studies, business economics, business law, business strategy and economic management, Chinese studies, development studies, European studies, finance, financial economics, French studies, German studies, history, human resource management, information systems, international business, international relations, Japanese studies, Korean studies, management, marketing, politics, real estate studies, Spanish and Latin American studies, taxation  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

**COMPUTATIONAL DESIGN**

**Recommended studies:** Design and Technology, Information Processes and Technology, Mathematics Advanced, Software Design and Development, Visual Arts

**COMPUTER SCIENCE**

**Assumed knowledge:** HSC Mathematics Extension 1  
**Recommended studies:** Engineering Studies, HSC Mathematics Extension 2, Information Processes and Technology, Physics, Software Design and Development

**CONSTRUCTION MANAGEMENT AND PROPERTY**

**Recommended studies:** English (Advanced), Mathematics (Advanced)

**CRIMINOLOGY AND CRIMINAL JUSTICE**

**Areas of study:** Criminology, social research and policy  
**Recommended studies:** English (Advanced)

**DATA SCIENCE AND DECISIONS**

**Areas of study:** Business data science, computational data science, quantitative data science  
**Assumed knowledge:** HSC Mathematics Extension 1

**DESIGN**

**Areas of study:** 3D visualisation, crafted objects, experience design, graphic design, interaction design, textile design  
**Assumed knowledge:** Visual Arts  
**Recommended studies:** Design and Technology, Industrial Technology, Textiles and Design

**ECONOMICS**

**Areas of study:** Accounting, business law, econometrics, economics, finance, financial economics, human resource management, information systems, international business, management, marketing, real estate studies, taxation  
**Assumed knowledge:** Mathematics (Advanced)  
**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

**EDUCATION**

**Arts/Education (Secondary)**

**Assumed knowledge:** Any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**Commerce/Education (Secondary)**

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**Design/Education (Secondary)**

**Assumed knowledge:** Visual Arts, any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**Economics/Education (Secondary)**

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**Fine Arts/Education (Secondary)**

**Assumed knowledge:** Visual Arts, any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**Media Arts/Education (Secondary)**

**Assumed knowledge:** Any 2 units of English (Band 5)  
**Recommended studies:** Visual Arts, English (Advanced)

**Music/Education (Secondary)**

**Assumed knowledge:** Any 2 units of English (Band 5) plus either (Grade 7 AMEB Performance (or equivalent) and Music 2) or (Grade 6 AMEB Musicianship (or equivalent)) or HSC Music Extension  
**Recommended studies:** English (Advanced)  
**Additional selection criteria:** Audition

**Science/Education (Secondary)**

**Assumed knowledge:** Mathematics (Advanced) (prospective science teachers must also have Chemistry or Physics), any 2 units of English (Band 5)  
**Recommended studies:** English (Advanced)

**ENGINEERING**

- Aerospace Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Civil Engineering with Architecture
- Computer Engineering
- Electrical Engineering
- Environmental Engineering
- Mechanical and Manufacturing Engineering
- Mechanical Engineering
- Mechatronic Engineering
- Mining Engineering
- Petroleum Engineering
- Photovoltaics and Solar Energy Engineering
- Renewable Energy Engineering
- Surveying

**Telecommunications**

**Assumed knowledge:** HSC Mathematics Extension 1, Physics  
**Recommended studies:** Biology, Chemistry, Engineering Studies, HSC Mathematics Extension 2, Information Processes and Technology, Software Design and Development

**Bioinformatics Engineering**

**Assumed knowledge:** Chemistry, HSC Mathematics Extension 1  
**Recommended studies:** Biology, Engineering Studies, HSC Mathematics Extension 2, Information Processes and Technology, Software Design and Development

**Industrial Chemistry**

**Assumed knowledge:** Chemistry, HSC Mathematics Extension 1, Physics  
**Recommended studies:** Biology, Engineering Studies, HSC Mathematics Extension 2, Information Processes and Technology, Software Design and Development

## Software Engineering

**Assumed knowledge:** HSC Mathematics Extension 1

**Recommended studies:** Biology, Chemistry, Engineering Studies, HSC Mathematics Extension 2, Information Processes and Technology, Software Design and Development

## EXERCISE PHYSIOLOGY

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

**Recommended studies:** Biology, Physics, Personal Development, Health and Physical Education (PDHPE)

## FINE ARTS

**Areas of study:** Drawing, moving image, painting, photography, printmaking, sculpture

**Assumed knowledge:** Visual Arts

## FOOD SCIENCE

**Assumed knowledge:** Chemistry, HSC Mathematics Extension 1, Physics

**Recommended studies:** Biology

## INDUSTRIAL DESIGN

**Recommended studies:** Design and Technology, Visual Arts, Mathematics (Advanced)

## INFORMATION SYSTEMS

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** English (Advanced), HSC Mathematics Extension 1

## INTERIOR ARCHITECTURE

**Recommended studies:** Design and Technology, English (Advanced), Textiles and Design, Visual Arts

## INTERNATIONAL PUBLIC HEALTH

**Assumed knowledge:** English (Standard)

## INTERNATIONAL STUDIES

**Areas of study:** Asian studies, Chinese studies, development studies, environmental humanities, European studies, French studies, German studies, international business, international relations, Japanese studies, Korean studies, politics and international relations, sociology and anthropology, Spanish and Latin American studies

**Recommended studies:** English (Advanced)

## LANDSCAPE ARCHITECTURE

**Recommended studies:** Geography, Visual Arts, English (Advanced), Design and Technology

## LAW (DUAL)

- Actuarial Studies/Law
- Advanced Mathematics (Hons)/Law
- Advanced Science (Hons)/Law
- Arts and Business/Law
- Art Theory/Law
- Arts/Law
- City Planning (Hons)/Law
- Commerce/Law
- Computer Science/Law

- Science and Business/Law
- Social Research and Policy/Law
- Social Work (Hons)/Law

**Assumed knowledge:** *For Law:* None *For the other area of study:*

Refer to the relevant entry

**Recommended studies:** *For Law:* None *For the other area of study:*

Refer to the relevant entry

**Additional selection criteria:** Law Admission Test (LAT)

## MEDIA

### Communication and Journalism

### Public Relations and Advertising

### Screen and Sound Production

**Recommended studies:** English (Advanced)

## MEDIA ARTS

**Areas of study:** Animation, digital media, interactive media, moving image, sound

**Recommended studies:** Design and Technology, Industrial Technology (Multimedia Technologies), Visual Arts

## MEDICAL SCIENCE

**Areas of study:** Human anatomy, human pathology, molecular biology, molecular genetics, medical microbiology, neurobiology, medical pharmacology, medical physiology

**Assumed knowledge:** Mathematics (Advanced), Chemistry

**Recommended studies:** Biology, Earth and Environmental Science, HSC Mathematics Extension 1, Physics

## MEDICINE

**Assumed knowledge:** English (Standard)

**Recommended studies:** Chemistry

**Additional selection criteria:** Undergraduate Medicine and Health Sciences Admission Test (UMAT), interview

## MUSIC

**Areas of study:** Music creative practice, musicology, music pedagogy, sonic arts

**Assumed knowledge:** Either (Grade 7 AMEB Performance (or equivalent) and Music 2) or Grade 6 AMEB Musicianship (or equivalent) or HSC Music Extension

**Recommended studies:** English (Advanced)

**Additional selection criteria:** Audition

## PSYCHOLOGICAL SCIENCE

**Areas of study:** Criminology, human resource management, linguistics, management, marketing, neuroscience, philosophy, psychology, vision science

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Biology, Chemistry, Earth and Environmental Science, English (Advanced), Physics

## PSYCHOLOGY

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** Biology, Chemistry, Earth and Environmental Science, English (Advanced), Physics

## SCIENCE

### Advanced Mathematics

**Areas of study:** Advanced statistics, applied mathematics, pure mathematics, quantitative risk

**Assumed knowledge:** HSC Mathematics Extension 1

**Recommended studies:** HSC Mathematics Extension 2

### Advanced Science

**Areas of study:** Advanced physical oceanography, advanced physics, anatomy, bioinformatics, biology, biotechnology, chemistry, climate dynamics, climate systems science, earth science, ecology, genetics, geochemistry, geography, human geography, marine and coastal science, materials science, mathematics, microbiology, molecular and cell biology, neuroscience, pathology, pharmacology, physiology, psychology, statistics, vision science

**Assumed knowledge:** Chemistry, Mathematics (Advanced) plus one or more of Biology, Earth and Environmental Science, Physics, HSC Mathematics Extension 1 (depending on chosen area of study)

### Biotechnology

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

**Recommended studies:** Biology

### Environmental Management

**Areas of study:** Biology, earth science, ecology, environmental chemistry, geography, marine and coastal science

**Assumed knowledge:** Chemistry, Mathematics (Advanced)

**Recommended studies:** Biology, Earth and Environmental Science, Physics

### Life Sciences

**Areas of study:** Anatomy, biological chemistry, biology, biotechnology, ecology, genetics, marine and coastal science, microbiology, molecular and cell biology, pathology, pharmacology, physiology, psychology

**Assumed knowledge:** Mathematics (Advanced) plus Biology or Chemistry

### Materials Science and Engineering (Hon)

**Areas of study:** Ceramic engineering, materials engineering, physical metallurgy, process metallurgy

**Assumed knowledge:** Mathematics Extension 1, Physics

**Recommended studies:** Mathematics Extension 2, Chemistry and Engineering Studies

### Medicinal Chemistry

**Assumed knowledge:** Mathematics (Advanced), Chemistry

**Recommended studies:** Biology, Physics

## Science

**Areas of study:** Anatomy, bioinformatics, biology, biotechnology, chemistry, earth science, ecology, food science, genetics, geography, marine and coastal science, materials science, mathematics, microbiology, molecular and cell biology, neuroscience, pathology, pharmacology, physical oceanography, physics, physiology, psychology, statistics, vision science

**Assumed knowledge:** Chemistry, Mathematics (Advanced) plus one or more of Biology, Earth and Environmental Science, Physics, HSC Mathematics Extension 1 (depending on chosen area of study)

## SOCIAL RESEARCH AND POLICY

**Areas of study:** Development studies, economics (Business), environmental humanities, human resource management (Business), Indigenous studies, international business (business), marketing, media, culture and technology, politics and international relations, sociology and anthropology

**Recommended studies:** English (Advanced)

## SOCIAL WORK

**Recommended studies:** English (Advanced)

## VISION SCIENCE

**Areas of study:** Optometry, vision science

**Assumed knowledge:** Chemistry, English (Advanced), Mathematics (Advanced), Physics

## DUAL DEGREES

If you intend to undertake dual degrees check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

  - Vision Science/Clinical Optometry
- Dual degrees in Law and Education are also offered. Refer to the main subject area for details.

## UNSW CANBERRA AT THE AUSTRALIAN DEFENCE FORCE ACADEMY (ADFA)

### ARTS

**Areas of study:** Business, English and media studies, geography, history, Indonesian studies, international and political studies

**Assumed knowledge:** English

**Additional selection criteria:** *Defence students:* Interview process with Defence Force Recruiting for entry to the Australian Defence Force

### BUSINESS

**Additional selection criteria:** *Defence students:* Interview process with Defence Force Recruiting for entry to the Australian Defence Force

### COMPUTING AND CYBER SECURITY

**Assumed knowledge:** Mathematics (Advanced)

**Additional selection criteria:** *Defence students:* Interview process with Defence Force Recruiting for entry to the Australian Defence Force

*Defence Civilian Undergraduate Sponsorship (DCUS) students:* Interview process with the Department of Defence

### ENGINEERING

[Aeronautical Engineering](#)

[Civil Engineering](#)

[Electrical Engineering](#)

[Mechanical Engineering](#)

**Assumed knowledge:** Mathematics (Advanced), Physics

**Additional selection criteria:** *Defence students:* Interview process with Defence Force Recruiting for entry to the Australian Defence Force

*Non-Defence students:* Submit a UNSW Canberra application

*Defence Civilian Undergraduate Sponsorship (DCUS) students:* Interview process with the Department of Science

### SCIENCE

**Areas of study:** Aviation, chemistry, computer science, geography, mathematics, oceanography, physics

**Assumed knowledge:** For aviation: Mathematics (Advanced) chemistry, mathematics, oceanography, physics. For Aviation, oceanography and physics: Physics

**Additional selection criteria:** *Defence students:* Interview by Defence Force Recruitment and selection for entry to the Australian Defence Force

### TECHNOLOGY

[Aeronautical Engineering](#)

[Aviation](#)

**Areas of study:** Aeronautical engineering

**Assumed knowledge:** Mathematics (Advanced), Physics

**Additional selection criteria:** *Defence students:* Interview process with Defence Force Recruiting for entry to the Australian Defence Force

### DUAL DEGREES

If you intend to undertake dual degrees check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details. The below program is only available to non-defence students.

- Engineering (Hons)/Science

## WESTERN SYDNEY UNIVERSITY

westernsydney.edu.au  
CRICOS provider number 00917K

## WESTERN SYDNEY UNIVERSITY

### Enquiries

**by post:** Course Information Centre  
Western Sydney University  
Locked Bag 1797  
Penrith NSW 2751

**in person:** Campus locations are:  
Bankstown, Campbelltown, Hawkesbury,  
Liverpool, Nirimba (Blacktown), Parramatta,  
Parramatta City, Penrith, Sydney City,  
Sydney Olympic Park

**telephone:** 1300 897 669  
**email:** study@westernsydney.edu.au

### READ THIS FIRST

- When you read 'any 2 units of science' this can include Biology, Chemistry, Physics, Earth and Environmental Science or Investigating Science.

Main headings indicate courses generally offered as bachelor degrees unless Dip, Adv Dip or Assoc Deg is shown in brackets. Subheadings are specialisations within the course.

### ACCOUNTING

**Areas of study:** Accounting, taxation and financial planning

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English.

Students unable to demonstrate sufficient levels of achievement in mathematics will be required to use one of the elective units to increase their mathematical aptitude. This will not lengthen the period of study.

### ANTHROPOLOGY

**Assumed knowledge:** Any 2 units of English

### ARCHITECTURE

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

### ARTS

**Areas of study:** Anthropology, Arabic, Chinese, creative writing, criminology, cultural and social analysis, economy and markets, English, geography and urban studies, global business, heritage and tourism, history and political thought, Indigenous Australian studies, Indonesian, innovation and change, international English, international relations and Asian studies, interpreting and translation, Islamic studies, Japanese, linguistics, musicology, music performance, organisations and work, peace and development studies, philosophy, psychological studies, sociology

**Assumed knowledge:** Any 2 units of English (Band 4)

**Recommended studies:** English (Standard)

#### Interpreting and Translation

**Assumed knowledge:** Any 2 units of English. Applicants should be a native or near native speaker of Arabic, Chinese, Japanese or Spanish.

#### Languages and Linguistics

**Assumed knowledge:** Any 2 units of English

#### Pathway to Teaching (Birth–5/Birth–12)

**Assumed knowledge:** Any 2 units of English (Band 5), any 2 units of mathematics (Band 4)

**Recommended studies:** English (Standard)

#### Pathway to Teaching (Primary) – Arts

**Assumed knowledge:** Any 2 units of English (Band 5), any 2 units of mathematics (Band 4)

**Recommended studies:** English (Standard)

#### Pathway to Teaching (Secondary) – Arts

**Assumed knowledge:** Any 2 units of English (Band 5), any 2 units of mathematics (Band 4)

**Recommended studies:** English (Standard)

Requirements for teaching courses are currently under review. Check with the University for specific requirements.

### ARTS (DIP)

**Assumed knowledge:** Any 2 units of English

### BUILDING DESIGN MANAGEMENT

#### BUILDING DESIGN MANAGEMENT (DIP)

**Recommended studies:** Mathematics (Advanced), any 2 units of English

### BUSINESS

#### BUSINESS (ADVANCED) BUSINESS LEADERSHIP)

[Accounting](#)

[Applied Finance](#)

[Economics](#)

[Hospitality Management](#)

[Human Resource Management](#)

[International Business](#)

[Management](#)

[Marketing](#)

[Property](#)

[Sport Management](#)

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English.

### BUSINESS (DIP)

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics

**Recommended studies:** Legal Studies, Business Studies, Economics

### BUSINESS (PATHWAY TO TEACHING SECONDARY)

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

### COMMUNICATION

#### COMMUNICATION (DIP)

**Areas of study:** Advertising, journalism, media arts production, public relations

**Assumed knowledge:** Any 2 units of English

[Screen Media \(Arts and Production\)](#)

**Assumed knowledge:** Any 2 units of English

### COMMUNITY AND SOCIAL DEVELOPMENT

#### COMMUNITY AND SOCIAL DEVELOPMENT (DIP)

Available only to Aboriginal and Torres Strait Islander students.

**Additional selection criteria:** Entry is via the Aboriginal and Torres Strait Islander Alternative Entry Program. Check with the University for more details.

**COMMUNITY WELFARE**

**Recommended studies:** Any 2 units of English

**COMPUTER SCIENCE**

**Areas of study:** Cyber security, networked systems, systems programming

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English  
**Recommended studies:** HSC Mathematics Extension 1

**COMPUTER SCIENCE (ADVANCED)**

**Areas of study:** Networked systems, systems programming, systems security

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English  
**Recommended studies:** HSC Mathematics Extension 1

**CONSTRUCTION MANAGEMENT**

**Recommended studies:** Mathematics (Advanced), Physics, any 2 units of English

**CONSTRUCTION MANAGEMENT (DIP)**

**Assumed knowledge:** Any 2 units of mathematics  
**Recommended studies:** Physics

**CONSTRUCTION TECHNOLOGY**

**Recommended studies:** Mathematics (Advanced), Physics, any 2 units of English

**CREATIVE INDUSTRIES**

**Areas of study:** Advertising, creative writing, cultural and social analysis, digital cultures, English, enterprise innovation, graphic design, journalism, law and the creative industries, media arts production, music, public relations.

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Design and Technology, Visual Arts

**CRIMINAL AND COMMUNITY JUSTICE****CRIMINAL AND COMMUNITY JUSTICE (DIP)**

**Assumed knowledge:** English (Standard)

**CRIMINOLOGY**

**Assumed knowledge:** English (Standard)

**CYBER SECURITY AND BEHAVIOUR**

**Areas of study:** Criminology, cybercrime, data informatics, psychology, systems security

**Assumed knowledge:** English (Standard)  
**Recommended studies:** Mathematics (Advanced), Information Processes and Technology, any 2 units of science.

**DESIGN****DESIGN (DIP)****Visual Communication**

**Areas of study:** Data visualisation, design history, graphic design, illustration, interactive, motion design, photomedia, research methods, visual storytelling, web- and time-based design

**Assumed knowledge:** One or more of Design and Technology, Visual Arts, Information Processes and Technology

**DESIGN AND TECHNOLOGY**

**Assumed knowledge:** Any 2 units of English plus at least two of Physics, Design and Technology, Visual Arts

**EDUCATION (PRIMARY) – ABORIGINAL AND TORRES STRAIT ISLANDER EDUCATION**

Available only to Aboriginal and Torres Strait Islander students.

**Additional selection criteria:** Entry is via the Aboriginal and Torres Strait Islander Alternative Entry Program. Check with the University for more details.

**ENGINEERING (HONOURS)****ENGINEERING (ADVANCED) (HONOURS)**

**Areas of study:** Civil, construction, electrical, mechanical, robotics and mechatronics

**Assumed knowledge:** Mathematics (Advanced) (Band 5), any 2 units of science, any 2 units of English

**Recommended studies:** Physics plus HSC Mathematics Extension 1 or HSC Mathematics Extension 2

**ENGINEERING (DIP)**

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
**Recommended studies:** Physics

**ENGINEERING SCIENCE**

**Assumed knowledge:** Mathematics (Advanced) (Band 4), any 2 units of science, any 2 units of English

**Recommended studies:** Physics, HSC Mathematics Extension 1 or HSC Mathematics Extension 2

**ENTREPRENEURSHIP (GAMES DESIGN AND SIMULATION)**

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English.  
**Recommended studies:** Information Processes and Technology or Software Design and Development.

**GEOGRAPHY & PLANNING (PATHWAY TO MASTER OF URBAN MANAGEMENT AND PLANNING)**

**Assumed knowledge:** English (Standard)  
**Recommended studies:** Any 2 units of English, Geography Social Science (Geography and Urban Studies)

**GRAPHIC DESIGN (PATHWAY TO TEACHING SECONDARY)**

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics  
**Recommended studies:** Design and Technology, Visual Arts, Industrial Technology (Multimedia)

**HEALTH SCIENCE****Health Promotion****Health Services Management****Therapeutic Recreation****Public Health**

**Assumed knowledge:** Any 2 units of English

**Health and Physical Education**

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE) or Community and Family Studies

**Health and Physical Education Pathway to Teaching (Secondary)**

**Assumed knowledge:** Any 2 units of English (Band 4)

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE) or Community and Family Studies plus English (Standard) or equivalent

**Sport and Exercise Science**

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Any 2 units of science and/or mathematics. Personal Development, Health and Physical Education (PDHPE) can be counted as a science unit for this course.

**HEALTH SCIENCE (DIP)**

**Areas of study:** Health and physical education, health promotion, health services management, physical development, therapeutic recreation

**Assumed knowledge:** Any 2 units of English

**HUMANITARIAN AND DEVELOPMENT STUDIES**

**Assumed knowledge:** English (Standard)

**INDUSTRIAL DESIGN**

**Assumed knowledge:** Design and Technology, any 2 units of English, plus at least 2 units of Business Studies, Mathematics (Advanced), Physics, Visual Arts

**INFORMATION AND COMMUNICATIONS TECHNOLOGY****INFORMATION AND COMMUNICATIONS TECHNOLOGY (ADVANCED)****INFORMATION AND COMMUNICATIONS TECHNOLOGY (DIP)****Health Information Management**

**Areas of study:** Cyber security, entertainment computing, health informatics, mathematics, mobile computing, networking

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**INFORMATION SYSTEMS****INFORMATION SYSTEMS (ADVANCED)**

**Areas of study:** Big data, entertainment computing, health informatics, mathematics, mobile computing, networking, social media analytics

**Assumed knowledge:** Mathematics (Advanced), any 2 units of English

**INTERNATIONAL STUDIES**

**Assumed knowledge:** Any 2 units of English (Band 4)

**Recommended studies:** English (Standard)

**LAWS**

**Assumed knowledge:** English (Advanced)

**LAWS (COMBINED)**

**Assumed knowledge:** *For Laws:* English (Advanced) *For the other area of study:* Refer to the relevant entry

**MEDICAL SCIENCE****MEDICAL SCIENCE (ADVANCED)****MEDICAL SCIENCE (FORENSIC MORTUARY PRACTICE)**

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

**Recommended studies:** *For Medical Science (Advanced):* Mathematics (Advanced) (Band 4), Chemistry

**MEDICINE/SURGERY**

**Additional selection criteria:** Aptitude test (eg Undergraduate Medicine Admissions Test) and interview performance

**MIDWIFERY**

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics, any 2 units of science

**Additional selection criteria:** Interview

**MUSIC**

**Additional selection criteria:** Audition, interview, or AMEB (or equivalent) 6th grade performance and 4th grade theory, or TAFE Diploma or Advanced Diploma

**NURSING****NURSING (ADVANCED)**

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics, any 2 units of science

**OCCUPATIONAL THERAPY**

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Physics, Chemistry plus Biology and/or Personal Development, Health and Physical Education (PDHPE)

**PARAMEDICINE**

**Assumed knowledge:** Any 2 units of English, Mathematics (Advanced)  
**Recommended studies:** Biology or Personal Development, Health and Physical Education (PDHPE)

**PHYSIOTHERAPY**

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Biology

**PLANNING****Pathway to Master of Urban Management and Planning**

**Recommended studies:** Any 2 units of English, Geography

**PODIATRIC MEDICINE**

**Assumed knowledge:** Any 2 units of English  
**Recommended studies:** Mathematics (Advanced), Physics, Biology

**POLICING****POLICING (LEADERSHIP PROGRAM)**

**Assumed knowledge:** Any 2 units of English

**PSYCHOLOGY (HONOURS)**

**Assumed knowledge:** English (Standard)  
**Recommended studies:** Mathematics (Advanced), any 2 units of science

**SCIENCE****SCIENCE (ADVANCED)**

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

**Animal Science**

**Assumed knowledge:** English, any 2 units of science  
**Recommended studies:** At least one of Agriculture, Biology, Chemistry, Earth and Environmental Science, Geography

### Biological Sciences

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

### Chemistry

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

### Environment and Health

**Assumed knowledge:** English, any 2 units of science

### Environmental Management

**Assumed knowledge:** English, any 2 units of science

**Recommended studies:** Biology or Chemistry

### Environmental Science

**Assumed knowledge:** English, any 2 units of science

**Recommended studies:** Biology, Chemistry, Geography

### FORENSIC SCIENCE

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

**Recommended studies:** Mathematics (Advanced), Biology or Chemistry

### Mathematical Science

**Assumed knowledge:** Mathematics (Advanced)

**Recommended studies:** HSC Mathematics Extension 1

### Nutrition and Food Science

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced)

### Science/Pathway to Teaching (Primary/Secondary)

**Assumed knowledge:** At least two of Biology, Chemistry, Mathematics (Advanced), Physics

### Zoology

**Assumed knowledge:** English, any 2 units of science

### SCIENCE (DIP)

**Assumed knowledge:** Mathematics (Advanced), any 2 units of science

**Recommended studies:** Biology, Chemistry, Physics

### SOCIAL SCIENCE

#### SOCIAL SCIENCE (ADVANCED)

**Areas of study:** Anthropology, child and community studies, criminology and criminal justice, geography and urban studies, heritage and tourism, peace and development studies, sociology

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** English (Standard)

#### Science, Criminology and Psychological Studies

**Assumed knowledge:** English (Standard)

#### SOCIAL SCIENCE (DIP)

**Assumed knowledge:** Any 2 units of English

#### SOCIAL SCIENCE (POLICING) (DIP)

**Recommended studies:** Any 2 units of English

#### SOCIAL SCIENCE (PSYCHOLOGY)

**Assumed knowledge:** Any 2 units of English.

**Recommended studies:** Mathematics (Advanced), any 2 units of science.

### SOCIAL WORK

**Assumed knowledge:** Any 2 units of English

### SPORT DEVELOPMENT

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Personal Development, Health and Physical Education (PDHPE), Business Studies, Economics

### SUSTAINABLE AGRICULTURE AND FOOD SECURITY

**Assumed knowledge:** Any 2 units of English, any 2 units of mathematics

**Recommended studies:** Biology, chemistry, agriculture, geography

### TOURISM MANAGEMENT

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Geography and/or Business studies

### TRADITIONAL CHINESE MEDICINE

**Assumed knowledge:** Any 2 units of English

**Recommended studies:** Biology

### COMBINED/DOUBLE DEGREES

For combined/double degrees check the prerequisites, assumed knowledge and recommended studies for both degrees. Contact the University for further details.

- Arts/Business
- Arts/Creative Industries
- Arts/Social Science
- Communication (Advertising or Public Relations)/Business
- Communication/Creative Industries
- Communication/International Studies
- Criminal and Community Justice/Social Work
- Design/Creative Industries
- Engineering (Honours)/Business
- Information and Communications Technology/Arts
- Information and Communications Technology/Business
- Information and Communications Technology/Business (Accounting)
- Information Systems (Advanced)/Business
- Information Systems/Business
- International Studies/Business
- International Studies/Social Science
- Music/Creative Industries
- Science/Arts
- Science/Business
- Science/International Studies

Combined/double degrees in Laws are also offered. Refer to main subject entry for details.

### APPLIED LEADERSHIP AND CRITICAL THINKING

This degree can be taken in conjunction with any Western Sydney bachelor degree listed in this booklet. It is not a standalone program.

**Assumed knowledge:** Any 2 units of English

### DATA SCIENCE

This degree can be taken in conjunction with any Western Sydney bachelor degree listed in this booklet. It is not a standalone program.

**Assumed knowledge:** Any 2 units of mathematics

### ENTREPRENEURSHIP

This degree can be taken in conjunction with any Western Sydney bachelor degree listed in this booklet. It is also a standalone program.

**Assumed knowledge:** Any 2 units of mathematics

Times indicated in this publication are Sydney time.

### UAC Privacy Policy

The Universities Admissions Centre (NSW & ACT) Pty Ltd (UAC) recognises the importance of protecting personal information and is bound by the NSW State Information Protection Principles<sup>1</sup>, the Australian Privacy Principles<sup>2</sup> and the NSW Health Privacy Principles<sup>3</sup>.

Details of UAC's Privacy Policy are available at [uac.edu.au/general/privacy.shtml](http://uac.edu.au/general/privacy.shtml). Also refer to UAC declarations which are set out in our publications, online at [uac.edu.au/general/legal.shtml](http://uac.edu.au/general/legal.shtml) or within our applications.

UAC collects personal information and, in some circumstances, information regarding your health, or information about someone other than yourself, for the purpose of processing your application for admission to tertiary institutions. UAC will only collect information for lawful purposes related to its function. You may seek access to personal information about you collected by UAC.

The type of personal information UAC holds includes your contact details (name, address, telephone number, email address), date of birth, gender, citizenship, educational achievements, professional qualifications, employment experience, examination results, information related to your health or the health of a family member and your Australian Tertiary Admission Rank (ATAR).

If you are providing personal information about someone other than yourself, you should tell them about UAC's Privacy Policy, which can be found on UAC's website at [uac.edu.au/general/privacy.shtml](http://uac.edu.au/general/privacy.shtml).

If you are a NSW Higher School Certificate student, your Year 12 results will be held, along with Year 12 results from other states and territories in Australia, in an archive database at UAC. If you are eligible for an Australian Tertiary Admission Rank (ATAR) or a Limited ATAR, these will also be held in the database. Your results, including your ATAR if you are eligible, will be held in similar archives at tertiary admissions centres in other states in Australia. Results held in these archives will only be accessed by the relevant tertiary admission centre if you initiate an application for tertiary study through that centre, or if you submit an application for tertiary study directly with an institution participating in that centre.

Any questions regarding privacy at UAC should be forwarded in writing to:  
The Managing Director, UAC, Locked Bag 112, Silverwater NSW 2128.

<sup>1</sup> In the *Privacy and Personal Information Protection Act 1998 (NSW)*.

<sup>2</sup> In the *Privacy Act 1988 (Cth)*.

<sup>3</sup> In the *Health Records and Information Privacy Act 2002 (NSW)*.

Printed under ISO 14001 Environmental Certification using 100% recycled paper for the body of the publication.

# ACCESS YOUR POTENTIAL.
